Sales Management Comments

40 CONSECUTIVE SALES!!! No other Canadian Simmental Sale can claim this kind of bragging rights! It's also very special for the legacy of "Simmsational" to celebrate this milestone in the same year that Transcon Livestock Corp. and the Canadian Simmental Association are gratefully celebrating their 50th Anniversaries! It's really a banner year for the Simmental breed presenting the evidence of durability and staying-power the breed has in this nation.

After 39 years, I really don't have to educate most of you on the great quality that will be offered at Simmsational. Headlined by the always highly anticipated "LaBatte Simmentals Mini-Production Sale" the consignments from all included complement this feature and in fact, present a friendly rivalry to the event for a true showcase of the breed's females as good as any other sale in Canada. Just do a quick mental list of how strong the Simmental sales are each fall from a quality level and I'm sure, like me, you will rank Simmsational in the top echelon!

The bonus of Simmsational is the great meeting ground it has become. The sale centrally locates in Western Canada and is easily accessible to so many breeders, not to mention only a 45 minute drive from the Regina airport. We are, on behalf of all the consignors to Simmsational so glad to offer this sale as a depot for transferring cattle from other sales that have happened prior, please take advantage of this opportunity and stay for the sale! Meet new and old customers here and don't worry about a place to house your sale heifers overnight.

Please call on us to assist with any buying needs you may have in the event you may not attend personally. To do this, simply call any of our cell phones listed to access our highly-trusted, industry-leading order-buying services.

Happy 40th Simmsational, see you in Moose Jaw,

Jay Good

Welcome to Simmsational 2017 at Johnstone Auction Mart, Moose Jaw, SK on Thursday, December 7th. This is a special sale as it is the 40th Anniversary sale of this great event. It was held for many, many years in Regina, SK and in recent years was moved to Johnstone Auction Mart just west of Moose Jaw, SK. It was once a two day sale with 200 head on offer. There was a show the night before the sale and a huge social. Though the numbers and location have changed, one thing that hasn't changed is the quality of the cattle and great people that consign to it. I personally think the quality just keeps getting stronger and stronger. Known for maybe having the best offering of bred heifers of any sale in Canada, in recent years we are seeing a very strong set of heifer calves coming to the sale too. We've been fortunate to have consigned to all forty sales of this great event! (May be aging myself a little.) I would like to thank all the consignors over the years for bringing great cattle, their dedication to the sale and this breed. And to thank Transcon Livestock for getting this sale started. It helped many of us out to have a sale to market our cattle. We started selling our cattle in this sale through the South Central Simmental Association. It's been a great forty years, and there's been many changes in the cattle and consignors. Simmental has positioned itself as one of the leading breeds in the cattle industry with it's high maternal traits, performance, carcass values, docility and is readily accepted by the commercial and feedlot industry. Our congratulations to the Canadian Simmental Association as it celebrates it's 50th Anniversary in 2017. It was the early pioneer's hard work and dedication that have made this breed become so popular and have enabled us to make a good living in doing what we love to do – raise Simmentals!

As usual we are offering 10 bred heifers to the sale this year, headed up by 5 bred red heifers, 3 black breds and 2 fullblood breds. We feel this is a very exciting group top to bottom. They are all AI bred and have no exposures.

Come and join us at Johnstone Auction Mart, Thursday, December 7th for the special 40th Anniversary Simmsational Sale. There will be some great cattle on offer, good hospitality, food, fun and Christmas Spirit. From all of us at LaBatte Simmentals we wish you a very Merry Christmas and a Happy New Year.

Barry

P.S. Grandkids are doing great. All healthy and growing like weeds. They're kept busy with 4-H, karate, hockey and sports in general. They keep their parents on the road putting many miles on their vehicles. We're so lucky to have them live so close to us.

Bred AI April 24 to IPU Red Deputy 25C PG1159444. No exposure.

Powerful best describes this Red Zone 16A daughter. She's dark red, deep ribbed, angular and soft made with nice neck extension and is very broody. She's setting up a really nice udder and will become a front pasture cow. The Red Zone females are powerful, bull making cows. We just finished flushing our top donor cow, Pocahontas 2Y, to Red Zone and also a Noremac 16M daughter, 89W. 27D is mothered by one of the last Red Chief cows we own and you know how high I was on those females. Being bred to the exciting IPU Red Deputy bull is an added bonus. We couldn't be more pleased with his first calf crop this year. As you will see in our spring bull sale, some of our highlight bulls are sired by him. With 27D's power and pedigree she should become a feature cow in her new owner's herd.

