Sales management comments

Welcome to Transcon's Premium Beef Bull Sale. Not only is Premium Beef one of the top and longest running sales in Manitoba, but it is now one of the largest.

With cattle buyers paying a premium for the bigger and heavier calves, you cannot afford to miss this sale! These consignors have gone out and done the homework for you. All you have to do is come and get the bull that will improve your herd. The sale is offering a collage of Red, Black and Fullblood Simmentals. This Simmental diversity provides you the opportunity to complete your bull shopping in a one-stop, bull-buying shopping spree and eliminates the need to attend sales of other breeds. While touring the bull pens early this year, we've heard a lot of talk about cow families; these bulls come from some great matriarchs that would improve any herd. There will be power bulls for your cow herds and heifer bulls for your fancy heifers. Thick, deep bulls with extra length of spine are what you'll find at Premium Beef.

As with all our sales, the management team will be through the bull pens prior to the sale. It would be our pleasure to assist you in any and all buyer requirements that you may have. Please call us to help you with our industry leading and reputable order buying.

We'll see you in the Neepawa's Beautiful Plains Ag Complex on March 15th.

OFFERING 93 BULLS

40 Reds 38 Blacks 15 Fullbloods

88 are polled

Delivery

Option A - Bring your trailer to the sale and take your purchase sale day.

Option B - Bulls can be taken back to the sellers and boarded free of charge to April 15/17. After that a \$3.00/day charge will apply. All bulls returning to the farms must be insured. All bulls returning to the farms must be picked up.

Option C - Delivery can be provided at cost and as soon as possible after the sale, at the buyers risk and the sellers convenience.
We request that all bulls returning to the farm be insured.

Sale Headquarters

Bay Hill Inn & Suites, Neepawa

204 476-8888

Insurance will be available sale day.

Lois McRae, Keystone Livestock Services 204/728-3058

For U.S. Buyers

Our sales are conducted in Canadian funds. The U.S. exchange rate will be available at the settlement desk. Upon successful purchase of an animal, the consignors will assist with the necessary documentation, health exams, brokerage and U.S. custom charges necessary to export your animal to the U.S. An additional fee of \$300.00 U.S. per animal will be charged for this service, and is due at time of settlement. Transportation is not included in this amount.

Welcome to the 2017 Premium Beef Bull Sale. We are very pleased and proud of the bulls we have on offer. They are coming along extremely well over the winter and we are confident they will continue to develop into a strong set of young herdsires.

The Transcon group has selected a mix of Fleckvieh Fullbloods which lead off with our IPU Romano 90X sons that have proven themselves over the years and a smart looking Polled Balboa son. The Reds and Blacks are from leading AI Sires, our Crosbyson, CMS Sochi and Master Morgan herdsires, with emphasis on calving ease and explosive growth as they get older.

Thanks again for your continued support. We truly appreciate your business and strive to bring out hard working bulls. The bulls are on a complete vaccination program. Schweitzer Simmentals reserve the right to collect semen for in herd use only on any of our bulls in this sale. Semen would be collected at our expense and the buyers convenience.

Any questions can be directed to us or any of the Transcon Team. Come early and take a look at the bulls at the farm.

—Top 4% of the breed for milk (34.8)

—Top 10% of the breed for Maternal Weaning Weight

—Duramax is the result of Romano x Moses breeding. His dam is a 10 year old cow, with a good udder that never misses a beat.

A lot of proven genetics here with the likes of Legend, Jahari, Metro, Moses, Houston and the Bar None Bonnie cow. Offspring have sold to Ramsey Simmentals, Storebo Bros., & Andrew Addis. Duramax is a moderate framed bull with lots of stoutness, big testicles, wide topped and big hiped. A young herd bull in the making that will add extra milk and sire very marketable male and female progeny.

—Top 35% of the breed for Yearling Weight (100.5)

—Director displays plenty of length, width across his topline and hind quarter. He has a great pedigree on both top and bottom. Progeny off the 17A cow (that is just starting to prove herself) produced a high selling bull in the 2016 sale to John Gillan. Here is a herdsire that combines calving ease with overall performance! He should have a lot of admirers come sale day!

