*Sales Management Comments*

The "Equation" is the most illustrious cross-section of breeding programs that will be seen at any time in Canada. We have seen growth in the established consignor's offerings combined with new breeders being allowed the opportunity to show case on the same stage.

The bred heifer line-up is very exciting! The "Boys from Bentley", have dug as deep as ever and have a string of heifers that will represent their Beech Bros. outfit at its best. They will be joined by other large strings of bred heifers that were a pleasure to see this summer/fall from Applecross, Eagle Ridge and Wolfe. Of course the bulk of the "breds" will come in smaller numbers but will represent their respective breeding units very well.

The "bull sale" portion of the Equation "lit it up" last year and again we have some top prospects offered again this year that will qualify as new herdsires for the discriminating registered or commercial breeder.

The calendar year heifer calves always offer the most current genetics available to the industry combined with some that boast proven pedigrees.

We hope to see you at this double-header event that shares a day and facility with the highly-reputable Ultimate Red & Black. Call on us if you aren't able to attend and we will be happy to be your eyes and perform your bidding requirements in your absence.

Merry Christmas,

Jaymes (Jay) Good

# Beechinor Bros. Simmentals

**Stefon & Rebecca Beechinor**

**John & Michelle Beechinor**

RR 1, Bentley, AB T0C 0J0

John home: 403 748-2406 John cell: 403 352-8704  
Stefon: 403 597-4001 email: beechbros@hotmail.com

We are excited to be part of what has become one of the marquee sources of Fleckvieh Fullblood cattle. We always enjoy working with the Transcon crew and thank them for their continued assistance in marketing our cattle. If you have any questions about our offering feel free to give us or any of the Transcon sales crew a call. We are proud of the females we are bringing for your appraisal. They combine our best cow families with a very exciting new sire string as well as our proven herd sire, Viper. It's tough to part with these females as we feel each of them has the potential to develop into donor quality cows but we trust they will work as well for you as they would have for us. Due to the late season grass growth we were able to leave the heifers on pasture well into October. Females have been preg checked, ivomec pour on, tasvac 8 and bovi-shield gold fp5 this fall and will be vaccinated with 2 shots of scour guard prior to the sale.

With the sale falling so close to Christmas and subsequently calving, we would once again be willing to discuss calving options with you should trucking not be available in a timely manner.

We realize that this sale falls on an action packed weekend but if you have some spare time we invite you to take the short drive to the farm to see this year's bull pen and maternal lines of the sale heifers.

## 1. BEE TOPAZ 459B

93	673	-2.0	6.1	65.6	90.3	-0.6	68.4	35.7

Bred AI March 27 to Anchor D Viper 103W P716202. Exposed April 15 to May 23 to Sibelle Viking 35B 800364. Vet felt she was likely bred early in exposure and due end of January.

Topaz is a bred heifer that you'll want to mark. In a group of thick made females she probably has the widest top and carries it into her rear end. It's no surprise since her pedigree is stacked with powerful Fleckvieh sires like Hivy, Meister and Kylber. All these bulls have been influential in the maternal strength of the Fleckvieh strain. After purchasing a strong group of Green Hills top cows, we persuaded Ron to sell Mateo. He is moderate framed and packed full of muscle. His genetics make him a maternal powerhouse and we are extremely excited to get his daughters into production. Topaz's dam is eye appealing with muscle, excellent udder and great feet. AI'd to Viper but vet felt she could be due end of January to the Viking exposure. Either way it should be a great cross.

102	692	-1.4	6.4	68.6	101.3	6.0	64.6	30.4

Bred March 29 to Sibelle Viking 35B 800364 and exposed to same April 15 to May 23. Preg checked safe to AI.

Sirene is an eye appealing package that is soft made with lots of shape and depth of body. She has captured our attention and will be sure to be popular going forward. Her perfect uddered dam has a rock solid production record with progeny at Stout Brothers, Four C Simmentals, Stefura's and Eagle Ridge as well as another top herd sire prospect in this year's group. Jerico has been used mainly as an after AI clean up bull but his notoriety is rising and you will see much more from him going forward. His 2015 bull calf crop is one of our strongest sire groups. It doesn't hurt either when at 5 years of age he is perfect footed, athletic and massively made.