Bred AI April 7 to SVS Brooks 669D PG1168724. No exposure.

The first Muirheads Broker 221Z daughter we have offered for sale at Simmsational. This red baldy heifer is going to make a tremendous cow. She is mothered by a heavy milking Freedom daughter going back to the Haas Ranch 78P cow, who was one of the feature cows in the Haas Ranch dispersal and we were fortunate enough to purchase her. As an added feature, Brooklyn 48D is bred to the \$60,000 SVS Brooks 669D bull that MI Simmentals purchased from Sunny Valley Simmentals this spring in which we were the runner up bidder. This Red Whiskey son is out of a tremendous cow family and we feel very fortunate to have purchased a semen pack in him. A cherry dark red, blaze face heifer or bull out of Brooklyn could be a valuable commodity come this time next year.

Bred AI April 18 to IPU Red Deputy 25C PG1159444. No exposure.

A beautiful, red El Tigre daughter that's really hard to part with. We haven't many red El Tigre daughters and this one is a special one. She's moderate framed, deep and thick, is setting up a beautiful udder and has brood cow written all over her. Mated to Red Deputy, her calf could be something very special. She's definitely one of the favorites and admired by visitors.

Bred AI April 14 to IPU Red Deputy 25C PG1159444. No exposure.

A super LFE Vegas daughter out of a beautiful uddered 13 year old Red Chief female. This is the third year in a row that a daughter of 209P has been offered in the Simmsational sale and she has another full sister to 161D in the heifer pen this year. Her first two heifers selling in 2015 and 2016 averaged \$14,750, selling to Lewis Farms in 2015 and Packet Bros in 2016. All three have been the same type - moderate framed, deep and soggy, setting up beautiful udders and have brood cow written all over them. With the resulting calf's pedigree including Red Deputy, Vegas, 56U and Red Chief there should be a lot of future in this mating.

Bred AI April 4 Kuntz Sheriff 8A PG794268. No exposure.

A very stylish, dark cherry red Prime Beef daughter out of a first calving Horizon female. This is a very good mating as in our spring bull sale a three-quarter sister to 190D sold for \$11,250 as an open heifer to Kevin Carson of Kelowna, BC. This heifer is feminine, deep bodied, thick made and very stylish. She's bred early to the calving ease specialist Kuntz Sheriff, who calves easy and leaves some outstanding progeny.

100% Fleckvieh. A really super made, dark cherry red heifer with big wrap around goggles, tons of volume and capacity and sired by the great Westgold Standout bull that walks the pastures of Red Willow Ranch. This heifer has been a beauty right from birth, mothered by an excellent 100% Fleckvieh Colossal daughter who has an outstanding Mr Adonis heifer in the keeper pen this year. 79D is bred to our new fullblood herd sire, RWR Solstice 33D, who has an 80lb birth weight, is blood red and has lots of performance. This heifer is broody, broody and we believe she is going to be a standout for her new owner.

Another Standout daughter very similar to 79D. Also dark red with big goggles, deep bodied, angular and very stylish. 136D is setting down a very nice udder as does her Hemi mother who we purchased from Little Willow Creek Ranch out of The Source sale. 136D is bred early to Crossroad Radium who we think is one of the best all around Simmental bulls in the business. Calving ease, very saleable bull calves and his daughters make excellent females. We are proud to have raised these two Standout fullblood heifers and we think you will appreciate them when you see them.

Bred AI April 13 to Wheatland Bull 656D BPG1196321. No exposure.

Another Muirhead Broker 221Z heifer, this time black with a beautiful blaze face. Very long made, deep and stylish. Her mother is also blaze faced, an Upgrade cow that was purchased by Wade out of Simmsational from Sandra Jeffery. It took some dealing but I finally got Wade to sell her to me. Brooklyn is bred to Wheatland Bull 656D, a soggy, well made, Wheatland Final Affair son with a 74lb birth weight. Ourselves, Cowtrax and Circle 7 purchased him this spring out of the Wheatland sale. He'll get heavy use in the heifer pen but shows a lot of promise of a very complete made bull. A blaze face heifer or bull out of him could be very marketable.

