

20th Anniversary
MANITOBA'S LARGEST SIMMENTAL BULL & FEMALE SALE

HOLIDAY MONDAY
FEBRUARY 19TH, 2024 · 1 PM ON THE FARM · STE. ROSE, MB

Welcome to
Bienvenue à
STE. ROSE DU LAC
Cattle Capital of Manitoba

OFFERING 137 BULLS & 52 HEIFERS

Welcome to our 20th anniversary Bull & Female sale held on our farm, just south of the Cattle Capital of Manitoba, Ste. Rose du Lac. With this being 20 consecutive years of hosting a sale, take into consideration the breeding program is 45 years in the making, one of the longest established Simmental herds in Manitoba & even Canada.

Raising & marketing registered cattle is a rewarding business, especially with the connections made across the continent. We would be remiss if we didn't give a huge thank you to all of our customers along the years. Your patronage to our program is so very much appreciated. We thank you for choosing the AIA tattoo.

As time marches on, we as cattle producers have all needed to adapt & tweak a few things over the years. Without a doubt every single one of you are running more cows, more efficiently & with probably not much more manpower. We are in the same position, with a growing grain farm, young families & needing to do more in the same amount of time, we've really increased the efficiency of our cow herd. You will not find the fluff & puff in these cattle, they are bred to be sound, athletic & profitable.

We are very excited about this year's offering, of course you will read in numerous catalogs folks stating "This is the best offering yet" well without being so cliché, we will let you be the judge with these pictures, videos & in pen appraisals. Perhaps we are biased however we feel that all 3 groups, the Reds, Blacks & Fullbloods will knock your socks off with the depth of quality. From performance beef bulls to maternal sires, down to calving ease heifer bulls, there is something for everyone here. Without forgetting about the large group of open replacement heifers on offer, you will get good bang for your buck with these ladies. Breed them to who you want, when you want.

The search for new sires is a fun but also challenging job. You will find several new sire groups in this year's catalog. We are not afraid to invest in our walking herdbull battery, they are the key to a successful cow herd. But rest assured the proven sires such as Charles, Avenger, Percy & Centurion still make their presence known.

We'd like to also express a great deal of gratitude to our team here at Rendezvous. Ron Raffray has worked here for 34 years, he is our night shift guy & let me tell you there's probably not too much a cow can teach Ron at this point. Our herdsman Trevor Kristjanson is a dedicated employee who puts in a pile of hours all year, from tending to the livestock to running the grain cart all harvest, we certainly rely on him a lot. Pat Maguet is our main truck driver, he logs a lot of miles hauling grain at harvest & to the elevator. Brad Grudeski is known as a smooth operator, he runs a multitude of equipment, however, he specializes in excavator work & making us all laugh. All of these guys along with my brother Gerald & dad, Richard contribute to making the day to day work on this farm enjoyable.

We certainly hope to see you on sale day or if time permits, please come to the farm to view the offering prior to the sale. With the sheer volume of bulls to evaluate, a farm visit prior to sale day tends to pay dividends. The bulls are penned in their own respective "colored groups" you will find

a large area of snow packed, hard ground to make them walk, this will give you a chance to really inspect their feet. As always, feel free to contact any of the Sales Agents from Transcon or T Bar C for an unbiased review of these cattle & feel comfortable to bid with them or online with DLMS (Mark Shologan) if you are not able to attend in person.

Mark February 19th on your calendar as a must attend function, join us for coffee & donuts in the morning, a homestyle catered lunch & some of the best hospitality you'll find anywhere, all day long.

SALE DAY INFO

Settlement Terms

The terms of the sale are cheque, cash, wire or etansfer payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made.

Guarantee

Bulls selling at the sale will have passed all essential tests and examinations. Every bull selling will be accompanied by a valid Breeding Soundness Evaluation Report, signed and stamped by a veterinarian of the Western Canadian Association of Bovine Practitioners.

Herd Health and Fertility

All sale cattle have been treated twice with Ivermectin & are on Full Herd Health Express Program: Pyramid FP5+Presponse & Ultrabac7/Somnubac was given as calves & at weaning time. All bulls will be examined, scrotal measured, semen tested & palpated by a licensed veterinarian prior to the sale.

U.S. Buyers

The U.S. Exchange rate will be announced prior to the sale. We will attend to, and assist with, all necessary health testing, vet examinations, paperwork, and obtaining your state permits associated to export your animals. U.S Customs & UPS brokerage charges will be paid by the purchaser for a cost of \$300 US. per animal paid to Transcon at the time of settlement.

Sight Unseen Purchase Program

If you are unable to attend the sale but are interested in a bull or heifer, give any of our sales staff or David a call and they will personally go over the sale cattle and your program and recommend bulls or heifers that will suit your needs. Your complete satisfaction is our goal.

Delivery Terms

Option A Bull(s) will be delivered free of charge within 350 kms or to the nearest Canada/US border crossing. We will do our best to get them to your yard, however, at times, it may be required to meet at central locations. Delivery will be as soon as possible after the sale at the buyer's risk and the seller's convenience. Buyers must insure their bull(s) while being cared for at Rendezvous Farms. **Heifers to be picked up by purchaser by early March. We can assist the purchaser in coordinating transportation.**

Option B Sale Cattle can be picked up on sale day or anytime after

Option C Bulls can be kept at Rendezvous Farms free of charge until March 25. A charge of \$5.00 per day will apply after that date. Buyers must insure their bull(s) while being cared for at Rendezvous Farms. We are not responsible for any injuries during that time. The purchaser must pick up the bulls.

Trucking

H.S. Knill Company.....519-442-6242
Martin Bellemare.....819-296-3043

Soliciting

It is unethical for anyone to promote, advertise or arrange the sale of any cattle, other than those in the sale, on the sale premises.

Insurance

You MUST insure all of your purchases for your own specific needs, preferably through our agent:

Lois McRae, Keystone Livestock Services, 204-728-3058

Attention Canadian bull buyers are asked to apply "Broad Form & Loss of Use" insurance coverage on all your bull purchases in order to fully protect your investment.

