Sales Management Comments

The name "Simmsational" always brings thoughts of what is one of the most respected annual sales in the history of the breed. It is the event that hosts more "out of province" buyers during the December Simmental sale run than any other sale in Canada.

The general quality of the cattle annually offered at Simmsational would have to be credited highly for the event's success. The consignment element of the event has gotten to be as "competitive" (in a healthy way) as you would see anywhere. The SSBA members, X Bar T, Lazy Bar B and Coulee Crossing, have absorbed into this section of the sale to complement the excellent cattle offered by names like Erixon, Sunny Valley, Double Bar D, Prairie Wind, McIntosh, Sunnyside, 3D, Swan Lake & Oak Hill. These dozen names will present a set of bred heifers and heifer calves that will be as strong as any, in any sale, anywhere!

The mini production sales over the years have been huge draws and of course the very famous LaBette Simmentals consignment has anchored this section. The blend of Fullblood, Red & Black Simmental is always enticing to a big cross-section of buyers continent wide. Very often, this is a way to access exclusive genetics from the "IPU" herdbull battery. By combining this "mini" with the great set of consignment cattle mentioned in the previous paragraph is what always makes this event so attractive publicly.

We haven't been opposed over the years to host smaller dispersal sales at Simmsational as long as they were in the best interest of the sale. The Kovatch family's First Time Simmentals have sporadically been consignors to Simmsational and this year's event will proudly host their herd dispersal. They have had many successes through the event including some of the more popular cattle in the last year's sale. We wish them the best of health and happiness in the future.

I would also like to send some positive wishes to the LeBlanc family of R Plus Simmentals who have been such a large part of the modern success of Simmsational. Environmental challenges have postponed their participation this year but we look forward to working with them and their great herd in the near future.

Come early, even the day before the sale, and wander through the cattle and visit with the participants. The night before the sale, the consignors have an evening planned that will be filled with laughs and friendship. The hospitality, courtesy of "Simmsational", will be enjoyable.

For everyone at Simmsational,

The Transcon Team

Welcome

Welcome to Simmsational "2011" at Johnston Auction Mart, Moose Jaw, SK on Thursday, December 8th. This is the 34th annual sale of this great event which makes it one of the longest running sales in Canada and we've had the great pleasure of being involved in all of them.

The future has never looked brighter for the Simmental breed and the cattle industry in general. With the low numbers of beef cattle in North America, the beef industry is going to be very exciting for many years to come and profitable too. The Simmental breed is going to play a large part in the future of the beef cattle industry with its strong maternal traits, performance and carcass traits.

We are again consigning 10 bred heifers from the heart of our program. Featuring four Fullblood heifers sired by the very popular Champs Romano bull and all bred to the Crossroad Radium, three soggy, broody, polled, Red heifers and three exciting Black heifers. This may be our best group of heifers we have ever sold at Simmsational. They all have AI dates and no exposures.

Come and join us at the Johnstone Auction Mart on Thursday, December 8th, four miles west of Moose Jaw on highway #1 for some hospitality, food, fun and great cattle and people. From all of us at LaBatte Simmentals, we welcome you to this 34th Simmsational Sale and wish you all a very Merry Christmas and Happy New Year.

Barry

P.S. All the grand kids are doing great! Three boys and three girls, from 1 year old to grade 1 now. Christmas will be a lot of fun this year.

A powerful, full Fleck daughter of the very popular Champ Romano bull and out of a really good Houston daughter. 25R's first calf, a Laredo daughter, sold through Simmsational to Mark Land & Cattle Co. and her second calf, IPU Chicago 62U, walked the pastures of Rendezvous Farms in Manitoba. She has an excellent heifer in the replacement pen again this year. Rowena 135X is cherry dark red with goggles, deep bodied, thick, setting up an excellent udder like her mother and is powerful, powerful. She is mated to the \$25,000 Crossroad Radium bull who offers calving ease with performance, thickness, color and style. We bred all our Fullblood replacement heifers to him and anxiously await his calves. We believe this Romano daughter is going to be a front pasture cow, the kind that can raise powerful herdsires and excellent females. She is a definite sale feature.