If you want them thick made, moderate and easy doing this is what this heifer is all about. She's a brood cow if I ever saw one. Her mother is a black, blaze face, Poker Face cow that possesses a great udder, is also moderate and easy keeping. Bred to the calving ease bull Bounty Hunter who calves really well and the calves grow from birth. This Cowboy Cut heifer is one of my personal favorites. She has a great disposition, is setting up a beautiful udder and just has mother cow written all over her.

A very similar heifer to 135D. Deep, deep bodied, easy doing, stylish and correct. Her mother is a beautiful uddered Horizon daughter, going back to the great Pocahontas 105L cow. Her sire, Soda Pop, is a full brother to the six sisters that sold at Friday Night Lights 2014, averaging \$15,000. Already one of those full sisters has qualified for the Agribition RBC Supreme Show as CMS Soda Pop 425B with heifer calf at side, shown by Black Gold Simmentals, was crowned Supreme Champion over all breeds at the 2017 Prince Albert Exhibition show. We think this great young female has a great future and is mated early to WLB Bounty Hunter. As a bonus she is homozygous polled by parentage.

Bred March 30 to Kuntz Determined 9D T1194661. Preg tested safe. No exposure.

SVS Lolita 639D is an ET daughter off our 229Z donor and Blueprint. I feel that Blueprint's legacy will be his daughters. All signs point to them being moderate framed, big bodied, good uddered females and 639D is no exception. She is bred up early to our exciting new herdsire, Kuntz Determined 9D. He comes from a very successful flush and was the high seller this spring for the Kuntz's. We are anxious to get his first calves on the ground and feel that his mating to 639D will really click. 100% Fleckvieh.

SVS Blk Jenna 651D has been a favorite in the pasture all summer. She is moderate framed, big bodied and has loads of hair. 651D comes from our Jenna cow family and they speak for themselves! She is setting up an excellent udder, just like all the Jennas. Bred early to Bounty Hunter, whose first calf crop arrived this past spring at WLB. Bill's report said that they all came easy with tremendous vigor. Jenna 651D will be easy to find sale day!

Bred March 24 to South Seven Mr. Adonis 96Z 773081. Preg tested safe.
No exposure.

Paula is a powerful daughter of Starwest Blueprint that is designed to produce bulls. She is long bodied, super stout and has plenty of depth. Paula comes from a cow family that has worked very well raising big stout calves on exceptional udders. Her early mating to South Seven Adonis has exciting possibilities. As an added bonus she comes in a dark red attractive package and is polled.

Diva is one of our feature heifers at Simmsational this year. She has a lot going for her. Diva is from our Black Destiny cow family and her grandmother is our 102N donor female that produces an exceptional set of calves including our high selling black bred heifer in this sale last year and some of our top sellers for the past few years. Diva has that extra length and thickness all in an easy to look at package. She is strong structurally and is setting up a great udder like the rest of her family. Homozygous Polled by parentage.

88D is a deep dark red heifer that is bred to be highly maternal with Gunner & Bodybuilder on the bottom side. Her grandmother, 27R, was purchased at Checkers many years ago and has started a cow family that has grown to quite a few. They have worked very well. They are peas in a pod and hard to tell them apart. Dark red, deep sided cows with good udders. 88D has the potential to be a front pasture female and with her mating to the calving ease Red Mountain she should get off to a great start.

89D is a young March daughter of X-T Red Bodacious that we purchased as a feature from X-T in 2015. Bodacious has produced a strong set of females as you can see by the three we have brought to town and a bunch more here at home. 89D is mothered by a good Everready female that has produced three top heifers to date. The Everready cows are strong maternally and continue to produce some of our top calves year after year. 89D is mated to the ever popular Red Mountain.

The Cobra progeny have been highly accepted by both the seedstock producers and the commercial cattlemen over the past few years. He still looks amazing as he has aged. 92D stems back to our Black Joker donor cow who we have sold numerous high dollar females and bulls off of. 92D is a full sister by blood to the calf we showed along side her dam at Agribition last fall, and was crowned People's Choice. Thank you to EDN Simmentals for purchasing her at Agribition last fall. The pedigree has been put together right on 92D and she has the correct conformation to go along with that pedigree! An absolute tank of a heifer that has been marked for this sale as a bred since she was a few weeks old. Out of an IPU Ultimate cow I bought out of the Kopp dispersal. The 10X cow has been an outstanding producer and this heifer by Stubby 43Z could be the next big thing. His daughters have ideal udders with lots of milk and are easy keeping, moderate framed, and breed back easily. If this heifer produces like her mother, the new owner will be getting a bargain whatever the price. Come check out her maternal brother at Agribition. He is the absolute best bull I have ever raised and is fault free, right down to his puppy dog temperament.