-Top 10% of the breed for Maternal Weaning Weight
 -Top 25% of the breed for Milk (28.9)
 -Top 35% of the breed for Calving Ease (7.3)
 -21D is one of Myrna's Pets. He just loves extra attention.
 -A polled, Full Fleck, Balboa bull that is extra hairy, moderate framed, easy doing and structurally sound. He offers power and volume, is deep bodied and heavily muscled. Digger will add milk and calving ease. This bull's dam is a 1st calf heifer, and we are looking forward to what the future has to offer this young cow. A real beef bull in the making!! Definitely a SALE FEATURE here!

 -Goldmine has that unmistakable herdsire presence to him. A young February bull that possesses extra muscle mass, depth of rib, stoutness and thickness from behind. He is good structured, has high performance traits, is big footed, large scrotaled and is backed by an outstanding cow family! Offspring from 72U has sold to: K & S Simmentals purchased our high selling bull off this cow in the 2015 bull sale, Cameron Land & Cattle purchasers of our high selling bull in the 2016 and another to Willie & Heather Glass! What more can we say..... but help yourself here cowboys, this bull will help build a wonderful herd for somebody!!

 -Top 2% of the breed for Maternal Weaning Weight
 -Top 25% of the breed for Calving Ease (8.8)
 -Above breed averages in Weaning and Yearling Weights
 -Here is another bull out of a great cow family we can't say enough good things about. This bull's dam, 26P, is another one of our oldest cows that always comes up with a good one and has given us 12 calves in her lifetime. Longevity and fertility built in here guys. Pasco just produced a sweet heifer calf this year. Some of her progeny has been sold to: Double Bar D Farms purchased the high selling bull in the 2015 bull sale, Windsor Farms also purchasing a high selling bull in the 2016 bull sale, Kopp Farms, T & M Simmentals, Ray-Wyn Farms, Peterbuilt Simmentals, Skyridge Farms and Buick Farms. Dictator is a younger, February 10th bull that will pass along milk and calving ease and performance traits to his new owner's herd. A fancy, good haired bull that we feel is structurally correct and falls a bit behind the rest not only because of his age but because of his dam's age and milk production. Don't let 74D fool you.....give him some extra time and age and he too will produce those good marketable calves we are all looking for.

- Denali is sired by the calving ease Beef King bull, that has been used extensively on heifers. A smaller made bull that is very correct in his structure and maintains depth of body, with muscle mass in his rib shape and hind quarter. 8D is showing good testicular development and is backed by a reliable pedigree in the 1M grandmother.

Welcome to the Premium Beef Bull Sale. We have 18 bulls consigned this year and there is something for everyone. There are performance oriented bulls in both red and black. Calving ease has been a focus for all of our bulls but there is definitely some that we feel are made for the heifer pen.

The bulls are athletic and have good feet and legs. 90% of their grain ration is oats and they get free choice hay.

All of our bulls have been tested for color and polled or it has been determined by parentage.

If you have any questions do not hesitate to contact us. We encourage you to come see the bulls at the farm any time before the sale. We are easy to find just 5 minutes south of Minnedosa or 20 minutes north of Brandon off of #10 highway.

RKTS MONOPOLY 5D

5D is everything we hope to see out of our first calf heifers. 76lb birth weight with an actual weaning weight over 800lbs. He has excellent muscle expression, testicles and feet. 5D's dam is a massive barreled Godfather daughter with an unbelievable disposition. Monopoly 9B was one of our high sellers two years ago and has been used more every year in our heifer pen. Polled/Heterozygous Black.

RKTS Colossus 11A

RKTS Bella 1Z

These Colossus calves should be well liked in Neepawa. Colossus was the high seller in the 2014 Premium Beef sale and certainly drew a crowd then. 9D's dam, 1Z, raised a good Combustible son that sold in last year's sale. She also is the grandmother of RKTS 8D(lot 27). 1Z has certainly made a name for herself around our farm and is only just coming into her prime years. 9D has great muscle shape and is clean through his front end. He will make a good herd bull for someone. Homozygous Polled/Heterozygous Black.

16D is one of my favorite bulls this year and when you see him you will see why. He is long bodied and soft sided. He is built a lot like his sire. His dam, 6Z, is a beautiful dark red cow that has really come into her own. 16D's grandmother, 5X, is maybe the best looking cow on the farm and usually gets spotted by visitors touring our herd. She is the kind of cow that you can never seem to have enough daughters off of. Check out his calving and growth numbers. Definitely a bull the cowboys will find. Homozygous Polled.

