FULLBLOOD SIMMENTAL SALE

HERD SIRES - BRED HEIFERS - HEIFER CALVES

Saturday · December 21 · 2024

1:00 pm MST · Westerner Park · Red Deer, AB

You're Invited

How about this high level "3-in-1" sale!!! The "trio sale" (as coined by our catalog production personnel) is a very neat concept as these 2 breeds, or 3, if you count the Simmentals as 2, offers a very public display for Charolais, Black & Red Simmental and Fullblood Simmental. As we are very aware, many breeders today are running programs including all of the fore mentioned. And why not, especially considering the opportunities that exist to market bulls to existing customers and the expansion possibilities to this particular market. Additionally, the females in each of them are highly marketable.

Something we have always been proud of in this event is offering market opportunities to anyone, big or small, established or a new breeder, for a true-blue consignment theme that also enhances friendly competitiveness amongst the fraternity in a very social, but business setting revolving around professionalism in conduct and commerce without elitism.

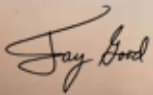

White Gold offers few in numbers but high quality including a great herdsire opportunity. I really give credit to the White Gold consignors who realize the showcase and marketing opportunity of being placed on a stage right within a large network of SM breeders that, let's face it, are some of the best potential customers available. The wave for SM breeders to have another breed is most definitely CH! Many are missing out on this "gift".

I have often referred to "Ultimate R&B" proudly as my first sale in my early tenure at TLC, assembled over two and half decades ago, mostly because of several requests to do so. The success stories from people who have purchased these cattle, in so many cases, from so many different sellers, is a long list.

The Equation, as many know, grew from the legendary roots of Fleckvieh Fest, Fleck Focus, Fleck Select, SA Round Up, Fleckvieh Forum and many other private owner sales that are successful in today's business. The bred heifers and the calendar year heifer calves, plus herdsire prospects have long gone out and done a great job for their new owners.

Join us at the beautiful Westerner Park facility in Red Deer for some exceptional hospitality, we promise you won't leave hungry or thirsty! If you can't attend, tune into Transcon Online or even better, give any of our cell phones listed to assist your buying needs. We are ALL AVAILABLE to professionally and confidentially work on your behalf.

Merry Christmas,

Jaymes E. (Jay) Good

HEIFER BULL DELUXE!! B.W. 88lbs
HOMO POLLED, P.A. FREE

Certainly, a question we get asked a lot is "Do you have any good heifer bulls"? Well, this year we sure do. It didn't take Cody long to find this guy when touring this summer and for good reason.

Warlock combines a low birth weight and smooth build with tremendous thickness and style. Add to that a great set of feet and awesome hair coat and you have a very complete individual.

We can't say enough about how impressed we were with our first set of Wheaton calves. Born easy and very high quality. We used him heavily again this year and our sale heifers carry his service as well.

The Wheaton/Gus combination was outstanding for us and Warlock's mother FLC 9J is one of our very top young females, going back to our 15D donor cow. If you are into number's he has a really nice set of those as well.

Retaining 25 straws of semen for in herd use.

November 7, FLC Warlock 6M, selected as a Players Club finalist at the National Show in Edmonton by a panel of over 70 judges.

HOMO POLLED

Rose has got the hair, eye catching appearance, the power to make a tremendous cow. I truly believe this is a donor cow in the making. She will have a great udder and raise calves that push the scale down for sure, her full brother was the heaviest weaning calf this year. Her Dam is a donor for Stepler Farms and her sire is Bourbon, a top 5 Supreme finalist at Farmfair last year. Power, productivity and highly sought after genetics on both sides of her pedigree.

HOMO POLLED

Definitely one of my favorite heifers to watch since she was born. Hannah is very quiet and easy to deal with and would be great for any Junior wanting to go showing. Big middle, pretty headed, moves very well and has real good feet. Full brothers will be popular in the spring bull sale. Her Dam is very good, very good footed and ideal udder, well suspended and small teats. Hannah's sire I think is about to gain a lot of attention, calving ease, easy fleshing, high milk and superior foot quality, which has translated into Hannah. This heifer is very hard to let go, a donor cow in the making. I feel she puts it all together and is backed with a very strong EPD profile to boot.