U.S. Bull buyers- Sheila Jensen, Courtland, Kansas 785-262-1116

welcome from Transcon Livestock

The trend continues in the development of this well established breeding program with the base of walking herdbulls playing such a foundational role. As a commercial producer, I would have to think that you would have way more confidence buying bulls from an operation that has their own self confidence and cow-man savvy to invest in quality herd-sires. Whether touring the Rendezvous bullpen or flipping through the pages of this catalog, it has to be very apparent that this is a place that can assemble multiple brothers that in turn opens the door for more buying options, or buying power, for you.

Staying with this theme, to see the proven greats like "Charles", "Rampage", "Avenger", etc. with large groups of sons once again, carrying right to the new young guns like "Pendleton" and "Dutton" who offer their first string of prospects, the common sense approach validates itself. The important presence of resident herdsires eludes many breeders, they really haven't done the math well, when considering factors like poorer conception by utilizing A.I. and unfortunately for many, it's a situation of not having the confidence to purchase herdsires, it's "easier" to buy semen on a bull that's been "chosen" by a corporation. Obviously the Rendezvous Farms program has realized the difference, hence the investments and prioritized effort to acquiring quality herdbulls.

Moving on even further to this point, herd creation goes back to the strength of the bulls that have worked the breeding pens in the past too. It's not only about creating bulls that are 1/2, 3/4 and higher related brothers but the depth of a cowherd. The Rendezvous pedigrees read deeply stacked with current and past Patriarchs of the herd.

Of course there are benefits to purchasing the heifers for many of the same reasons. A group of sisters, as they make available annually would sure make a great start to a herd or a valuable addition to your current program. It's always easier to find a bull to breed them to versus a mixed genetic package that limit individuals.

As the world returns to larger attendance at these live auctions, I would like reinforce an invitation on behalf of the Maguet Families to join us on "Holiday Monday" in the modern, spacious Rendezvous Sale Facility and enjoy the hospitality provided by this family. We are only a 3/4 mile off highway 5, South of Ste. Rose, the farm sign is easily noticeable.

Part of our job description is to represent any of you who can't personally attend and would like to have an appraisal on the offering. We will be on sight for a couple days ahead of the sale and will have gone through them and are happy to represent your bidding requirements at no charge.

Look forward to seeing you at the "Cattle Capital of Manitoba",

Jaymes E. (Jay) Good

Without a doubt one of the most talked about bulls to sell in the spring of 2016. Charles was bred by the wonderful people at Lockhart Valley Simmentals, Rimbey, AB. Lee, Tina & Hanna Robson toured us around their farm & made sure to show us the dam of this great bull. After only a few minutes of viewing both "mother & son", my wife Rachelle & I knew that we had to own Charles, there was no other alternative. We also knew there would be some very strong competition in doing so. When the dust settled, we managed to purchase him outright for a ground breaking \$75,000! We felt we needed to add this powerful, perfectly made, genetically unique individual to our herd bull roster for our customers as we know too well that trying to find that ideal individual in the Fullblood business is a very, very tough job. In all honesty, I've never been so excited about a bull as the day we saw Charles & that feeling has continued every single day. His first calf crop was embraced by both Purebred and Commercial breeders with his sons averaging \$10,616. The best thing we've ever done was use Charles in our program. We truly believe the best thing you can do is to use his sons.

Homo Black, Homo Polled There's a bit of a story as to how we acquired Percy 37D. He was originally purchased out of the MRL sale in 2017 by Grant Gordon, Kisbey, SK. When delivering cattle at Percyview one day, he showed me his bull pen. A particular blaze faced bull really stood out, he was so impressive, thick, long, wide topped & only a 2yr old! We kept this idea in the back of our mind & come the spring of 2019 after a few herdbulls getting injured we called up Grant to see if he would consider parting with his awesome bull. Anyone who knows Grant will tell you he's a heck of a good stockman & a real gentleman. As luck would have it, we managed to make a deal & Percy became our first blaze faced black herdsire. Percy himself is all about performance, his progeny have a lot of jam & should be a great fit for Angus cattle who need a bit more power.

Homo Black, Homo Polled Our pick of the Beast Mode sons at Lewis's 2019 sale where they were the feature sire group that year. Bringing fresh new genetics is paramount to our program & Avenger is a bull we are extremely high on. The absolute length of body, mellowness accompanied by square hindquarters makes this young sire a rising star with a lot of potential for years to come. Avenger saw heavy service in 2020 & we have a bunch of awesome looking calves already hitting the ground.

Commander was our pick of the Black Gold bulls in the well respected Next Generation Sale in Lloydminster in March of 18. He was also their second high selling bull that day. Randy & Vanessa Noble showed me both the sire & dam of this impressive young bull which really helped me cement the idea of adding him to our herdbull roster. He weighed over 1600lbs on sale day at 13 months of age. His superior depth & overall thickness is transferred over to his calves as well. We've been very pleased with how well he has bred, calved & in the development of both male & female offspring. Commander saw heavy service this year & we feel will really complement the Charles line in the Fullblood program.

Homo Polled Rampage was the all around best dark red bull we could find in the spring of 2019. The middle, hair, thickness & width of quarter would stop you in your tracks. We suspected he would be pricey but with our conviction of owning the top sires we can find, we purchased Rampage at a whopping \$70,000. One of the other reasons this bull was so high on our radar was on account of his mother & her impeccable udder & foot structure. Out of 500+ cows at Skors, she was hands down their best walking cow & led off their dispersal being their top selling cow of the day. Anytime we spend this kind of money, the expectations are also rather large. Rampage has hit the ball out of the park with his first calf crop as you will see with his 14 sons selling. These bulls are just like him, thick, hairy, wide topped & big nuttied. This will be the last of his progeny to sell.

Our pick of the yearling red bulls at Lewis's in their 2020 sale. We really liked this Amber Jack bloodline & are happy to incorporate it into our ever-evolving red program. Thriller is dark red, long bodied & thick made. He is a great breeder & very athletic. The cow family behind this bull is top shelf & one of the very best according to Kyle. We have a great sampling of Thriller progeny in this year's sale & look forward to a large offering being born this winter.