*Springcreek Apollo 804B**RKTS Miss Ransom 9Z*

A couple years ago we wanted a bull with an exceptional mother that was homo polled and homo black with a white face. Apollo was an easy choice. He sires calves with deep rib shape, lots of hair and big blaze faces. 40D has that great shape to him and good testicles.

His maternal pedigree traces back to the great 1P. On his sire's side you have Linne 33R whose embryos and progeny have been very popular. Her most well known son is Apollo's full brother, Springcreek Olympian 66A. Buy with confidence. I think 40D will sire the right kind. Homozygous Polled/Heterozygous Black.

Another Apollo son that has a little extra length and frame. He is a 3/4 brother to 45D. These Apollo bulls are all sound footed and athletic. Apollo himself has perfect feet and moves effortlessly. He is one of the best breeding bulls we have ever had. With that being said we are confident that these bulls will get the job done. Homozygous Polled/Homozygous Black.

Springcreek Driver 135Z
RKTS Danica 34B

RKTS PRIME CUT 13D

34

When you see 13D you will never believe he is out of a first calf heifer. He was born weighing just 72 lbs and has grown into a huge topped, heavy muscled beef bull. Prime Cut was our heaviest bull in January at 1455 lbs and surprise, surprise he is out of a Driver cow. They really do weigh like lead. His grandmother, 1P, is 13 years young, has never come in open and calved on January 6th this year. This winter we are calving 12 females that trace back to 1P with many more in the yearling replacement pen. She is a true legend around this farm. On top of all this he has a tremendous set of EPDs. Prime Cut is right for the times and is destined to do great things for someone. We would like to retain some semen for in herd use. Homozygous Polled.

RKTS COMBUSTIBLE 18D

35

18D is a long bodied bull that is thick and docile. He is free moving and clean fronted. 18D's dam, 2X, is one of the elite cows on the farm that has three daughters in our herd and a son working for Corey Derochers. She always produces a good one. 18D is in the top 5% of the breed for calving ease and the top 20% for birth weight. He will sire all black, polled calves. What more could you ask for? Homozygous Polled/Homozygous Black.

8D is a small headed, small shouldered bull that has a lot of rib shape and length. His mother, 43U, has that same length and barrel. 8D has a solid set of EPDs and great hair. Homozygous Polled/Heterozygous Black.

In the spring of 2015 we had a chance to partner with RKT when we were both in search of a bull to use on heifers. The result of that was the purchase of WLB 449B. We calve our heifers on grass in April and May so calving ease and vigor are the top two requirements, the third requirement is to successfully get those heifers to re-breed. We bred 15 heifers to 449B this past year and had excellent results on all three of our requirements. The bonus was some decent performing calves to market this past fall. We have bred all the heifers to 449B for this calving season with confidence after last year's results. Bruce Curle/Curle Farms

When we bought 28D's sire in partnership with our neighbor Bruce Curle we wanted a bull that we could run in our heifer pen that would give us low birth weights and calves that would hit the ground running. 449B has certainly done that. To date at our farm his sons have averaged 88lbs and heifers just 69lbs. 28D offers much more than calving ease. He is long bodied and deep sided with good testicles. His dam is a great young cow with a near perfect udder. Homozygous Polled/Homozygous Black.

A good 449B son with a little extra muscle expression and thick hair coat. His mother is deep sided with a good udder and plenty of milk. 38D's grandmother is the great Blackgold 110S donor cow. Two of the thickest bulls that we have sold in this sale were off of her. They sold in the 2014 sale. I think a group of steers off of 38D would be in high demand. Homozygous Polled/Homozygous Black.

59D is wide topped with a lot of middle to him. The Driver sons have been popular in Neepawa. You might remember the explosive young Driver bull that was our high seller last year going to Triple T Diamond. 59D's mother is a beautiful Black Bear daughter that has a near perfect blend of thickness and femininity. Like all Black Bear daughters, her udder is very good. If you like them thick you will probably have 59D marked. Polled/Homozygous Black.

