Transcon's National Trust ON ICE

Semen & Embryo Sale XIII

A new look to the format this year! We will have a combined effort of "live" and "timed" auction lots in the sale. You will still be able to enjoy a "light" but hospitable evening while enjoying a live auction, although edited down for time reasons but yet peruse many genetic options that you will be able to bid on throughout the entire weekend at your leisure.

Also new is the feature Angus lot from our friends at Peischel Farms, why not mix it up a bit!
This is a great mating.

The National Trust has that usual great top quality genetic opportunities with a well rounded sections of proven genetics and some bulk opportunities that it is well known for. We are always proud to offer marketing opportunities for anyone that would like to take advantage of an opportunity. And we can promise we do not own any of the lots ourselves, which is standard for all of our sales.

Call on us for any assistance you may require and have a very Merry Christmas,

Jay Good

Canadian,US, Australia Qualified

We feel very privileged to have come across Elevation on our never-ending pursuit of finding the next top breeding bull. Elevation's genetics both top and bottom are packed with outstanding udders, large feet and structural correctness. On top of that you also add his dark red color, depth through his heart and flank and wonderful disposition. We were a bit surprised to find that Elevation reduced birth weight and did an outstanding job of throwing his dark red color. We were also very impressed at weaning time. In 2019 his top five bull calves averaged 905lbs at the end of August with no creep feed, these same 5 bulls averaged 88lbs at birth. His bull calves are impressive, but he also hit a home run in the heifer pen producing top end bred heifers and heifer calves. As a couple of side notes, Elevation is the highest selling Full Fleckvieh bull in Canada for 2018 and this will be the last chance to acquire semen as there will be nothing sold again until the Fall of 2021.

We feel very fortunate to have acquired Challenger as the high selling bull at the Skor Simmentals Bull Sale in 2018. Challenger himself is a dark red bull with outstanding structure. He did an exceptional job on his first two calf crops stamping his calves with his dark red color and passing on his soggy body type. He reduced birth weights on several powerful cows and added muscling to all his calves. This past spring one of his sons was selected by Mappin Simmentals to be their newest herd sire. Again, this year Challenger has several daughters in the replacement heifer pen and they are easy to get excited about. Last year's replacement females have grown into tanky bred females that are dropping beautiful milking udders.

Viper has had a major impact on our herd and several others across the country. In the past couple years Viper along with his daughters have created a major impact on the industry creating high sellers in both bull sales and bred female sales. Most notably for us was his grand daughter who sold for an impressive $41000 to the Stout Brothers and Beechinor Land and Livestock. Viper was dense made with a massive hip, smooth shoulders and a big belly. He was one of the soundest made, free moving mature bulls you'll ever come across. His eye appeal made him very completive in the show ring being named reserve Junior and Senior National Champion in his respective years. Here is a chance to acquire a bull that has already left an imprint in the Fleckvieh world. Also, as a bonus Viper was a polled bull.

D) 5 Straws

Canadian Qualified

My intrigue with FGAF Electric Avenue 140E started when I saw him at 3 months of age. He already had that young herd bull look, standing by his very correct uddered, eye appealing dam. Polled bulls with his natural muscling ability are hard to find. He led the Gagnon pen in growth and carcass measurements. He has length of body, a big barrel, deep rib, calm temperament, dark red, thick hair coat along with his structural correctness and very strong foot. Coupled with being a son of the great breeding bull French Attack and crossed with strong maternal lineage, this is a bull to get excited about. His first calf crop was exceptional with the calves ranking at the top of their respective groups. Look for him to sire rugged beef bull sons and attractive, strong uddered daughters.

Magnum's consistency and genetic prowess is becoming more and more evident every year. His calves have truly impressed us and visitors with added muscle definition, dark cherry red colour, thick hair coats, testicle development and performance. His sons and daughters command attention and are very well received by producers. His daughters are quickly becoming strong cows with great udder structure, dark red hair coats and above average performance. He is a moderate powerhouse with tremendous foot structure. At nine years of age Magnum has never had his feet touched and were perfect in shape and structure. Magnum was one of the easiest keeping bulls in our sire line up. Unfortunately, Magnum was injured during his last breeding season and wasn't able to make a recovery. We will continue to use Magnum in both our AI programs.

Heifer bulls can be the hardest thing to find.. thankfully we have Spartan working so great for us! They come out dark red, great hair, and on a lot of his offspring red right to a big black hoof. Spartan has a very moderate birth weight with explosive growth in an extremely soft made package. He is wide topped, strong quartered, big barreled and travels smoothly on a big black foot.