This year's offering is full of females that could have been destined for our donor pen and BEE Meeka is no exception. She is correct in her structure, long bodied, big bellied, wide across her top and through her hip. Her sire was selected off the top of Great Guns bull calf crop to inject new genetics into our herd. Both ours and JNR's first bull crop was very well received with numerous high sellers. Meeka's dam is a broody cow that raises a top calf every year. She is a direct daughter of JB Hendrika, a cow that has had a tremendous impact on our herd and can be found in the pedigrees of many of our top animals. A Viper calf should be exciting as his progeny seem to continue to be extremely marketable.

Heide is a powerhouse who we expect will make a broody matron and leave a lasting impression in your herd. We unfortunately lost Great Guns TX Mac this fall but in our opinion the daughters he left are amongst the best we've raised. She comes from fully pigmented genetics despite her more traditional Fleckvieh color pattern. Heide combines thickness, depth, hair coat among other great maternal traits stemming from a strong cow family. Her dam, Saffron, has been one of our most productive cows, raising two past high selling bulls going to Triple K and Moosecreek/Leewood Ranch. Saffron has the unique ability to throw moderate birth weights but yet maintain excellent performance. Bred to Imax who is a proven calving ease sire that has created very marketable progeny across Canada.

# 5. BEE ETCETERA 424B

This female has been a farm favorite since birth with her cherry red color, extremely docile personality, big barrel and refined build. We had Etcetera slated to eventually take over her mother's spot in our donor program but she was added to the sale roster as a late addition as a replacement for another female who didn't make the cut. As a result she was brought in from pasture at the beginning of November, about a month behind the rest of the group. Etcetera 424B is the final calf out of the outstanding cross between our She Devil donor and Viper. Full siblings to Etcetera have averaged \$13,000 going across western Canada to Forden Fairview, Starwest, Tri K, Keets and DGR. She is carrying a calf by our \$37,000 Sibelle Viking. A cross which should result in a heavily pigmented, cherry red calf with no shortage of style.

Lila is our only polled animal in this year's sale and is sired by Viper. The Viper daughters are turning into fantastic mothers with lots of milk and square udders. Lila is an exact replica of her dam. Moderate in frame, strong udder development, correct structure, dark red with lots of pigment and the style to be the front pasture type. Lisa 38Y has one of our top Bulletproof bull calves this year. This heifer is carrying a calf by Viking, a bull we are extremely excited about. He is a son of Walker who has added mass, added calving ease and moderated birth weights of his calves. We are expecting Viking to do the same.

Bred March 27 to Sibelle Viking 35B 800364 and e xposed to same April 15 to May 23.  
 Vet felt she was likely bred early in exposure and due end of January.

*Beechinor Bros. Simmentals*

A long bodied, loose hided female that is heavily pigmented and has a powerful pedigree. She is a natural daughter of our Patricia 25P donor cow whose most notable daughter is Beech Bro She Devil. We have four Patricia daughters in the herd and sons have been high sellers to Berwest/KWM Holdings and to other top commercial herds. Patricia is an extremely deep bodied cow with a great udder and feet at 12 years of age. Patti's sire was an Upgrade son we kept to replace him but unfortunately lost during his first breeding season. He stems from a great cow family that ranks at the top of our herd. The Upgrade females have turned into true stars and I would expect great things from this granddaughter.

The majority of this set of females is sired by a new set of herd bulls for us. Most have created a buzz around here but right from the moment we purchased Magnum he has been on another level. This past spring his sons were a highlight of our bull sale. With only four females born in his first calf crop it's hard to let this one go. Fortunately for us Rube has a twin sister as well as another full sister born this year that is one of our top heifer calves. They all carry his dark cherry red color that he consistently throws. Loose made with lots of capacity through her rib. Her dam is a deep bodied Impact daughter. Impact has left a lasting legacy in our herd. Further back in her pedigree is Jahari, another bull that is found in the pedigrees of many of the sale females.

Full Fleckvieh. Candice represents the first opportunity to acquire a direct daughter of one of our founding females, Dora Lee Christina 28S, who we selected due to her incredible depth of pedigree combining Holb, Solway, Romulus and LJB Jade. Christina has been a consistent top performer for us, producing multiple daughters and granddaughters in our herd, as well as high selling sons in APLX Santana 11Y (Vaughn Gibbons, Ontario), and APLX Javar 18A (Troy Cerny/Diamond T Simmentals at Barrhead). Two more breed legends in Sim Roc C&B Western and Dora Lee Elexis have been added to create Candice, this heavily pigmented, moderate framed beauty.

Bred AI April 4 to Dora Lee Eclipse S639824. Exposed April 23 to May 31 to APLX Rambo 4B P1126410. PT safe, vet opinion to AI.