 Another cherry dark red, goggle eyed Romano daughter out of an excellent Marcus daughter going back to the Bar None 225 cow family. We were very fortunate to obtain some Romano semen from Harry & Michelle Satchwell of Virginia Ranch in 2009. I was at their place in the spring and saw Romano for the first time. He was so athletic, long, thick and just plain good. He reminded us so much of our own bull, TNT Accelerator 226S. By the end of the day we traded some Romano semen for Accelerator semen and, as they say, the rest is history. Both bulls have produced some of the industry's best and will leave their mark on the Simmental breed. 150X is a beautiful, feminine, Romano daughter bred, again, to Radium.

 A real broody, Romano daughter out of Steffi 10T, an Appollo heifer we purchased from Cherry Creek as an open heifer. These Romano bred heifers are the sibs to the Romano bull calves that sold in our bull sale this spring and were so well accepted. Thirteen Romano sons sold for the astounding \$8727 average. Romano is one of the most consistent bulls we've ever used, siring super bull calves and great replacement females. Roweena 153X might be the broodiest, thickest, pear shaped, Romano daughter of them all. She is definitely a brood cow in the making.

 A moderate framed, broody, goggle eyed, Romano daughter out of a really good Houston cow, 47P, going back to the Marilyn cow family. 47P's first daughter sold through this very same sale for \$7500 to Randy Ward, Calgary, AB. We think the world of the 47P cow and the Marilyn 35L cow. 169X is going to be an easy fleshing, moderate, good uddered, super producing cow. She is bred early to the cherry red, goggle eyed, Radium bull. I would be hoping for a bull calf.

A soggy, deep bodied, Touchdown daughter out of a really good, Red Label cow. Touchdown 32S was purchased out of our 2007 bull sale for \$19,500 by Kopp Farms. We retained some semen for in herd use. He has turned out to be quite a breeding bull for Kopp Farms, offering calving ease, thickness, excellent bull calves and ask Edmund what he thinks of the daughters – they're superior. 46X is going to make quite a cow. She's mated to the easy calving MRL Red Force bull. His progeny were very well accepted this spring at the bull sales, with many high sellers.

AI'd to KNK/CRSR Red Bull 53T PG713478 April 7th. No exposure.

A true sale feature. This powerful, Revolution 172U daughter is one of the best heifers

we have ever offered for sale. Her dam is a beautiful Red Label-Red Chief cow, who has an excellent Accelerator son in the bull pen this year. He will be one of the feature bulls to sell in our March 2, 2012 bull sale. Wilf Davis talked us into putting this heifer in the sale, she has been one of our favorites right from day one. IPU Revolution 172U was one of our high selling bulls in our 2009 bull sale purchased by High Country (Rob & Dee Young) and Beechinor Bros. He went on to have a great show career but better yet, went on to produce some great offspring. We have six or seven Revolution yearling heifers and they are awesome. Thick, soggy, broody and very attractive.

KNK/CRSR Red Bull 53T

148X is carrying the service of the homozygous polled, Freedom son, Red Bull. We have some excellent calves in our bull and heifer pens from him this year. I'd be hoping she has a bull calf.

AI'd to IPU Specialist 70T PG682864 on April 15th. No exposure.

A very attractive, Liner 56U daughter out of a Black Stetson-Ribeye daughter. If we were going to show a bred heifer, this probably would be the one. She wasn't cooperating very well on picture day but when you see her sale day you'll see what we mean. She's very angular, broody, nice uddered and very clean fronted. She's mated to the calving ease and brood cow maker, IPU Red Specialist 70T.

A super, solid black, polled heifer sired by the \$48,000 Springcreek Liner 56U bull and out of Mader P Blackgold 89S, a high selling female we purchased from Mader Ranches. We really like this heifer a lot, she's moderate framed, deep, thick, broody and setting up a great udder.

She's mated to the outcross bull, OLF Odin U5, a calving ease, homozygous black, homozygous polled bull that also sires performance and maternal. We think this heifer has a lot of future in her.