We typically like to get out & scout for new herdsires however with time constraints & unplanned need for an extra black bull we acquired Dynasty sight unseen through the T Bar crew. Between Ben, Shane & Chris, they unanimously gave us the green light on this feature bull. The Spring Creek program is highly respected & long-time breeder in the black Simmental business, therefore we were very happy to be the successful bidders on this bull. The Dynasty calves really stand out, they have that extra depth of body, great hair & mellow easy keeping characteristics. Check out his outstanding offering.

The lead off bull & one of the high sellers at the inaugural Spring Lake sale in 2020. We've had tremendous success with all our Zimmer bred bulls & we feel Centurion will carry on that track record. He's got that trademark purple red color, smooth shoulders, excellent calving ease yet has a lot of length & performance. He's built the way we like them, after seeing heavy service as a yearling, Centurion kept his condition & looked top shelf all summer.

The \$25,000 high selling red bull who created quite a stir at our sale 16th Annual sale. Larkspur Ranch of Eddystone purchased him to use on their elite cowherd of red goggle eyed Simm cows. After a glass or two of red wine, Kelly & Lorraine agreed to sell us a share back into this powerhouse bull. We used him sparingly on a handful of cows as a yearling. The following year he ran with our cows for 2 months then went straight to work at Larkspur. He came out of the breeding pastures in mid August after severe drought conditions & still carried great flesh. Look forward to the Glacier cattle in years to come, they will stand out.

Homo Black, Homo Polled The lead off & high selling bull from the Southwest Showcase Sale in Swift Current, SK, bred by Boundary Ranch. We had already started our breeding season when we purchased Motley therefore you'll notice his calves birthdate start later than the rest. Jay Good gave great praise on his thorough inspection of Motley for us, we bid a few extra times to get the job done & by judging his first calf crop, he was well worth his money. What impresses us the most with Motley is his true curve bending ability. His calves come small & easy, then take off & grow exponentially. Highly desirable traits in this day of age. As a 3 year old now, he is impressive.

Homo Polled The \$37,000 high selling bull from Oakview Simmentals who caused quite a stir in 2021. Hershey checked off a lot of the boxes for us when it came to selecting a bull who would be suitable for 2nd calvers. In saying that, many felt he would even work on heifers which after calving season, we would agree. However we've used him mainly on 2nd calvers & some larger framed cows to bring in some CE meanwhile maintain performance. A very docile bull, his progeny is the same. You can easily pick out his sons & daughters as they are very similar in structure, dark red hair coat, low to the ground, soggy made cattle.

Homo Polled We retained Refine as a yearling a few years back as we really liked his dark cherry red color & physical characteristics. His sire was our high selling red bull in 2019 going to the reputation program of D&S Moffatt Stock Farms. We used him on a few cows just to try him out & Refine was one of the resulting calves. You'll notice a lot of similarities in the Refine cattle, long bodied, stylish & dark red. They will definitely add to anyone's program.

Homo Black, Homo Polled Pendelton was the lead off black bull in the legendary LaBatte Bull sale in March of 2022. Sired by the \$150,000 R Plus Yuma bull & mothered by Barry's great Clayhill Fancy Luca cow who mothered the \$92,000 IPU Bentley bull, Pendelton's pedigree is stacked with some of the greats in the black business. Jay Good called us up about Pendelton the night before Barry's sale & told us he was our kind of bull with that extra length & punch. Jay's track record for recommending bulls to us has been A+ therefore

we went along with his advice & purchased this fine piece of breeding stock. Unfortunately, Pendelton got injured this summer & we will only have 2 calf crops off of him. That's the way it goes sometimes in the bull business, however you will see how good his sons are in this catalog, they're the right kind of cattle.

Homo Polled Duratrak has become one of our go to sires in the heifer pen. We purchased him specifically with that intent. Born at 72lbs, he ranks in the top 1% of the breed for CE & BW EPD's at +20.2 & -3.0 respectively. His calves just slide out with ease & have a ton of vigor. Long bodied, smooth made, check out his sons & daughters they are well put together stock. We have to give due credit to Wilf Davis on really promoting this bull to us. Wilf has known our program since it's start & knows what we want. After viewing the videos numerous times, it was clear to Wilf that we needed this guy for our heifers. Sleep easy heifer bulls are worth their weight in gold in this business.

Non Dilutor We purchased Dutton from John Beechinor's great Simmental program through Jay Good as we couldn't make it there to see the offering. However, I had seen his sire, Westgold Standout as a yearling back in 2013 & thought he was one of the best Fullblood bulls of that time. I had always wanted to own a son of this great breeding bull & when this opportunity arose, we felt we needed to add Dutton to our Fullblood program. He's been crossing very well on the Charles daughters, his color is just fantastic & he is perhaps the easiest keeping bull we've come across as a coming 2 year old last year, he really impressed us.

Non Dilutor A bull sired by the very well-respected Anchor D Outlook bull, Outback is extremely long bodied & good natured. Glenn Norton called us up the day after our sale & had stopped to tour the Crossroads bull pen on the way home. He came across this particular bull who really impressed him. Now, as you all know, Glenn can be quite picky with even the best of bulls, so if he was calling us, we should probably just take his advice & buy him...which is what we did. We partnered up with Randy Geisler on the Outback bull, as a yearling he worked like a charm & serviced a lot of cows in both our herds. His offspring are all showcasing that extra length of spine, gentle demeanour & overall extra punch that we are all looking to maintain in these Fullblood cattle.

Homo Polled A son of the greatest heifer bull we ever owned, Legacy. After losing the Legacy bull we knew we needed to keep a son & decided on this guy. Celebration had all the calving ease characteristics we were searching for plus was mothered by one of our broodiest red heifers that year. Adding some Mandako on the bottom side, we felt would just improve the overall resulting calf quality. We used Celebration for 1 season & later that year in July sold him to Bergman Family Farms to use in their spring calving purebred herd.