Full Fleckvieh. Emerald is a nice and tidy heifer that combines plenty of volume and capacity while still retaining neck extension and femininity to form a complete and balanced female. We have had the privilege of watching seven generations of this cow family develop, originating back in 1992 with SRN 2Y through to Emerald's dam, Applecross Eva, a powerful Pharoa daughter. Emerald is closely related on both sides of her pedigree to our Applecross Emma heifer that was our high seller at last year's sale, going to Beechinors at Bentley. With a moderate frame, and lots of pigmentation, Emerald has a bright future in front of her.

Bred AI April 4 to Dora Lee Eclipse S639824. Exposed April 23 to May 31 to APLX Rambo 4B P1126410. PT safe, vet opinion to AI or 3 weeks later.

*Applecross Cattle*

# JNR Farms

 email: jrepka@telus.net

As the years go by in this cattle industry the strength of SOLID COW FAMILIES has become one of the main focuses in the JNR program trying to build on some of the most dominant and productive cows that the FLECKVIEH "world" has been moulded around. This year all 4 heifers that we are offering are just that, backed by some of the strongest maternal lines that have built many programs including ours.

## 23. JNR'S TITANIUM

100% Fleckvieh. Every year there's always a handful of bull calves in which you can see the potential in them as very young calves and they just look the part. TITANIUM was one of those SPECIAL ones! If our herd wasn't already so heavily influenced by his sire, grand sire and maternal sire within our current herd bulls genetically, TITANIUM wouldn't be leaving our farm. He is one of the most phenotypically complete bulls I've ever seen starting from a very young age and just continues to develop more and more everyday. TITANIUM'S meat to bone ratio is extremely high, and with just an 83lb birth weight we were very impressed with his growth curve, softness and structural correctness. He truly is an interesting bull that should be able to produce great, easy keeping, high producing daughters as well as functional and growthy sons. This is another one of the greats backed by an MFI cow.

## 24. JNR'S DIFFUSION

FULLBLOOD MALE 1143062 JNR 582C 25 January 2015

100% Fleckvieh. DIFFUSION is the first BULLETPROOF bull we are offering. As the summer went on DIFFUSION started looking more and more like his sire, and as he ages he is extremely soft sided and loose hided with great performance. He is JNR PHILOSOPHY'S half brother backed maternally by the great KMST TAJSA cow that never misses and produces both strong bulls and females year after year. This calf is a bit younger than his sale mate but will still stand strong in the pen bringing phenomenal productivity and depth of pedigree to his new owner. I'm excited to see the future daughters this boy is going to produce!

100% Full Fleckvieh. The SHAMU cow line definitely needs no introduction in the industry, having influenced many reputable herds throughout North America which have built multi generation pedigrees of highly productive foundation cows. A very wise man in the Fleck world once told me the only mistake he's made in his program was not buying enough of the KNIGHT prefixed cows at their dispersal. Compiling the strengths of the SHAMU side of the pedigree, with our BRINK BULLETPROOF bull and his flawless genetic makeup and phenotype was a no brainer for me.... With time tested and proven lines, this girl will be the foundation to any program. Any student of genetics such as myself will truly appreciate what this girl brings to the table!!

100% Full Fleckvieh. When opportunity knocks take it! That's the way I feel about this female, and her dam was just that. Travis from Ole Farms has given us the opportunity to keep building on the MFI cows he purchased from Murray Farms dispersal and we've hit many home runs in the first calf crop and this is one of them. You will see many more from these cows in the coming years. Once again TEMPTATION'S pedigree speaks for itself, solid maternal top and bottom. Let us introduce her sire, JNR STEELE, one of our new shining stars that we are so proud to have retained for ourselves as our replacement sire for JNR SALTON once he's passed and gone. STEELE has been siring calves with extreme back width with an amazingly square hip. TEMPTATION has been a pasture and pen standout right from a calf with many of the visitors that have seen her.

email: brettkeet@gmail.com

Welcome to the Fleckvieh Equation. This year's consignments are heavily influenced by the Anchor D Viper/Beech Bro She Devil son, BEE Vortex 12A. Four of the open heifers are his daughters and the bred heifer is carrying his service. I also expect to see some of his sons in the Advantage Bull Sale in Saskatoon next April. To say that I'm happy with his calves would be an understatement. They are vigorous at birth with good dispositions and growth. Give me a call if you have any questions about these heifers.

