SILVER LAKE FARMS BULL WARRANTY

Our goal with this offer is to ensure our customers breeding needs are met when they purchase a bull. All bulls sold in the 2020 bull sale will be covered for injury or death loss for the first two breeding seasons, with ZERO PERMIUM to the purchaser.

- Purchaser must contact Silver Lake Farms immediately to ensure coverage.
- If bull is injured and unable to breed, the bull must be checked by a vet and a report shared with Silver Lake Farms.
- Injured or unsatisfactory bulls are to be returned to Silver Lake Farms with a satisfactory body condition score (2.5 or better) and a signed transferable registration paper. Silver Lake Farms reserves the right to deduct from the sales credit for returned bulls with an unsatisfactory condition.
- Silver Lake Farms assumes full possession of the returned bull.
- If the bull dies, a vet report is required as proof of loss.
- If required, the purchaser will receive a back up bull from Silver Lake Farms to ensure their cows get bred at no additional cost.
- Back up bulls must be returned to Silver Lake Farms by October 1st.

Breeding Season 1:

- Full sale credit, to be used at the next year's bull sale.

Breeding Season 2:

- 50% sale credit, to be used at the next year's bull sale.

Silver Lake Farms will only cover up to a \$10,000 value on a bull. If a buyer wants to cover a more expensive bull, they would need to deal with their own insurance.