Wilf Davis, our longtime friend came for a cattle tour last spring. Wilf spearheaded our first bull sale in 2004 & has played a huge role in the marketing of our livestock. We've received a lot of sound advice over the years & greatly appreciate everything Wilf has done for the Simmental breed. A true icon in the Canadian livestock industry.

Richard & Pauline with their 10 grandkids, the results of 41 years of marriage

Black Bulls

BLACK BULLS LFE AVENGER 834E SONS

Homo Black, Homo Polled
Here's a very good representation of our black program the cross of Avenger on a Percy female. We've always been big believers in having length in our cattle, especially when selecting sires. 477L encompasses those beliefs in a very desirable package. A maternal brother was selected by Spear W Ranch, MN in last year's sale.

Hetero Black, Hetero Polled A bull who I'm quite fond of & perhaps a bit biased due to his mother's track record here. An eye-catching baldy bull, just picture the set of calves he will produce. 120L's dam is really easy keeping red baldy Rambo female. She seems to always crank out a winner. Siblings have sold to Stolson Farms Ltd, SK, Haman Ranch, ND, Blaine & Brent Pasichnyk, MB & Jaret Henderson, SK.

Hetero Black, Hetero Polled

With so many bulls to choose from, it can get to be overwhelming at times. One suggestion is to not overlook 117L. Here's a bull who has a lot of style & eye appeal. A long bodied bull with a great build. His dam is 10 years of age & has sent progeny into a number of different herds such as New Rosedale Colony, MB, Helgoe Simmentals, ND, Bonin Farms, MB & Lewis Farms, AB.

Hetero Black, Homo Polled
The old adage "If it ain't broke, don't fix it" applies to this bull. We've found great success in breeding Avenger to the 304E cow. This combo pack typically turns into the longest bodied bull every year and this year's son is no different. With so much length of body, he does carry a bit more birthweight but don't let that number fool you, every year that cow lays down and after a few pushes has her calf effortlessly. Grandpa always said length = pounds. Two full brothers have sold to Daniel Dockter, ND & Darwin Froese, MB.

Homo Black, Hetero Polled Last call on these Percy sons this year. If you sell your calves by the pound, you will certainly have this bull marked down. He is a performance type bull who's always looked like a herdbull since a young age. A maternal sister was a feature in last year's sale going to Helgoe Simmentals of Cavalier, ND. Brothers to this guy have went to North Coulee Cattle Co, SK & Chad Blair, MB.

Hetero Black, Hetero Polled I wish we had more of these Percy sons on offer. They seem to catch everyone's eye, every year. 150L has a different pedigree with his mother being out of a Skor bull Jay Good had purchased for us many years ago that later went on to work for Jarret Bieber out in Wolseley, SK. A red brother sold in last year's sale to 5D Ranch, the Dudars in Ethelbert, MB. Other siblings have went to repeat customers, Momotiuk Farms, Springbrook Farms, South Valley Farms, J Bar K & Cameron Land & Cattle.

Homo Black, Homo Polled

This lad was born at 70lbs from a first calf heifer & still weaned off at just over 800lbs. Isn't that what we all strive for with our first calvers. We just can't say enough good things about these Motleys. From calving to weaning to yearling, these cattle are always at the very top. We could go on about this sire group but will let you evaluate them by picture, video & hopefully in person. You will see what we are talking about.

What an impressive tank! It's almost hard to believe this guy was born to a first calf heifer. The icing on the cake is weaning him off at 995lbs in early September. 162L is the complete package. He is just correct made; this is the kind of beef bull we aim to produce. As a calf he was always a real pet & would follow us around when doing our daily health checks. His mother is also extremely quiet. These Glacier females are really impressing us with their natural do-ability & temperament.

A true curve bender here, born small at 71lbs & weaning off his first time mama at just shy of 900lbs. That's quite the feat. These Motley sons are like peas in a pod with their heads & body shape. His mother is a really feminine, well put together Rampage daughter with a beautiful, tidy udder.

Homo Black, Homo Polled

Here's a bull I rank extremely high in the offering. You can spot this guy from a ¼ mile away. If Motley was needing replacing, this is the son we would retain. He's an all meat, no potatoes kinda bull. Extremely wide topped & thick butted, this guy is so easy keeping. Yet again the signature Motley numbers shine through with 85lbs BW & 905WW. The cow family behind this bull is top shelf, we just can't say enough good things here.

Hetero Black, Homo Polled

A rugged beef bull who moves out freely, he's tough to fault. Thick hind quarters, lots of capacity & a great spring of ribs. The outcross pedigree on the bottom side is also an added feature for this black bull. The stats read out extremely well, born at 75lbs & weaned off his first time mother at 900lbs. There would be very few out there who could reach those kinds of numbers. Take note here guys, here's a bull worth checking out. He will knock your socks off.

It's quite a challenge not to sound like a broken record player when it comes to this sire group. 181L groups up with his brothers so well. Big barrel capacity, easy keeping & good natured all come to mind when describing him. The young baldy dam of this bull is a cow we feel will have a lot of potential here in years to come. A full brother to the dam was our lead off black bull in last year's sale. He was selected by super keen cattlemen Cody & Ron Gawazuk of Dauphin.

Hetero Black, Homo Polled It would certainly be a challenge to pick a favourite when it comes to the Motley sire group. 14L is a bull who is extremely hard to fault with his big barrel rib shape. Top it off, born to a first calf heifer unassisted at 80lbs, let me tell you, this guy will mature to be impressive. He ranks in the top 20 percentile for calving & weaning EPD's. Here's one that will give you calving ease & performance all in one.

Hetero Black, Hetero Polled

Here's a great combination of some of our finest black genetics mixed with the proven likes of Charles breeding on the bottom side. Charles being a non-diluter and using his heifers with black bulls for their first calf has turned into being a win win in every direction. You'll want to keep all the daughters off of this bull as you will get that extra milk & punch. 345L checks off a lot of boxes, all you need to do is own him.