33D will have lots of admirers in Neepawa. He is heavy muscled and has lots of guts. He is smooth shouldered and has great testicles. 33D is an E.T. calf out of the great Opal 652S cow. If you keep replacements or sell heifers an Opal son is a wise investment. We have built a small herd of Opal daughters and they are all easy keeping, good uddered, functional cows. Homozygous Polled/Heterozygous Black.

Greg Ph 204 776-2164 204/724-0564 cell

email: gworkman@mymts.net

Welcome to Workman's section of the Premium Beef Sale. To start off, the bulls have been fed a steam rolled ration made up of 90% oats and 10% barley supplied by Master Feeds.

This year we feature a strong group sired by MRL Red Whiskey which includes maternal bothers to high sellers from years past, also bulls sired by the \$75,000 Red Mountain, Vision, Exclusive and our calving ease specialist Boundary Odin 103Z.

We did some poll testing early so those results are in the catalog with more sent later so those results pending. If you need a second opinion please call Darren. We work hard to raise maternally strong bulls that will produce those sought after replacement females and market topping male calves. I believe the bulls are worth a look. They are thick, well muscled, good haired, are very maternal by their EPDs and many have the added bonus of being homo polled. I did not put in any feature lots for the simple reason that the red bulls for the most part are very similar and this would be the best group of blacks that we have brought to Neepawa.

Call or stop in at the farm any time prior to the sale. Thanks for attending the sale!

Homo Polled. This would be our first of 8 Red Whiskey calves on offer. Solid red, moderate birth weight, lots of hair and not to mention thick. The dam of this bull is one that we should flush as she has produced both herd bulls and productive heifers, all to date have been homo polled also. Not to mention her absolute perfect udder. 52Y has a son working at Lawson Davie of Neepawa and a heifer at X-T's of Swift Current. She weaned Gibson off at 1002lbs on Sept. 4th. Check out the balanced set of EPDs. Herd bull time here!

Red Stakes was the winner in the 205 day adjusted weight at 926lbs! He may have came small but he did nothing but grow, herd bull written all over him at a very young age. It was an MRL Destination 91Y daughter that raised our high seller last year going to Beechinor Bros for \$25,000. Both the sons and daughters off him have worked really well. 22D was just shy of 1300lbs on December 14/16 so his performance continued after weaning. 15B has calved again with another herd bull prospect. Red Stakes is very maternal. Just check out his EPDs, milk at 38.4 and maternal calving ease at 14.9, way above avg., not to mention his dark red color, big middle, square hip, good hair coat and a disposition second to none.

Homo Polled. Red Bourbon was the highest weaning calf at 1020lbs on Sept 4th. What's amazing about this is that she raised both calves all summer bringing in over 1800lbs of calf by weaning. We do not usually keep twins but this guy puts it all together, wide top, big middle, huge hip, homo polled, beautiful hair coat and looks to have a more than average tool box. 87Y is a Wise Guy sired female, so you'll notice a number of our top performing bulls have been off his daughters. Red Bourbon was also the heaviest on Dec 14th at 1360lbs. Sunny Valley Wise Guy females have just flat out excelled raising high performance cattle that have moderate birth weights, and 87Y fits that bill. 87Y has a son working at Don Dickinson of Carberry and two daughters are working in our herd. Dam of 87Y is 16W who also has a real good Red Whiskey consigned to the sale. This guy won't be hard to find sale day!

Homo Polled/Homo Black. Very nice solid black Exclusive calf here that is moderate framed, has tremendous hair, good disposition and adequate testicle development. 96W was purchased from Mar Mac Farms as a high seller out of the Keystone sale a couple few years back. We have a couple of daughters milking off 96W that have real nice udders and are producing well, heifers so far.

Homo Polled. I know I'm repeating myself from previous sales but here is another son that is out of a cow that just keeps putting bulls in this sale year after year. 32D comes in a moderate package, moderate birth weight, loose made with a tremendous hair coat. 10X is a big powerful, solid red cow that just keeps pumping out bull calves. She has another bull calf on the ground this year. 10X has sons working at Perkin Land & Cattle of Elgin, Greg Fraser of Carman and Boyd Mullin of Cartwright. 32D was second heaviest at weaning at 1010lbs on Sept 4th, with an adjusted weight of just under 900lbs. The Red Whiskey calves were our heaviest sire group and are so similar - wide topped, big ribbed, square hiped and lots of hair.