A black, Top Gun daughter out of a powerful, Powerline daughter, Boynecrest Black Jewel 6S, who we purchased out of Jersack Farms dispersal where she was one of the high sellers. She was in Tim's transplant program. Boynecrest Farms showed a full sister to 252X at the National last year in Brandon where she went on to be calf champion and sold in the National sale to Robb Farms, Maidstone, SK for \$10,000.

Black Jewel is bred to LFE Stubby 322U, a good calving bull who is siring some awesome calves that are moderate, thick and eye appealing.

A beautiful, black, blaze faced, 680S daughter out of the 215M cow who is also blaze faced and beautifully uddered. We believe these black, blaze faced cattle are going to become very, very popular, especially to our bull customers. Xavier is moderate framed, angular, deep and broody.

She is bred early to the Troy Drake bull, Pokerface 2X. We saw this Sure Bet son this spring and really liked him. He's also blaze faced, super stout, great haired, moderate framed, super dispositioned and is mothered by an awesome Temptation cow. He's a bull you are going to hear a lot more of.

AI'd to MRL Red Force 12U PG697657 on March 30th.

We have several Crocket daughters in production and are extremely pleased with their mothering ability. 83X is a powerhouse of a bred heifer. She has tons of substance, length of spine and bone. She is a promising brood cow in the making.

AI'd to LFE BS Lewis 322U (Stubby) BPG694665 on March 30th.

We will be calving out our first MRL Red Force daughters this winter. They are a strong set and we look forward to seeing the resulting offspring. 135X is no exception, as she is a deep sided and has that momma cow look about her. Being bred to the moderate framed, super stout Stubby bull will prove to be an exciting calf.

AI'd to RFS Red Iron T20 PG749057-KN on April 14th.

94X comes to you in a very moderate frame. She is a deep sided, capacious individual who is laying down what should prove to be a very functional udder as she comes from a long line of beautiful uddered cows. A big topped heifer with lots of hip shape who will be in our 2011 show string. She is off the 2009 CWA Grand Champion Simmental Bull. Her mating to Red Iron, a dark red, Sheer Force grandson, will result in an interesting calf.

Sired by the big, red, soggy bull Ryan showed at Agribition 2009 where he had many fans. He later sold at Simmsational 2009 to Sven Nielsen. The dam is a solid black, powerful female also shown at Agribition that year. She is a very heavy milking, young cow, as all the Heavyweight daughters are, making tremendous cows! Selling full interest and shared possession. We strongly believe in the potential of Night Train so would like to reserve the right to use him June 15th to Aug 1st, also we are reserving the right to 200 straws of semen for owners use only. DNA tested homozygous polled, hetero black. Strong milk EPD of 6.8.

When we were selecting our heifers for the sale we decided to bring one from each of our three main walking herdsires. We feel these three are tremendous individuals and are all out of excellent cow families. All three are very powerful heifers for their age with lots of performance and maternal bred in. 25Y is very typical of the Turbo heifers. Solid red with beautiful hair and all meat and potatoes. Turbo cattle are very moderate and extremely thick, a lot like the Bodybuilder cattle, who is the maternal grandsire of 25Y.

AI'd to Sanmar Polled Pharao 12P P618914 on April 26th. Exposed to IPU Exciter 84W PG717226 May 5th to July 4th. Safe to AI date Sept 20th.

Laurie is probably the only double polled, Tuxedo daughter to sell this fall. Bred to Polled Pharao, her calf will be flat out awesome with a very good chance of being homo polled. Laurie is a very impressive heifer, volume, thickness, stylish, in fact, she impressed Jay so much that he said she should be going to Agribition, and she would if that was part of my program, but I only show calves there so she stays home until the sale. Her picture does not do her justice. She is styled just like her mother who was bought out of this sale from Crossroad Farms and has been an exceptional producer on her first two calves.

Bred to MFR Honor Roll 21X BPG729185 May 10th and exposed to same May 26th to August 1st. PT safe to May 10th breeding.