Homo Polled, Homo Black Where do we start with this guy, should we mention his awesome, balanced EPD's or else his tremendous birth to weaning weight figures. Or do we start talking about his overall profile. A meat machine in the making here. Masculine, wide topped & thick butted. A different twist of pedigree to boot on this homo black bull. You can never go wrong with incorporating some red genetics into the black gene pool.

Hetero Black, Homo Polled 45L has a bit of a story to him which correlates to his lower weaning weight. We made a mistake at pasture haul out time & him & his mother got separated with us not realizing they were split up. We only realized our booboo come weaning time as he had no mother or creep all summer. From a genetic standpoint we know this bull has the potential to be a great herdsire, for the time being he is playing a bit of catchup to his pen mates due to our error.

**Homo Black, Homo Polled**

We lost the Dynasty bull due to lightning in 2022 so this will be the final calf crop from him. 6L is a real powerhouse. Guts, nuts & butts, he's a real ripper of a bull. Scaling in at 1000lbs at weaning time, here's a bull who will crank out some tremendous calves. Brothers to this bull have sold to some of the finest black commercial herds we deal with, K Bar Livestock of Ste. Rose & Percyview Farms of Kisbey, SK

Hetero Black, Homo Polled A bull with a little more frame which is a Dynasty trademark. His mother traces back to one of our very first black bulls we used. Siblings to this bull have sold to Mike Galbraith, ON & Haman Ranch, ND. We also have a very good sister to this bull in our herd, she raised a bull this year & he is the lot 9 bull.

Homo Black, Homo Polled

We've been toying with the idea of retaining this guy as we had the misfortune of losing his sire this fall due to an injury. Will roll the dice as we have 1 more calf crop from Pendelton hitting the ground this winter. 177L is long bodied, smooth made & very complete. He weaned off at 1000 lbs, that always earns some bonus points around here. A true herd bull in our mind, he makes his presence known & moves out like a cat. A bull with a ton of rib shape & capacity, he's as thick as bugs on a bumper & definitely one of the best black bulls we've ever raised. A maternal sister sold to Aaron Hershmillier of Yorkton, SK in last year's sale.

 RENDEZVOUS MS ICON 173A

Homo Black, Homo Polled

Without a doubt this is our strongest offering of black bulls to date. Every sire group has really risen to the top. These Pendelton sons are turning into some real powerhouses. They've got the length, thickness & nuts that make them easy to like. A maternal sister is working out at Helgoe Simmentals just across the border in Cavalier, ND.

Homo Black, Homo Polled A bull who's easy to identify in the black pen with the extra chrome. A stout made bull who's soft made & easy keeping. Wide topped, he should sire some excellent steers & replacement females. The mother of this bull is a full sister to the 304L bull (lot 10) who is a feature Avenger son.

Hetero Black, Homo Polled
 Certainly a fan favourite here. 64L has been a ripper since a young age. Thick butted, wide topped & big nuts. He moves like a real cat. All the signs of a true herdbull in the making. Born at 85lbs & weaning off at 915lbs, here's a curve bender. His mother is a fabulous young baldy female.

Homo Black, Hetero Polled Rugged, masculine & powerful come to mind when evaluating 423L. Here's a looker since the day he was born, I dare say he's the easiest keeping bull of the bunch. Quiet disposition, THICK & soggy & if you like some chrome, well he's got a little more than most which makes him

stand out. We have 2 sisters to this bull in our herd & they are turning into some fantastic young cows. A maternal brother was a feature bull in our 2021 sale where he was purchased for \$10,000 by Bryan & Kathy Preston to use in their large, productive black program.

Hetero Black, Homo Polled 27L will have just celebrated his birthday by sale time, take that into consideration, he's got a lot of great attributes we can all appreciate. His mother is a stout made easy keeping female who again goes back to the great Powershift bull who had such a lasting impact in our black program. The blend of maternal & paternal power in 27L makes him a user friendly choice for a lot of herds.

Homo Black, Homo Polled

The 98G cow is really impressing us with how she is producing. Last year's son was a high seller at \$13,000 to repeat customer Nick Stormo of Hayti, SD. Nick always picks out the performance cattle that have a bit more guts, he's no stranger to the cattle business in the Dakotas. Now onto this year's calf, he is no slouch either being sired by our new IPU Pendelton bull. 98L is a bull who deserves your attention, with parents like his, I would use him just on those merits alone.

Hetero Black, Homo Polled The only black Duratract on offer & he's a good one. A calving ease bull who would work well on some 2nd calvers & maybe even select heifers. This easy keeping rascal won't quite be a year of age on sale day, take that into consideration when evaluating him in the pen with his mates. The dam of this bull is developing into a really soft made, wide topped cow.

Homo Polled

Here's a scale cruncher, weaning off his momma at 1000lbs in early September. A Rampage son out of a Express X Icon cow who's no stranger to cranking out the good ones. This blaze faced momma cow has produced sons who've sold for top dollar to Geisler Cattle Co, MB & Mathew & Leanne Sawatzky, MB. She's also put a few females in our herd, one of them producing the Lot 84 bull. 168L is of very high quality & could work in any purebred or commercial program.

Homo Polled The Rampage X Alaska cross really seems to click. Here's as powerful of a bull as any in this sale. A bull we are really high on, no BS either as we have kept back a full brother to this bull to use in our own herd. Thick butted, deep ribbed, long bodied with a great foot, this bull is quite the package. The dam of this bull is quite likely my favourite red cow in the herd. Last year that cow cranked out one of our top red bulls who sold for \$16,000 to Greg & Logan Els of Stornoway, SK. Another son sold a few years back to a highly esteemed cattleman, Ron Boerchers of Laurier, MB. Ron dispersed his herd back in December where he had one of the best cow sales ever witnessed at the Ste Rose Auction Mart.

Homo Polled Great hair coat, thick butted & tons of depth of body. Like his brothers, this Rampage son spells out performance & will add pounds to your calf crop. The 114C cow has had a great production record here, she's sent offspring in herds all across the west such as Richard Mountenay, SK, RJS Land & Cattle, SK, Fallen Timber Farms, BC, Morgan Farms, MB & Belle Plaine Colony, SK.