This black blaze face heifer is one that should be staying at home. She has tremendous volume, depth and width across the top. Her dam, Erixon Lady 72W, has been an outstanding producer in our herd. We have retained a full daughter to this heifer in our herd and another sold to Triple T Diamond Simmentals in Simmsational 2014. She is bred to our new junior herdsire, City View Damascus 605D, for an early January baby. We were looking for an easy calving bull for the heifer pen when we came across this red blazed faced son of KWA Rock 36B. Check out his calving ease EPDs. We are excited for his first calves in 2018.

Exposed March 22 - June 30 to City View Damascus 605D PG1175703.
Preg checked to be around 5 months on August 18. Due early January.

This solid black heifer is sired by Double Bar D Tanker 191Y. This is the last of his calves that will be offered for sale. He had a tremendous impact on our herd and he consistently stamped his calves with depth, length and width across the top. The dam of this heifer is a hardworking, productive cow. She raised a full sister to 423D which sold to Double Bar D Simmentals in Simmsational 2014 as well as an outstanding bull calf in 2017 which will likely be our lead off bull in our bull sale next March. She is bred for an early January calf to City View Damascus 605D.

Welcome to our part of the sale. Our females are all bred to our own herd sires. We believe the consistency of bigger sire groups is important in developing a consistent group of brood cows as well as sale bulls in the spring. Our cows go out to grass mid April and come home mid November so AI'ing is not an option for us. Exact observed breedings are hit and miss when the cows are at pasture because our attention has then turned to seeding. We hope you will find something that suits you in our offering. This is our 25th sale and we look forward to seeing many of the same faces as well as some new ones. In closing, I want to wish you a Merry Christmas and health and happiness in 2018.

CITY VIEW RED MILESTONE
LAZY BAR-B ALL RED 30K

Exposed March 26 – June 1 to BLCC Mr Sheriff 25C PG1159694. Observed bred March 28.

16D is a smaller framed heifer with a big, deep hip and wide top. A very soft made female with a great disposition. Her dam is one of the very few Red Mark daughters still here and has been a solid producer for us. Her bull calf will be a highlight bull at the Advantage sale next spring! 16D is a female that many of you will have marked sale day and is a definite favorite of mine. A proven future producer of Sale cattle? --- probably.

This heifer is my best red heifer for sure. She will be at the top of most other operations as well. A very balanced, deep ribbed female with extra eye appeal. She is sired by the Casino son I purchased from Sunny Valley. A female that has a flawless cow family to back her up. A very powerful female with a proven pedigree. Bred to the calving ease specialist, BLCC Mr Sheriff 25C. Her granddam was a high selling female purchased from 3D at Simmsational.

Bred AI bred April 28 to FBF1/SF Ignition BPTRS1149378. No exposure.

51D has been a real standout ever since she was a calf, as were all the females in her pedigree for generations back. She is just loaded with natural thickness and so much style. When you look at her you just know this one is going to make a great cow. Our young Tracker cows are excellent females and with a Walk The Line cow on the bottom side the best of our black maternal genetics are locked in on this female. She bred to her first service at less than 13 months of age to the easy calving Ignition bull. We have had a number of Ignition progeny and we know you won't be disappointed with 51D's calf. Remember she is just an April heifer.

I don't know where to begin describing the Missile sired calves. I would have to say after many years of raising Simmental cattle that the Missile's are our best sire group ever. It isn't just that some of them are good, they are all good! This top end red heifer is so complete in her make up, from her thick hind quarter, big hip, big top, right up to that super fancy front end that just screams mother cow. She's out of a real good young black cow that was one of the high sellers from the Harvest Hoedown sale as a bred. This will be the first Missile heifer to sell so if you want to get a year's lead time on some superior genetics don't miss this heifer, she is a good one. X-T Red Mistress 3E will be displayed at Agribition so be sure to check her out there.

On picture day this heifer was cycling hard so the last thing on her mind was standing still for a picture, and this picture really doesn't do her justice. This is a really fancy heifer with a little white on her face. Her dam is a red Bodybuilder female we purchased from Oakview as a high seller out of the Pembina Triangle sale. We feel that this young lady is going to make a really special bred heifer and has as much cow potential as any. Almost an April and definitely worth a close look.