HOMO POLLED

Carly is out of a first calf heifer that did a great job. Really nice udders, good milking and longevity in the cow family. The Carly cow family is soon to have a big impact in our herd. Carly has that great show look, easy on the eyes, and great on paper, her EPD's are real good.

Homo Polled, PA Free

The dam, 108G was purchased out of the Reese dispersal. A moderate framed cow with a picture perfect udder. Ruger and 108G are the perfect mix of performance and calving ease. I believe the Ruger females are going to be next level! 41M has just been a sweetheart to work with! She would make a great junior project or a front pasture cow. Take this heifer any direction you want!

This is a special Heifer, she is out of another bull that we were fortunate enough to purchase from HTA Charolais DUTTON 14H". He has been yet another power house for us, every one of his calves have been impressive. His heifers are some of my personal favourites in the pen. If you're looking for hair, length, good feet, and just enough punch to them this is your girl.
AI date April 4th. Bred to EC No Doubt 2022P.

This is a hard good bye for us. To say that her sire has been a favourite would be an understatement. She is sired to HTA™ Billy The Kid" who we were lucky enough to purchase. He has been a staple at our farm and you can see why his offspring is second to none. This heifer will improve any herd that she goes to. From the feet to the hair, to the length, you don't want to miss out on this one.
AI date April 4th. Bred to EC No Doubt 2022P.

This is a special heifer for us to be letting go, she is sired to one of our best bulls that we have produced out of Wrangler 601 "Nish 17H" he is a easy calving bull just like his dad so I am very excited to see what these genetics can do for your herd. She is a very smooth bodied heifer with a beautiful hair coat that would be an addition to any herd.
AI date April 4th. Bred to EC No Doubt 2022P.

Long bodied, powerful and broody best describes Alexis! Sired by FLC Denali 3J. The great son of FLC Wheat King 4G. The bull doing such a fantastic job for our friends at Parsons Cattle Co. Her mother SOS Bianca 5G is a powerful Chuckwagon daughter with tremendous body length and a big hip. Her service to Sparrows Wheaton 101J is very exciting and could produce your next herd sire or top replacement female. We were so impressed with our Wheaton calves that we doubled our semen order this year and flushed to him as well. Grab a hold here and look forward to calving season!

The MVY Gus 20G daughters are some of the best young cows in our herd and 8L should be no different. Big topped and smooth fronted with an outstanding coat of hair. Her mother is our old PCC 613D cow. A tanky Kingston daughter who has been a great producer for us. The combination of Sparrows Wheaton 101J on our Gus daughters has worked incredibly well for us. Giving us lower birth weights and very high quality calves. Great investment opportunity here!

We are proud to showcase such a high end cow like Lady Lux. She is a standout female with strong lineage from a top tier cow. Lady Lux is very feminine and clean fronted in a long package. Her pedigree offers a strong maternal backing with cow producing bulls like Winchester and Casino. Her breeding to Parsons Limitless should be a phenomenal one. Limitless will offer calving ease with top performance. She is the sure fire White Gold Charolais that you've been waiting to add to your program.

Bluebird Valley Farms Miss Glamorous is a beautiful heifer out of Colorado Low and is one of the nicest heifer calves we've had. Her WW, YW, TSI, and CW are all in the top 1%. We will be sad to see her go, but know she will be a welcome addition to any herd. Don't miss the opportunity on Miss Glamorous!

City View 36H Miss Union 54L is a truly special beast we're proud to share at Red & Black! She's extremely dark coloured, great footed and beautiful through her front third. Her young dam is a direct Tycoon daughter with the same exceptional udder we expect 54L to have. We retained a maternal sister to 54L again this year which eases the tension of offering her here. The Union cows are another of our oldest families with roots back to the early 90's and an impressive number of descendants. Her mating to the exciting new blaze faced option, WBC Ease 6L sweetens the deal. Backed by a potent cow family with all the bells and whistles you could want, we're extremely excited about what's to come for Miss Union 54L!

AI bred April 22 to WBC Ease 6L and preg tested safe to that date. Due February 1.