**Homo Polled**

A Stout made bull with a ton of rib & wide, thick hind quarters. These Rampage sons always have nuts, guts & butts. 7L is a stellar bull with a lot going for him. A full brother was purchased a few years ago by Gumbo Flats Ranch of Fort Rice, ND. Mathew has been very pleased with his Rampage bull. Other brothers have sold to Greg Fraser, MB & Sonny Berndt, ND.

Homo Polled With so many red bulls on offer, there really is something for everyone. Study the videos on these bulls & I bet 259L catches your attention. Like all Rampages, he will be easy fleshing & produce some offspring who will pack on the pounds. A brother sold last year to Derek & Rob Vandepoele of Ste. Rose.

When Ron (Rocket) Raffray isn't calving cows at night, there's a good chance you'll find him fishing.

Hetero Polled

A favourite amongst the Glacier sons this year. A bull I could easily be talked in to retaining for ourselves. Long bodied, smooth made yet thick butted & masculine with large testicles. He will be impressive as a mature bull. A maternal brother sold a few years back for \$10,000 to Mike Erfle of Heaton, ND.

Homo Polled

A rippin good Glacier son who packs a lot of punch. Thick made, solid built, he's what a real bull should look like. The Glacier cattle always have that extra thickness to them & this guy is no exception. Mothered by a Erixon cow we purchased a few years ago as an open heifer. Outcross pedigree to a lot of programs.

Chuck full of meat & no potatoes, this low set beef machine is certainly one who will pass those traits onto his calves. We are very fond of his mother, she is a super easy keeping cow with a lot of milk & good feet. She raised the Rendezvous Eclipse bull who is doing a super job at Forden Fairview Simmentals where they have sold numerous sons in the last few years.

Homo Polled A low set, long bodied, thick made beef bull. Here's a great candidate for the 2nd or 3rd calvers in your herd. Brothers to this bull have sold to Wright Livestock Ltd, ON & Travis Wadsworth, SD.

Hetero Polled

The 269F cow does it again. Here's a bull who's really complete & easy to appreciate. Definitely a bull who can be used in most herds, he is stylish, long bodied & has a great hair coat. A maternal brother was a feature in last year's sale commanding \$15,000. He is now a North Dakota resident & working in Chase Trautman's great program. Chase & his family run a large mixed farming operation & know the value of quality stock. Good bulls never cost, they pay.

Hetero Polled These Glacier sons usually turn out to be good bang for your buck. Lots of hair, easy keeping & great to work with. A full brother was purchased by the DeVos crew of Salty Fox Farms Ltd of Fork River, MB in last year's sale. The dam of this bull is a 10 year old cow, she's got great feet & still the most tidy udder for her age. She's cranked out progeny who's sold all over from Ontario to Saskatchewan to South Dakota.

Homo Polled With Glacier & Mandako in this bull's pedigree, you will automatically get hair & thickness. Truth be told you will be getting a lot more than just that. The picture can only show so much but with the video will tell the tale about this fellow. Easy keeping, rugged & gentle to work with, this guy is no slouch.

**Homo Polled**

A dark cherry red bull who will have his share of admirers. We liked the idea of incorporating Glacier's powerful performance traits with the calving ease bloodline of Rambo. The result here is quite pleasing with 34L. Brothers to this bull have went to the Marcinek's well respected herd of 4M Cattle Co, Stauffer, AB & Larry Dudar's 5D Ranch an hour away in Ethelbert, MB.

Homo Polled

A bull with a new, but proven pedigree here, you can trace back some of our top red Zimmer bulls in this guy's pedigree plus you'll even find the legendary Bodybuilder bull tucked away in the very back. But getting down to brass tacks, evaluate this bull for what he is. A soggy, easy keeping, deep bodied meat machine. His quarters hang low & he has a real presence about him. A maternal brother was a feature bull who sold for \$12,000 last year to Lake Manitoba Cattle Co, Cole & Greg Johnson of Vogar, MB.

Homo Polled A bull with a unique pedigree, Refine on the top side & the Benjamin bull we used for a few seasons over 10 years ago on the bottom side. The dam of this bull is a larger framed cow who we always expect to throw a bit more birthweight into her calves with how long her offspring are. There's never any issues with birthing but you will notice a higher weight due to her size. Two of her sons are working in the Dakotas, one at Bueligen Ranches, ND & the other at Glen Aldentaler's, SD. We have 2 daughters working in our own herd along with some daughters at Abraham Farms, SD, Double G Farms, SK & Triangle 33 Simmentals, SK.

Homo Polled When studying this bull's pedigree, in essence he carries all of our best red herdsires of the last 2 decades. This should help take most of the guesswork out of your bull buying experience. Buying proven seedstock over the latest trend will always make you more money in the long run. 337L is an overall user friendly type of bull who will go out & get the job done. A brother sold in last year's sale to Nick Stormo of Hayti, SD. Nick has an amazing eye for cattle & can pick them out sight unseen as good as anyone I know.

Scurred One of the biggest, heaviest bulls all year, 377L is another Centurion who is competing for top spot in the performance program. This bull is truly impressive, from every corner he just spells out herdbull. Long bodied, smooth built yet thick made & deep sided, he checks off all the boxes. The Mandako cows are really rising to the top of our red herd, they produce the top calves every year. A maternal brother sold for \$13,500 in 2022 to RJS Land & Cattle. Ryan runs a large, high quality herd of cattle along with a very large grain farm near Hodgeville, SK.

AIA 71D DAM OF LOT 74

Homo Polled Perhaps one of the best Centurion sons we've sold to date. Here's a bull with a lot of jam but still displays nice shoulders & good calving ease & maternal traits. 71L is a bull who's quite easy to like for a number of reasons. Greg Dunning of McCreary, MB has purchased 2 full brothers to this bull in the last 2 sales. When you have a large cowherd, using full brothers like this is the smartest thing you can do to breed consistency in your calf crop.