Homo Polled test pending. Here is another Red Whiskey, same as earlier, moderate framed, loose made, wide topped, big ribbed and heavy haired. The 30Z cow is solid red out of two black parents. Both her and her dam, 29C, have had bulls in this sale before. Last year's bull went to Lorne Broustal of Ashern and she has a heifer working at McRuer Simmentals of Boissevain. Both have calved again early in the calving season so fertility and productivity built in. I missed him when we sent our poll tests away earlier but should have results by sale time.

I know I keep saying the same about the Red Whiskey sons but they do have performance, lots of middle, hip, depth, top, hair and they are very similar in their makeup and 41D is no exception. The 24Z cow is a pet around the farm as she was Tyler's last 4H heifer. A nice uddered, low maintenance cow that has a full brother on the ground this year whose birth weight is under 100lbs. 41D is a performance bull with a respectable 205 day of 855lbs.

Homo Polled/Hetero Black. Smooth made solid black calf out of our walking herd sire, Boundary Odin 103Z, a calving ease specialist. Lots of length, middle, hair and a middle of February calf. We ran Odin with the cows for clean up after AI in 2015 and the results were great. This is a real good herd bull prospect out of a More's Tank female. As we calved his daughters we are finding the value in them. A Tank daughter raised the high weaning weight heifer calf over all two years in a row. Check out the EPDs on 60D, way above for calving ease and for milk.

Homo Polled/Hetero Black. A Boundary Odin that is a solid black, heifer bull approved with enough power to be used on cows also. 61D has that extra length, adequate depth, smooth made with a small head. 19A produced our high selling bull at last year's sale going to Beechinor Bros in Alberta for \$25,000. 19A was AI'd but went an extra cycle and rebred to Odin. Well she caught this year to Red Mountain and moved up 6 weeks to the start of calving with a heifer calf. The Destination females just keep rising to the top raising the high performing cattle on our farm. Check out 61D's EPDs, way above average on CE and milk.

email: carson@inetlink.ca website: simmentalbreeders.ca

Welcome to the 2017 Premium Beef Bull Sale. We have 25 bulls on offer this year, which we are very proud of. We feel we have something for everyone. Our herdsires have exceeded our expectations once again this year from the meaty Advantage sons, to the very thick made Big Buff sons and the very attractive Moneystripes. Don't overlook our exceptional 2 year old we have in the sale this year as he is one hell of a herdsire prospect!! We also have some very powerful bulls off of some very popular A.I. Sires.

Please feel free to stop by the farm. We would love to show you the bulls and their mothers in their own environment. Or don't hesitate to give me a call. All bulls can also be viewed on our website at www.simmentalbreeders.ca

If we don't catch up beforehand I hope to see you all at the sale!!

Bert's NR Simmentals

Welcome to the 2017 Transcon Premium Beef Simmental Bull Sale from Bert's NR Simmentals. This year we have 8 bulls for your appraisal. The group consists of calving ease and performance bulls, black or red, and 7 of them are homo polled. We sell our bulls here at the Premium Beef Bull Sale and a select group of females at the Pembina Triangle Simmental Association Sale in Cypress River in early November – both sales professionally managed by Transcon Livestock.

Bert's NR Simmentals has a website (www.BertsNRSimmentals.com) that showcases our program, including our foundation females, sale offerings and a snapshot of life on the farm and the show road.

If you have any questions about our bulls, please don't hesitate to contact us or the staff at Transcon Livestock.

Terms & Conditions

TERMS - The terms of the sale are cash, cheque, VISA, Mastercard, or Interac, payable at par at sale location. There will be a 3% administration fee on all VISA or Mastercard purchases applied to the buyer's invoice. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID - Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

SALES TAXES - Applicable sales taxes will be charged on semen, embryos and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INFORMATION SUPPLIED - The information contained in this catalog is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Jamesway Enterprises Ltd. assume any responsibility if the information supplied is not accurate.

CATTLE PICTURES - The images in this catalog are believed to be accurate representations of the individual animals. Transcon Livestock Corp. and Jamesway Enterprises Ltd. assume no responsibility if the images as received have been altered.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors. or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.