Homo Polled. Hetero Black. Captain Blaze has been an outstanding breeding piece for us at Perkin Land and Cattle Co. He has proven his maternal strengths in his daughter that have impeccable udders, big volume and have produced nicely. His bulls have been well received in the commercial and purebred industry. His greatest attribute is his short gestation. In 2019 calving season we had 40 of his calves with an average of 279 day gestation, only one got to 286. With an average bw of 87 lbs. Captain Blaze is a true curve bending bull, his low BW and excellent WW and YW make him an exceptional individual. Several breeders have asked us about selling semen, so here is your opportunity to get a part of a great bull.

We at Red Willow Ranch Ltd., are excited to offer semen on our walking herd sire, Westgold Standout 42Z, again in this years' National Trust sale. Standout 42Z was the high selling fullblood bull in 2012, commanding $47,500. He has absolutely done a tremendous job for us here, consistently siring progeny that rise to the top every year. He sires high performance, high volume progeny with thick hair coats, awesome colour pattern, dark pigmentation, and tremendous length of body. His offspring are very sound structured, with correct feet and legs and docile temperament. Standout has produced many sons who are working in some of the top purebred and commercial programs in Canada. To date, his sons have averaged an impressive $12,000 for us, and his daughters are proving just how productive and valuable they're going to be in the years ahead. Consistently every year many of our highest weaning bulls and females are out of Standout daughters or sired by him directly. His daughters are tidy-uddered, hard working females with great maternal ability. At his age of now 8 years he has never had his feet touched and he still moves around very fluently on a big strong hoof. Standout 42Z is a bull who has proven himself as one of the greats and a bull that just makes them good every time. We feel he is the most consistent fullblood bull we've used and has left a huge impact on our herd and will continue to do so into the future as well. There have only been limited amounts of semen sold. Don't miss out on this great opportunity to add proven, consistent, and very exclusive genetics to your program.

Tested Non-diluter.

Lot 17 VIRGINIA MACGYVER 9D 50 Straws

A) 10 Straws B) 10 Straws C) 10 Straws
D) 10 Straws E) 10 Straws

Canadian Qualified

We purchased Virginia MacGyver 9D in the 2017 Bull Spectrum sale as a high seller for $39,000 from Virginia Ranch. We feel he was well worth the investment. His progeny boast big time performance and explosive growth. Our 2021 bull offering will consist of his best set of sons to date and we are quite excited about them. In fact, his maternal strength we feel may be his strong point as many of his heifer calves have been top of the replacement pen and first females to calve have set up terrific udders, and were extremely productive in there first year. MacGyver 9D is breeding true to what he is conformationally he adds capacity and power in his offspring while still maintaining calving ease. His calves are born long spined with minimal shoulder. His progeny are extremely deep ribbed, long bodied, wide pinned, strong loined, and just carry a impressive capacity about them. MacGyver has developed into a very easy fleshing, powerful herd sire that we feel is very right for the times. MacGyver comes from a strong cow family at Virginia Ranch. His dam Virginia Ms. Jorja 9Y has had a very strong production record raising many high selling progeny. He carries himself on a big pigmented hoof and moves very freely for such a powerful bull. We are very excited for another years' calf crop to hit the ground and feel he has a lot to offer to the breed.

Lot 18 BLL KALIBRE 762E 30 Straws

A) 10 Straws B) 10 Straws C) 10 Straws

Canadian/US Qualified

We have been so incredibly pleased with our Kalibre progeny thus far. He is proving to be exactly what we expected. His bulls are stylish, with tremendous length and muscle definition. His heifers attribute the perfect amount of femininity while possessing incredible capacity and power. These traits are so dominant in his calves that his stamp is already evident amongst our calf crop. The breeding group we selected for him last year was about as diverse as you could get. Everything from our blondest to stockiest, to fanciest, to framiest dam was put in with him and yet his calves are so uniform. They're all colored well with beautiful pigmentation and although some of his calves are younger, the February calves were only 50lbs behind the January borns come weaning. 100% of his calves came unassisted with completely ideal birthweights. We look forward to featuring his first sons in our Future Legends Bull Sale on February 17th, 2021 and I'm confident that his bred heifers will be at the top of our lineup for the 2021 sale season.