77

These Centurion sons are always very popular with both commercial & purebred breeders alike. Soft made, wide topped, thick butted bulls who keep their condition at all times. It would be easy to just keep writing about the merits of these bulls but with today's technology of pictures, videos & EPD's will let you do your homework on this pair of brothers. A maternal brother is working at Skyland Simmentals. This spring Martin & Otto, long time Simmental enthusiasts also ended up purchasing the Centurion herd sire privately from us.

Hetero Polled

I really like the look of this guy, in a sea of red bulls he walks out & gets noticed early on. Style sells, the buyers notice those stylish calves come in the sales barn right away & even more so if you're in the replacement female market. 300L will develop into an impressive sire once mature. Brothers to this bull have sold to the Pasichnyk's, Eric & Wilco Van Meijl, MB & McKimmey Cattle Co, NE.

Homo Polled Where does a person even start with this bull....what a tank! I almost wonder if this bull doesn't have 6 stomachs with how much capacity & guts he has. The heavy weight red bull at weaning time, absolutely crunching the scale at 1080lbs. We all talk about some of these red simms getting just a little too small & compact, well here is one who will certainly add some pay weight to his offspring. Take the time to really study this bull, he's one that truly stands out from the pack. This is the 5th son of the 313E

	80	1015	889		9.8	2.4	78.7	113.2	33.3	4.2	72.7

Hetero Polled These Hersheys are so easy to appreciate. They are dark red, easy keeping & sound made animals. The curve bending ability on them is second to none. 289L was born at 80lbs & weaned off at 1015lbs. This low set beef machine has all the characteristics that the cattle business searches for. A full brother sold last year to McKimney Cattle Co of Merriman, Nebraska.

Homo Polled A solid red Hershey son out of a super quiet, easy keeping Walker daughter. We had a few red bulls go down a few springs ago & used the Walkerson from our good friends, Curtis & Tannis Zdan. We've been extremely impressed with the females he left us. We feel this 354L bull should have a lot of maternal power & work wonders on some 2nd calvers.

Hetero Polled

A baldy bull who gets pointed out quickly during bull pen visits. It's no wonder, have a look at this guy, he checks off a lot of boxes. From CE, confirmation & size, 167L does all those things right. With how well his sire calves, I certainly wouldn't be opposed to using him on some heifers, 2nd calvers yet would be a slam dunk. The dam of this bull is also a baldy & is developing into a lovely female. Her first calf sold last year for \$9000 to Doug Wilson of Pilot Mound, MB. Anyone who knows Doug, knows how studious he is & has a real knack of picking out the top bulls in a sale.

Gerald keeps saying we should be retaining this bull for our own herd. He spends all summer in the sprayer & possibly forgot that we did retain a maternal brother to 409L last year. 409L is very similar to the bull we kept back, dark, dark red, distinguished in appearance, smooth built with a great length of spine. We're quite high on the 409H cow, she's building herself a name around here at a young age. Mark this guy down, he's a heck of a good bull.

Homo Polled Another eye appealing Hershey son who's quiet as a lamb. It comes to no surprise since his mother is an absolute pet, unequivocally the quietest cow in the herd. A bull who would be ideal for some 2nd calvers. Owned & consigned by Trevor Kristjanson, our year round employee who does such a great job looking after all these cattle. He knows them better than we do. We certainly encourage you to talk to Trevor about his 1000L bull or any animal in the offering on sale day.

Homo Polled

A $\frac{3}{4}$ blood Simmental Angus cross bull owned by Trevor Kristjanson. A definite calving ease prospect with the likes of Duratrac on the top side & Beef King & some Red Angus blood on the bottom. A stylish individual with smooth shoulders & a really nice head. If you like to sleep during calving season here is one who will fit the bill.

Lot 91 & 92 consigned by Trevor, Kayla & Axel Kristjanson

Homo Polled A moderate made bull with a little less bone & frame. He should be ideal for heifers, smooth made & good length. His dam is a lovely black baldy female who we expect great things of in years to come. This red bull has a shot of the Avenger bull in his pedigree which really gives a different twist to the red game.

**Homo Polled**

A solid calving ease prospect. 80lbs birth weight, smooth made, he should work in the heifer pen. A bull who's profile has been admired by many as we all know the challenges accompanied into sourcing out a heifer bull. We don't have a ton of Rampage females as he seems to breed pretty consistently 70% males however the females we do have are spectacular. They are easy keeping, good footed, big volume & have ideal udders.

Homo Polled Here's one of my top picks for the heifer pen. Born at 82lbs this Celebration son comes from our best Rampage bred heifer in 2022. This bull has all the characteristics needed when looking for a calving ease sire. The grandmother 111B is one of our most powerful red blaze cows on the farm.

Single Cross Red Bulls

SINGLE CROSS RED BULLS LHSV CHARLES 29C SONS

We had requests from customers to bring back a few Fullblood X Red cross bulls so we used Charles on a handful of red cows. We weren't surprised with the quality of calves from this cross as this is what built our red program many years ago. It's just a nice refresher for all us really. Long bodied, tons of hair, thickness & eye appeal. Here's the best of both worlds for anyone who's ever wanted a red Charles son.

Another stud here, a red Charles son with a bit of chrome. Using red genetics & the best Fullblood bull to ever walk our pastures has created a really unique opportunity. 431L is a bull who I've become quite fond of as time goes on. His sheer length, thickness & hair coat reminds me of when we first started breeding reds a long time ago. Use 431L on some of your cows that are needing length & hair. A maternal sister is working in Brett Siroski's purebred herd along with a brother in the well known Schmitt Ranch in Rugby, ND.

A red Charles who yet again stands out. Surprise, surprise. Every day I see this bull, I like him more & more. He has a certain look who just grabs your attention. Thick made, wide topped & a full spring of ribs, 78L brings out all the best from both the Fullblood & red programs. Brothers to this bull are working at two of the largest mixed farming operations we have the pleasure to do business with, Stolson Farms Ltd of Hodgeville, SK & B&M Morgan Farms of Sifton, MB. It goes to show you that even when you are running large numbers, quality is still #1.