Prairie Wind 56X is a deep sided, big ribbed heifer with an incredible hip. A heifer you appreciate for her shape and pattern. Sired by KWA 71P, without a doubt the most consistent bull ever to walk at Prairie Wind. Easy calving, moderate framed, sound, functional, beautiful uddered females and marketable, stout, hairy, big nutted sons. We have stock piled many 71P females in herd. They are outstanding mamas. KWA 71P was sold back to Ashworth Farm & Ranch this spring. His influence will continue in Kelly's herd. 56X's mother is a super R Plus 2072M cow; big, deep and powerful, solid black with an awesome udder. She is as pretty a cow as we have. Bred to MFR 21X, a tremendous RLA Redstream son. What a job Redstream is doing at Sunny Valley and the McCormacks. 56X is a heifer with so much predictability; her maternal strength is undeniable. An absolute powerhouse, you will like Prairie Wind 56X.

This female goes back to one of the strongest cow families you will find. Her dam and grand dam were the lead off lots at the Lucky C Ranches dispersal sale. Double Bar D purchased 46N and we purchased 95S and she has been a tremendous addition to our herd. 29Y's sire, IPU Accelerator 12W, was one of the high sellers at Barry LaBette's 2010 Bull Sale. 71M is now one of Barry's flush cows and that is only reserved for the elite in his herd. With all this maternal power, 29Y has to be good! Our Accelerator calf crop is the most consistent group we have produced to date and we believe they are all keepers.

AI'd to ER Big Sky 545B PTC298930-KN May 3rd.
Confirmed safe in calf to ER Big Sky 545B. Pasture exposed to IPU Accelerator 12W PG717179 May 10th to June 15th.

Two years ago 9X's dam was purchased from this very sale. 113U's footnotes read "She will be one of the best females to sell this season and has donor cow written all over her." That was spot on. 113U was flushed last year after calving and had a 680S bull calf naturally this year. We believe 9X will follow in her mom's footsteps and be an excellent brood cow. She possesses the same natural thickness, tons of volume and a great hair coat that her dam possesses. She is confirmed safe in calf to ER Big Sky 545B.

A dark blood red daughter of our senior herd sire, Wheatland Bull 738T. The 738T daughters are far surpassing our expectations. They are turning into moderate framed, easy doing, broody females with very good udder attachment and teat size. Lizzie herself is moderate framed with tremendous depth and shape to her rib. She is very loose made, easy doing and certainly possesses that brood cow look. Her dam has had a very productive life here on the farm. She has raised high selling bulls and heifers alike which are now working in some of the top purebred herds across Alberta and Saskatchewan. Lizzie certainly deserves a second look. She has calving easy, longevity, milk, productivity and superior udder quality bred into both sides of her pedigree. She will make a great addition to anyone's herd for many years to come.

A Red Ace daughter that has had that look about her since day one. She is very powerful in her makeup. She is extremely long spined, thick topped, possesses a wide deep rear quarter and still has that feminine look about her. She has a fantastic hair coat and her temperament is absolutely second to none. Destiny has a very bright future ahead of her. She has a tremendous cow family behind her and I am very confident she will go out and produce those good old bull calves the cowboys just can't get enough of. After all, it is her DESTINY!

First Time Simmentals

Andy, Marlene & Bryce Kovatch

Box 121, Edenwold, SK S0G 1K0

Ph 306 771-2706 Bryce: 306 543-3122

email: firsttime_simmentals@hotmail.com

We would like to take this chance to thank everyone for attending or having an interest in our dispersal. Even though we have only been in the business for twenty years, the memories of the shows and sales, along with the friendships made during that span will last a lifetime.

Our decision to disperse has been a difficult one, but the result has been made easier due to all of our individual life paths. This is also the time for Mom and Dad to slow down since the kids have left the nest. Additionally, we feel this sale will give our cattle an opportunity to prosper in other programs across the country.

First Time Simmentals first started in the spring of 1991, when we purchased four bred cows with calves at side from Clifford Lechner, one of the original 'Group of Seven'. We were convinced that this was the breed of choice for us based on their maternal traits and performance. Through two decades, that has never failed us.