Lot 19 VIRGINIA SHOOTER 3E 30 Straws

A) 10 Straws B) 10 Straws C) 10 Straws

Canadian Qualified

Shooter is one of the most unique herdsires we've ever ran. Talk about hair! That alone makes his calves standout, not to mention the color on them is phenomenal as they all have a very captivating appearance. We have been pretty greedy on retaining his progeny and some of our best young up and coming cows will be Shooter daughters. Their topline and spring of rib is beyond notable as well as their overall thickness and bone structure. One of our top bulls this year is a polled Shooter son out of a home grown Union's Legacy dam and we really look forward to seeing his future potential. The vigor and explosive growth that comes with his calves at birth is admirable as well. One of the main reasons we bought Shooter was we absolutely loved the depth and performance that his dam possessed, and he is proving to have the ability of producing retention heifers that carry those very same attributes.

It all started back in 2015 when I was turning page after page in the bull sale catalogues, and I opened up the Anchor D Ranch sale book and WOW lot #3 took me at One glance! After talking to Dan about High Noon and studying his pedigree I knew he had to walk my pastures back home. In the end it was a huge investment but definitely was definitely worth it! I haven't sold many doses on him but the doses I have sold gone to some of the best fullblood breeders from Quebec all the way to Alberta for use in flush programs. High Noon is ranked in the top 1% for milk and it really shows in his females, so bid with confidence and I guarantee you that you will not be disappointed and probably be calling me for more!!

We are proud to share few more doses of Double Bar D Pol Manchester to the industry. When you buy a bull you really like, you cross your finger and you hoping he give what he is. When you are looking at the first Manchester calves crop, we can easily said, this bull stamp his calves!!! Most of the calves are dark red, well pigmented, deep body, good muscle and easy keeping type. Manchester calves well and those calves are some of the most vigourus calves ever born at the farm. We are offering 2 lots of 10 straws and 1 lot of 5 straws. The highest bidder has the opportunity to take one lot or all !

After many requests we have decided that the time has come to share our Spartacus with the rest of Canada. In four years, Spartacus progeny and embryos from Crossroad, Sibelle Fleck and LWC Ranch has brought in over $800,000. His 49 sons averaged $13,640. He is a money maker that is for sure! Philippe Belevance from Sibelle Fleck in Quebec is the breeder of Spartacus and he has been doing very well using him on his polled genetics. Last year Sibelle Pol Synergy 18F sold to Virginia Ranch and Rand-Mar for $65,000 and Sibelle Pol Sugar Ray to Beechinor Land & Livestock & WJ Simmentals for $66,000. If you look at some past Crossroad Farms catalogues you will see that many of his early maturing sons were pictured less than eleven months of age. He puts thickness and quality into his progeny like none other. We have also crossed Spartacus with polled red cattle with tremendous results. We are then crossing these red factor Spartacus sons with black cattle and again we are so very impressed! Siring proven progeny in Full fleck, Polled, Reds and next generation Blacks makes him very unique and a real asset to the Simmental breed. His females are phenomenal producers with great udders too. We have many daughters working in the herd and we can say without a doubt that Spartacus has influenced our herd more than any other bull we have ever used. We guarantee he will leave a mark on your program too!

* This will be the only semen available for the 2021 breeding season.

Introducing ANGUS EMBRYOS

Lot 30 EMBRYOS PF CHEETAH RLP 15X *by* MUSGRAVE SKY HIGH

A) 3 Embryos B) 3 Embryos *Canadian Qualified*

PF Cheetah is our absolute favorite cow on the place, she has done so much for our program and for us personally over the years, she is the easy doing, easy flushing type that never changes. Her udder is still perfect at 10 years of age and her prodigy impress us every year no matter the sire used. All her females have carried on the tradition of their momma with size and udder quality. Her bull calves have all been scale tippers with good testicular development and all the calves have had the longevity of their dam. We chose Musgrave Sky High to flush to 15X because he was a performance bull with superior structural soundness and hoof quality. The cross of 15X and Sky High will give a moderate birthweight, big bodied, good structured and footed calves. We have 4 calves coming from this cross in 2021 and can't wait! 15X Is what she is, she has nothing to hide if you like big broody females with lots of body that produces scale tipping calves year after the year theses Sky High embryos should do the trick.

TERMS & CONDITIONS

TERMS The terms of the sale are cash or cheque payable at par at sale location. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

SALES TAXES Applicable sales taxes will be charged on semen, embryos and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INFORMATION SUPPLIED The information contained in this catalogue is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Keltey Whelan Designs assume any responsibility if the information supplied is not accurate.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDER'S GUARANTEE As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

The following lots will be sold through timed auction on Timberlind Auctions