HOMOZYGOUS POLLED

City View 37J Jazelle 47L is an extremely attractive daughter of the awesome Mountain View bull. She's moderate framed and bold ribbed, homozygous polled and looks to have an ideal teat placement. Her young dam is by Limitless and traces back to the great Cobra. With Mountain View now deceased, powerful daughters like Jazelle will help to create his legacy. She's bred early to the new Ease bull giving a real possibility of a dark red, blaze faced baby come January!

AI bred April 8 to WBC Ease 6L and preg tested safe to that date. Due mid January.

HOMOZYGOUS POLLED

City View 453B Boss Lady 2L is a homozygous polled female in a larger outlined package. Her pedigree combines some of the most maternal sires we've used here including 838U and 62Y with the widely admired Walk The Line. The Boss Lady cow family has been influential for us since the early 90's. They are truly ideal mother cows and 2L's dam is no exception. Three maternal brothers to 2L have sold through our bull sale and we have two maternal sisters in the herd. Her EPD profile ranks her above average in 11 of 13 traits! We feel her mating to Water Valley should be an ideal combination. **AI bred April 12 to WFL Water Valley 2064K and preg tested safe to that date. Due mid January.**

HOMOZYGOUS POLLED

City View 66E Unique 7L is an attractive female who's bold in her construction with a beautiful udder developing. Her family roots go back to the early 90's. Longevity and productivity are valuable traits and this cow family has certainly proven that time and again! The bottom side of her pedigree includes noted female makers, Bodybuilder and Red Label and her EPD profile is all set to green! A maternal brother to Unique 7L was popular through our bull sale. If a big time cow family, homozygous polled and a powerful set of numbers weren't enough, her early mating to Ease should offer a rapid ROI early in her career.

AI bred April 11 to WBC Ease 6L and preg tested safe to that date. Due mid January.

HOMOZYGOUS POLLED

City View 25J Nordica 29L is an exceedingly long bodied, smoothly designed female in a larger framed and homozygous polled package. Her cow family has a long history of being hardworking, honest mama cows. Nordica 29L is sired by one of our walking sires, a bull we call Andy. He's doing a very consistent job of adding hair and darkening colour and his first daughters look to be the right kind. We've learned you can never go wrong with a female from the Nordica family and 29L is built for success!

AI bred April 12 to WBC Ease 6L and preg tested safe to that date. Due mid January.

HETERO POLLED

If you are looking for a dark cherry red, blaze face this is one you do not want to miss. She has a ton of middle, length and rib shape and a great temperment. She is setting down a nice udder and a good set of feet under her. 64L is out of a bull we purchased from Zimmer's a couple years back and really solid moderate framed cow that goes back to CMT Smash who continually gave us females with good udders and lots of growth. A stylish heifer that has the power and capacity to work for many years to come.

AI'd April 1 to Kuntz Sheriff 8A, Ultrasounded safe.
 Exposed to LJR Lazer 7L April 20- May 31, 2024.

Here is a heifer we think very highly of, and we know she will be one to produce top end cattle whether it is bull calves or heifers. She is a very attractive package that moves freely, carries lots of rib and top, and is dropping a neat udder. We purchased her dam out of the Meadow Acres dispersal, and she impressed us right from the gate, and still continues to do so! She is bred early to a neat blaze face Can-Am son, which should be a cool calf come spring!

This is one cool lady here. Last year I got my hands on some Mindgame straws, and put them in a select few females last spring and some how Glenn convinced me to part with one of the very few heifer calves. 68M is as deep as they come, and she's hard to fault, she walks in a smooth stride, and she's developing a nice udder. Once again she comes out of a no miss Vegas heifer that is moderate framed, and has a great temperament. 68M is one that will go out and put everything into her progeny, and make you some money!

A Next Century calf that is feminine in her make up, clean fronted with straight lines. With Bootlegger in her pedigree she will have a good udder and be a productive cow. Polled test pending.

When you have a heifer produce a calf like this you get a little excited for her future production. 20M will have a bright future herself with her pedigree and physical attributes. She is one that should be staying in the herd. Polled test pending.

Everyone loves those big black cows with the perfect blazed face, that is what KUZ 21M will mature to be. Her dam is marked the same way and is a consistent produce, putting several sons into the bull pen. Polled test pending.