Because we maintain a small number, these females really have to earn their keep. We believe that every female on the place has to be good enough to produce the top calf on the farm in any given year. We really focus on balance, and as you'll notice with the crop of Winchester Carbine heifer calves at foot, consistency.

We would like to also extend a special thanks to Tracy Pizey of Foxypics for taking our dispersal pictures. Feel free to call us or Transcon with any questions and we'll be proud to show you the herd at the farm gate and/or on sale day.

Sincerely,

Andy, Marlene, Bryce, and Leah Kovatch

There are most bulls that are just in the game, but few that are game changers. Carbine would fall into the latter. He is the best bull we have ever used in the history of First Time. His consistency is uncanny; as loose hides, width of top, and length of body are mandatory in his progeny. Even though he isn't homozygous polled, we were willing to look past that because of the other great skills he brings to the table. Unfortunately Carbine's time came too soon, as we lost him to a breeding accident early this past spring. Don't miss an opportunity to obtain a daughter that will surely rise to the forefront of your operation in the future. Carbine's dam also sells as Lot 63.

Polled Full Fleckvieh. Earlier this year, we were looking to incorporate more polled Fleckvieh genetics into our program; we were very excited when we came across Worldwide. His solid pedigree, stoutness, and very sound maternal traits are the nuts and bolts of the Simmental breed; being polled on top of that is just a bonus. We used him on our full Flecks as well as some of our Purebred females for the idea of getting those 'F1' crosses.

Homozygous Polled Full Fleckvieh. "Foz" is our saviour this year. We were very lucky to come across a bull of Foz's caliber when Carbine went down. The Double Bar D prefix just speaks for itself; also knowing that he'll knock all the horns off his progeny is a rare trait in a quality full Fleck bull. We feel his loose hide and style is a very good combination with our broody, larger framed females. Since we still have a handful of 'older gals' on the farm, he is staying at home.

When a female like 'Heidi' is around this long, it's usually for good reason. Heidi always catches visitor's eyes at the farm. She looks half her age, and she will bring in a good calf no matter what she's bred to. Her Knock Out daughter is our lead bred, and her Carbine calf at foot is a real looker. Her mating to Worldwide will combine style with easy fleshing and maternal traits.

Here is a full Fleck cow that will give you some pop. We purchased Nira from the Riverbend dispersal for giving us a different foundation of Fleckvieh opposite the Elsa line. Nira is wide-based, large footed, and milks tremendously. Her mating to 'Foz' will give you the best of both worlds; power and finesse.

Marta is the first daughter that Elsa produced after purchasing her from the Jack Pine dispersal. We call Marta one of those 'lunch bucket' females; she always earns her keep. This is one of the females that makes this sale hard for us; her consistency, maternal traits, and quiet disposition has made her one of our favorites. Her super Hasalz daughter sells as Lot 60.

Sale Feature! We love these Temptation females, and here's a real looker. 'Thelma' combines front pasture and show quality genetics that will make her a favorite in any program. Her Dream On son won Reserve Grand Champion at the Regina Bull Sale in 2007, and her 2008 Red Label son was the one half of the best pair of bulls. Her Carbine daughter at foot this year is a real show stopper; here's an excellent opportunity to purchase a blood line that will produce great consistency. Her Gravity mating wasn't an accident; we were planning on an 'F1' female from Thelma. Don't miss out!

Sometimes you can't judge a book by its cover. Pea has been a female that has done nothing but produce quality year in and year out. Her daughter, Rosie, is one of our top young cows and her Carbine daughters are two great up and comers. Her maternal sister, FTS Hot Toddi, has produced some great sons for LaBette Simmentals, including the \$26,000 IPU Red Warrior 26S. Don't miss out on this consistent Peterbuilt daughter!

Endora is one of those females who never misses; she always weans one of the heavier calves every year. Females like her were what we envisioned when we purchased her dam Elsa from the Jack Pine dispersal. You will notice a steady influence of Endora progeny and siblings in this herd, and that doesn't happen by accident. We bred her early to Solway Adonis with the vision of keeping the herd, so here's an opportunity to obtain a front pasture cow carrying a star calf. Her Carbine daughter at side is a carbon copy of everything she produces.