Bred AI April 3 to Champs Bravo P701002. Exposed April 10 to May 26 to Triple T Barbados 1138446. Ultrasounded safe to AI.

We are really excited about our first two Astros females we have to offer. They are definite pen favourites. This particular female has been the pick for most of our visitors. She has the look that grabs and then the phenotype that captures. And of course we can't say enough about our Laredo females. Her dam is another beauty of a cow that goes back to the Malorie cow family. Perfect udders, sound feet and legs, hardworking and flawless profiles run deep in this female. And she is full Fleck!

Observed pasture bred April 6 by Mackenzie's Cane 122Y P751117 and verified by ultrasound to that date.

Brittany is the youngest of the group that we brought to town, but in our opinion she could be one of the best. She is a smooth made, deep heifer that we think has a lot of femininity. It's real hard to tell which one of these Rev heifers is the best. Rev will be around for a long time at Eagle Ridge Simmentals because of these sweet, consistent, powerful ladies he keeps on producing for us. On the dam side we have Double Bar D Hemi and Shawacres Jahari. Brittany is bred to Mackenzie's Cane, another awesome polled sire that we have learned to trust for calving ease, and production of great, moderate sized, very balanced offspring.

Observed pasture bred April 14 by Mackenzie's Cane 122Y P751117 and verified by ultrasound in vet's opinion.

Full Fleckvieh. The Keato Pld Revved Up 10Z heifers are all peas in a pod. They have thickness, length, depth of rib, good feet and great udder development. Their profile and pigmentation are very much like their polled sire. Bling goes back on the dam side to the famous Anchor "T" Helga cow, and is bred to our polled calving ease sire Mackenzie's Cane.

Observed pasture bred April 8 by Mackenzie's Cane 122Y P751117 and verified by ultrasound safe to date in vet's opinion.

WOW! What a sweetheart we have here. Brylee's got the power, eye appeal and stands on correct legs and feet. Her sire repetitively throws some of the best calves we have ever raised. Brylee is bred to Cane, from Anchor D's great program. Cane is polled and we continue to use him on heifers with confidence because of his great calving ease. Cane is dark red with goggles and is closely related to Beechinor Bros. famous Viper sire that has impacted the breed profoundly.

Bred AI March 24 to Champs Bravo P701002 and verified by ultrasound safe to that date in vet's opinion.

Full Fleckvieh. Blix is another Mackenzie's Cane heifer who has a great temperament and is a real nice balanced heifer. Her dam is sired by Anchor "T" Impact who was a game changer for our program and has given many breeders a great female foundation. We have used Bravo on heifers with good success for calving ease and he has provided some great females also. I'd say the maternal genetics on Blix are outstanding and I hope she has a sweet little heifer calf for her new owner.

Open.

Now here is a Fullblood/Full Fleck beautiful female. We purchased her mother from Wa-Na-La-Pa Simmentals dispersal sale, who sold females from her in this Red Deer sale. Her mother 46P...yes P, she is one that does not show her age, and is as big and soggy as they come, with the picture of a perfect udder, teats, and solid feet. 9C's sire; 89X, is a cherry red, goggle eyed, and solid footed, a great conformation kind of guy. So again if you are looking for a female to withstand the test of time in your herd, she is one the one you want. We have her half sister as well...and again a mirror image of perfection.

Brock Xcellent

Virginia Radison 5Z

Skywest Bree attracts your attention in a very eye appealing and massive structured female. Her brilliance of color combined with a stacked pedigree of Fleckvieh greats, makes Bree a solid foundation in fullblood genetics. She is bold ribbed, long hiped, and thick, yet feminine. Maternal excellence on the hoof. Bree is bred early to the \$25,000 Virginia Radison 5Z. Radison is making some awesome calves at Virginia Ranch and I know this mating will work great so don't miss out.

Here is something different for us to be offering. It is an honour to consign this awesome Full Fleck bull. Castle 504C is a product of a shared flush with Alliance Simmentals. Mike McCart purchased the dam of this meat machine through this very sale for \$11,000. The dam is also the full sister to BLI Warlord 915W who did an awesome job for Prospect Hill and she has been flushed in partnership with us now twice. We also campaigned her with her heifer calf at side last fall at Farmfair where she was well accepted. 504C in his own right is a true herdbull, lots of muscle, big topped, long spined, with plenty of middle and has that herdbull presence about him up through his front end. Castle moves out on a very correct set of feet and legs and is long strided. We typically market all of our bulls through our bull sale in March but with 504C being owned in partnership with Alliance Simmentals we have chosen to offer him here as Alliance will also be consigning animals to the sale. We will winter this bull if the new owner so chooses and we would also be interested in displaying him at the Canadian Bull Congress if the new owner agrees.