Homo Black. This is a heifer we are really excited to offer. She is as deep as they come and smooth in her make up. Her dam is a super uddered Powerline female that is quickly becoming a foundation female. It was a very trying year and she weaned off an almost 800 lb calf in August. Macy herself is a very quiet female and is setting up an excellent udder. One of the reasons we are offering her is to show off what her sire, Hercules, can produce. And produce he did; unfortunately we lost him, so this will be one of the last chances to acquire progeny off him. Hercules is a full sib to the great Olympian, but more moderate and fancy. Macy is, to say the least, very maternal on both sides, so don't miss this opportunity to acquire this genetic masterpiece.

This female represents our AI program with TNT Tanker, TNT Hummer and Ebony's Trademark all showing up in the pedigree. With this cow family 2D should be in her new owner's herd for a long time. Her great granddam was our first black cow and has every daughter in the herd with the exception of DESS 13C who is working at Jerred Henderson's. The granddam, DESS 4W, also has a Missile daughter, DESS 5E, who is also in the sale and won't be hard to find. For anyone following EPDs have a close look here.

When we saw MRL Missile 138C at the sale we hoped that whoever got him would have semen for sale. When X-T, Robb's and Bouchard Livestock purchased him we spoke for a package that day. When the first couple of calves hit the ground we knew it was the right decision. Have a look at 5E, her half sister 38E and with the brothers in the bull pen we think Missile progeny will be talked about for a long time. With our strongest black cow family on the bottom side we think this heifer has a bright future ahead of her.

Here is something pretty special! These will be two of the first daughters available off the \$165,000 WFL Westcott who was the highlight of the spring 2016 sale season. He is one of the most exciting bulls to come along in a long time, and we feel he has more than lived up to his hype. He has left a tremendous set of calves that exhibit unmatched depth of body, spring of rib, overall mass and sound structure. This female is backed by one of our top cow families that year after year raise some of the top bull calves in our program. This cow family not only adds quality but also an outcross pedigree to this outstanding package. The potential of this female is truly endless!

This female is a prime example of what we are striving to produce. She exhibits tremendous length, capacity, eye appeal and balance. She is so stout from every angle, yet sweet through that front third. She catches your eye at first glance, and demands a second look. The natural thickness shown by the Westcott calves is incredible and we couldn't be happier with how they continue to develop. Her dam is moderate made, sound in her movement, nice uddered and dark red, just like her daughter. This combination of a fresh pedigree, with a flawless phenotype means the sky is the limit for this female.

Crossroad Tsunami 17C PG1135855. Ultrasounded safe to AI.

This is a heifer from the top of our pen that we feel is one of the best females we have sold to date. When Cody came to tour this summer I had originally told him this one was off limits, but we felt we needed to share this calibre of female from the heart of our herd. This mating between Super Duty and East Poplar Suzy 413Z has proven to be a powerful one with a full sister at the top of the replacement pen this year which made our decision to sell 606D a bit easier. The Suzy cow family is one of our most prominent groups in our herd with many of our top producing cows going back to the 8S cow. East Poplar Suzy 606D was part of our 2016 Agribition show string and another Suzy female will be a part of the 2017 string. 606D is a powerhouse, easy doing type of female who has a tonne of middle. She will have the ability to raise some high performing bulls and females for you in the future.

Here is another heifer coming from the Suzy cow family with a bit of a different twist. This was the second group of Pit Boss calves we have had and we've really been impressed with their style and performance. A three-quarter sibling sold through this sale as an open to Perkin Land & Cattle in 2015. East Poplar Blk Suzy 602D is a super feminine, smooth made type of female. You have to appreciate her length of body and the way she strides out freely. Her dam is a young, easy keeping, moderate type of female with good udder structure. We had a few WFL Absolute 51Y calves off of Pit Boss females this year and they are quite impressive.

Terms & Conditions

TERMS - The terms of the sale are cash, cheque, VISA, Mastercard, or Interac, payable at par at sale location. There will be a 3% administration fee on all VISA or Mastercard purchases applied to the buyer's invoice. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID - Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

SALES TAXES - Applicable sales taxes will be charged on semen, embryos and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INFORMATION SUPPLIED - The information contained in this catalog is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Jamesway Enterprises Ltd. assume any responsibility if the information supplied is not accurate.

CATTLE PICTURES - The images in this catalog are believed to be accurate representations of the individual animals. Transcon Livestock Corp. and Jamesway Enterprises Ltd. assume no responsibility if the images as received have been altered.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recording certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.