Hetero Polled The youngest bull in the offering, here's a popular Red Sim X Fullblood bull who is developing extremely well despite his age difference. Often times these younger born bulls end up being the best deals of the day. By the time they are 3, you're laughing at how good of a deal it turned out to be. We've seen that happen more than once. This soft made blaze faced bull shouldn't be overlooked for that matter. His mother is a beautiful pear shaped, goggle eyed cow who raised a \$11,000 bull last year who sold to the good folks at Double Q Simmentals, Dane & Whitney Quartly of Red Deer County, AB.

AIA 222H FULL BROTHER TO LOT 119

If you're wondering where the beef is these days, 222L will answer that question with ease. An all meat no potatoes bull. This super soggy, easy keeping rascal will add that extra flesh to those RA cows that require just a bit more meat to them. Full siblings to this guy have sold to Gawazuk Farms, MB & M.C. Quantock, AB. Another maternal sister was a high seller a few years back who resides at Double Bar D Farms, SK.

Non Dilutor A super stylish rascal, I was quite floored when doing these notes & realizing he was a March calf, you'd never know it in the pen. Deep bodied, easy keeping & with a Charles mother, use this guy on some red or black cows & retain all the daughters, they will make exceptional cows. A maternal sister sold in last year's sale to Mathew & Leanne Sawatzky of Austin, MB.

Non Dilutor This guy has been our herdsman, Trevor's pick of the Fullbloods all summer & has remained that way into the winter. Right from a young age this bull stood out with his wide top & masculine look. A very thick made bull with loads of depth & rib, he's a stylish individual who makes him an extremely attractive herdsire in the making. His numbers are also quite impressive, born at 80lbs & weaning off his mother at 1000lbs at 9 months of age. To top things off even more, his pedigree has very little relation to a lot of today's Fullbloods.

Non Dilutor This year's offering of Fullblood bulls is without a doubt one of the stronger ones in the last few years. With bulls like 523L, they set the bar awfully high. The length of spine in this bull & frame is exactly where we want it when selecting herdsires for our own program. That length always translates to more pounds... just look at his weaning weight of 1010lbs in early September. There's a bit of a shadow on his picture as the sun was setting that day, however it's easy to see the caliber of this bull. Mothered by a super easy keeping Commander cow is just icing on the cake. Two maternal brothers to 523L have remained in the Ste. Rose area, one working at K Bar Livestock & the other at Scott Ingelbeen's.

Non Dilutor A super long spined bull who will add a lot of maternal power in anyone's herd. The reason we say that is his mother raised him at 15 years of age, didn't look more than 8 years of age & had the best udder you could dream of for a Fullblood cow at that age. 68U will go down in our books as one of the best Fullblood cows we've ever owned. Two of her last sons both ended up in Alonsa, MB, one at Cameron Land & Cattle & the other at Currits & Tannis Zdan's.

AIA 68H MATERNAL BROTHER TO LOT 126

Non Dilutor

One of the top Dutton sons in the offering, this super long bodied beef bull has the hair coat we strive to produce on these cattle. Marked to perfection, he encompasses all of the qualities we seek when selecting our own herdsires. Mothered by a beautiful young Charles female, here is a cow family we can talk about with the grand mother & great grandmother raising a number of high sellers in the last few years. The great grandmother 591Y is still in production & is slated to calve in late January. Mark this bull down, you'll travel a lot of miles before finding another one like this.

Non Dilutor The youngest Fullblood on offer, putting that into consideration, this Dutton son is as good as any of his brothers. Often times we've heard folks make the comment about buying a younger bull as a spare or insurance policy & then that bull develops into their top herdsire once mature. It wouldn't surprise me the least bit hearing that from this bull's new owner a few years down the road. Sisters to this bull have sold to Jace Martin, MB, Derek Shindle, SK & John Rohdes, ND.

Non Dilutor A long bodied bull with a tremendous hair coat. Masculine made, he should sire both, market topping steers & first cut replacement females. This guy stems from a fantastic cow family whom we can trace back for 45 years in our program. A maternal brother sold last year to Cody Kurek of St. Paul, AB. Another brother is working in Springside, SK at Paul & Dee Valstaar's great herd.

Non Dilutor Perhaps the longest bodied bull in the Fullblood division & maybe even the entire offering. Here's a bull who will add some growth & length to your calf crop. We've sure appreciated the extra length & frame from these Outback sons. With that said they are still built smooth as butter with their nice shoulder confirmation. 66L's mother was one of our favourite young Commander females, she was exactly what we are aiming our Fullblood females to be. We had the misfortune of losing her in November due to a dugout accident.

A dark red bull out of a middle of the road 1450lbs Nero cow. This will be the 4th son to sell from the 378E cow. Her other sons have all went to leading commercial programs in the three prairie provinces, Smolinski Farms, MB, Huron Colony, SK, Kotowich Evergreen Farms, AB.

AIA 378J MATERNAL BROTHER TO LOT 135

Non Dilutor A feature bull with the bloodlines that have really carried our Fullblood program over the last decade. 457L has an awesome hair coat, great stride, thick quarters & a ton of eye appeal. Be it purebred or commercial this bull would work in either scenarios. We really like the dam of this bull, she's likely one of our top Charles females & is marked exactly like her son. She's starting to make a name for herself as she raised a real humdinger last year who sold for \$17,000 to Chase Trautman of Robinson, ND to use in his top shelf red program.

In the spring of '22 the Commander bull went down for 2 weeks with a slight injury, thankfully Kelly & Lorraine Johnson let us use their Commander son they had purchased that year. We got a handful of calves off the 145J bull & liked the way he stamped them. The 210B cow has been a very hardworking, good producing cow whose foot quality is top shelf. She's raised sons who have sold to Elice Fort Farms, Sun Country Ranch, & Morley Walker. We've retained 2 daughters in our herd & sold one last year to Bar 9 Simmentals. If you lookup the lot 123 bull you will see that his mother is a sister to this particular bull. Bulls like these aren't flukes, they are the product of 45 years of planned matings.

notes

terms & conditions

TERMS The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Transcon Livestock Corp. and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price. **EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

EMBRYO & SEMEN Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