Bred April 29 to BLI Warlord 915W P711722.

Breanna has been the pick of my bred heifers by visitors to the farm. The phenotype of this heifer is what is making the Simmental breed so popular in today's market place. Breanna is very moderate in her structure, walks out on an excellent set of feet and legs and has lots of rib shape. This mellow young heifer may not be headed for the show ring but she sure could make a cornerstone of your elite herd. Breanna's full sister, Braveheart, sells as Lot 51. Sells bred to BLI Warlord 915W, a bull that was featured at Prospect Hill's farm until his untimely death.

Open.

100% Full Fleckvieh. 8C's mother, Zalenka, is quickly becoming one of my favorites on the farm. A quality cow from head to toe. Her sire, Genesis, was a standout in a pen full of standouts and he has passed on all his best traits to his progeny. Sasha is dark cherry red, very stylish and full of potential.

Bred AI April 6 to Smithbilt Molson 21M 581559. Exposed July 8 to Oct 31 to PSE Achilles FF 795557. PT safe to AI date, due January 17.

All four of these bred heifers are out of a bull I bought from D Bar L's Dispersal sale. I have used him extensively and retained many of his females as they are all good. This bred heifer is out of one of my foundation females and still going strong at 14 years old. She is stacked with proven genetics on both sides of her pedigree. She is AI'd early for a Jan 17 calf to none other than Molson himself.

Exposed March 25 to June 5 to BEE Battle Cry 282B 1135464. Vets opinion late Jan/early Feb.

If we were going to bring something to Red Deer, we wanted to make sure it was special. I believe that Bliss exemplifies everything we may strive for in our Fleckvieh program. She is very dark red with lots of pigment on her face, feet and udder. Her sire consistently stamps his calves that way. If you look down her pedigree it is stacked with some very powerful Fleck genetics and I believe she has the makings of an excellent momma cow in the future. As an added bonus she is bred to our new heifer bull, BEE Battle Cry, who was one of the high selling bulls in this year's Simmental Summit sale. We are very excited for his progeny to start hitting the ground.

75	594	2.0	4.4	51.8	68.7	7.1	59.7	33.9

KLR Amanda 67A, her breeding is unique. Her sire is an outcross to most genetics, going back to Hafke, a German outcross bull you just don't seem to find and GPCCK Heather, a maternal tank of a cow whose pedigree goes back to German and Austrian genetics. We bred Amanda to Anchor T Paragon, joining these two genetics to make a very unique calf. Full sister bred the same way sold to Lone Stone Farms last year. We brought her to Olds College to be fed in September. Any questions give us a call.

100% Fleckvieh. Brooklyn is a good representation of what Willie is doing for us. She has a powerful frame, good muscling, great hair coat, yet shows excellent feminine appeal. Expect her to be a good milking mother with a good udder. We purchased her Topnotch sired dam, 17Y, from South Seven and she is doing a great job for us. She provides an interesting pedigree mated together with Willie. The calf she is carrying is really exciting!!

*Keato Meadow Simmentals*

## Terms & Conditions for Fleckvieh Equation & Red & Black Sales

**TERMS** - The terms of the sale are cash or cheque payable at par at sale location. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

**BID** - Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

**SALES TAXES** - Applicable sales taxes will be charged on semen, embryos and trucking fees (if listed), respective to the home province of the buyer, not the seller.

**DISPUTES** - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASER'S RISK** - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

**INFORMATION SUPPLIED** - The information contained in this catalog is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Jamesway Enterprises Ltd. assume any responsibility if the information supplied is not accurate.

**CATTLE PICTURES** - The images in this catalog are believed to be accurate representations of the individual animals. Transcon Livestock Corp. and Jamesway Enterprises Ltd. assume no responsibility if the images as received have been altered.

**ANNOUNCEMENTS** from the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

**CERTIFICATE OF REGISTRY** - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

**SHIPPING** - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

**BREEDERS GUARANTEE** - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

**EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

**HEALTH** - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

**ACCIDENTS** - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**RIGHTS AND OBLIGATIONS** - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

**TRANSCON LIVESTOCK CORP. IS AGENT ONLY** - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.