A Lot: Polled Purebred Female, FTS Kopy Kat 704YM, AMLB 704Y, PG747641 by FTS Winchester Carbine PG695179, February 13, 2011. BW: 108. 205 day: 655. EPDS Fall 2011: 4.0 3.7 38.0 59.2 4.6 25.8 6.8

Don't let Lexie's smaller frame fool you; she is one of our top females. It would not be out of line to call her our most consistent bull producer. Her Red Label son won Grand Champion bull at the Regina Bull Sale in 2008; and her Carbine son last year was the best son of his to hit the ground. The only regret is that she hasn't produced many females. Her Worldwide mating will turn heads. Sexie Lexie is definitely worth her weight in gold!

We purchased 'Hart' from Barry LaBatte with the idea of increasing our average frame score; adding her different genetic package was just a bonus for us. We saw her sire, Hart Extra Effort, at TNT when we toured some farms down south in the spring of 2004. Needless to say, he was one of our favourite bulls of the trek, and Kevin Thompson was very excited about his potential. Hart definitely hasn't disappointed, as she's given us two solid Knock Out sons and has a very neat little Carbine daughter at foot this year. Don't sleep on Hart; opportunity is knocking!

Here is a young lady who has front pasture material written all over her. 'Rosie' comes from the heart of the First Time program. Her sire, FTS Red Flag Recall, was a class winner at Agribition in 2003 and her dam comes from one of our most productive lines at First Time, who also sells as Lot 55. Add to the fact that Rosie weaned our heaviest Carbine son this fall at 880 lbs., this is a black female that will add some frame and growth to any program. Her Gravity calf could be a very valuable commodity next fall.

MISS PARKHILL ROYAL 105E

BW: 98. 205 day: 711.

EPDS Fall 2011: 8.0 1.5 34.7 55.4 4.6 24.1 6.7

Open.

Carbine strikes again! Sherry Twist is a wide, deep, and long bodied female who is as thick of an open heifer you'll find all fall. Her dam is a moderate Red factor cow who gives her all on every calf that she produces. Sherry's maternal grand dam produced for us for over a decade. This young lady will add some punch to any Red factor program; let it be yours!

Open.

Here is a young female who is as stout a Red factor as you'll find around. Mamie is a Carbine daughter from one of our top cows, PRL Laurie, who had produced our two high sellers in Simmsational last year. Mamie's hair coat, fleshing, and maternal traits are sound fundamentals for a consistent producer. Don't look past this young lady!

Open.

Jewel may be our youngest open, but may be among one of our best. Jewel is sweet-fronted, angular, and has that 'show presence'. With her shot of Fleck on the bottom of the pedigree, this is a lady to really get excited about. Jewel is no diamond in the rough; let her shine for your program!

EPDS Fall 2011: 5.0 3.3 36.3 59.0 4.1 22.9 4.7

Open.

Ellie comes from our 'Bear' cow family. We have shown the line for years, and this is a lady that follows right in those footsteps. Her maternal sister was a 4-H project for Matt Hauser this past year. Add to the fact that she's a Carbine daughter, this is a heifer that is brimming with potential for both the pasture and show ring. She didn't want to cooperate on picture day, but you'll take notice of Ellie on sale day!

Thanks for attending our dispersal

Lots 1 - 50 will sell with the following Terms & Conditions:

Terms & Conditions

TERMS - The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID - Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INFORMATION SUPPLIED - The information contained in this catalog is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Jamesway Enterprises Ltd. assume any responsibility if the information supplied is not accurate.

CATTLE PICTURES - The images in this catalog are believed to be accurate representations of the individual animals. Transcon Livestock Corp. and Jamesway Enterprises Ltd. assume no responsibility if the images as received have been altered.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recording certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors. or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

The First Time Simmentals Dispersal, Lots 51 - 73, will sell with the above Terms & Conditions EXCEPT for the Breeders Guarantee section:

BREEDERS GUARANTEE - As this is a dispersal sale all cattle will be selling as is with no further guarantee. However, bred females will be pregnancy tested and results along with any pertinent information known to the owners will be announced from the auction block.