KUNTZ BARRACUDA 23H
Sire of Lot 34

We are very excited to be back at with our best! These heifers are straight out of our keeper pen, which makes parting with them a little difficult. I would have no issue keeping any of these females for myself with confidence they will improve the herd! These heifers are out of some of our top producing cows and a nice variety of our walking herd sires.

If you have any questions or find yourself in the Onoway area and want to come for a tour, don't hesitate to reach out!

35

Where do I even start. Lavender has all the boxes checked. Extremely dark red, long spined and just a tank of a female with a ton of capacity. Her dam is an extremely functional cow with a fantastic udder and great feet. She holds her condition very well while putting a ton of work into her calves. Pedigree is definitely not lacking on Lavender with a powerhouse like Tycoon on the dams side and sure shot of calving ease from the Cliffhanger on her sires side. Bred to the well known Top Tier bull, you're sure to make a good return on your investment right off the bat. Lavender is a more moderate female but she's packed as much muscle on as she possibly could! This is another female I would absolutely love to keep for myself because she's got production written all over her! Homo Polled test pending.

Al'ed to WLB Top Tier 456G April 17 2024. No exposure.
Vet confirmed pregnant to Al.

HOMO POLLED BY PARENTAGE

This female is an absolute unit. She carries herself extremely well and is the first one to catch your eye when you walk in the pen. She's extremely well balanced and has utilized every inch of frame she has. Lilo is a powerhouse female but yet is feminine in her makeup. She's got a ton of capacity throughout and an explosive hind third that ties it all together. Beast marks his females with a fancy front end, superb udder and even better feet. We've calved out our first set of Beast females this year and all I have to say is wow! They're extremely solid in their makeup, and milk like crazy. Her dam Georgia is lucky she's got some good size to her because if she didn't, her belly would drag on the ground due to how much middle she has. She's a beautiful cow that knows how to raise a great calf! I have no doubt Lilo will go out and be a fantastic female for any operation. She's bred to our walking Top Tier

BEE COMPADRE 426K
Service Sire of Lot 36

son so odds are you get a fancy white face calf on top of a fantastic female! This is a heifer you don't want to miss out on!

Exposed to BEE Compadre 426K from March 29 to May 20. Vet figures she was bred early.

HOMO POLLED

This is a heifer that I have no doubt will go out and produce like crazy. Her dam Ms Deputy has knocked it out of the park with her females 4 years in a row now! These females are extremely easy on the eyes and are worth their weight in gold with how well they produce. Her maternal sister was our high seller in 2022 going to the esteemed program at Circle G Simmentals. Lainey is a big broody female with a great udder coming in a big foot underneath her. She's very docile and easy to handle, just like her dam. Her sire Maverick got a great reputation for making calves that come out smooth and grow like crazy with tons of performance and muscle. Lainey is a heifer I should probably be keeping for myself but yet here we are! If you're looking for a future bull maker, make sure to stop by and check out this powerhouse!

**AI'ed to KWA Future 3G April 17. No exposure.

I'd like to welcome you all to the Equation/Ultimate Red and Black Sale. This year I've got my first set of fullblood heifers I'm offering and am super excited to provide this awesome group of ladies as well as my purebred group! Also very excited to offer 7 out of these 8 girls for the first time bred to my new sire JNR Quantum! If you have any question text or call me at 780-305-8079.

POLLED

Now here's a tank of a heifer. Her dam puts out a stellar calf each year. Her half sister was in the sale last year that Triple K Simmentals scooped up and have only heard good things!

We are excited to be a part of the Ultimate Red & Black sale for the first time this year! We really dug deep into our replacement pen to create our offering this year and even though it is hard to part with the good ones, we are committed to only sharing our best. These females are on a full herd health program and are ready to succeed wherever they may go. We want our buyers to have the best experience possible when buying females, and thus we have not pushed these girls hard on feed, the growth you see is from the animal itself, not just a grain pail.

If you have any questions on any of our females on offer, feel free to contact myself or any of the Transcon team. We hope you can join us for a visit, and the sale on December 21st!

HOMO POLLED. NON DILUTER.

If you are in the market for a red female this fall, look no further. Lots of power here, while maintaining an attractive feminine presence and an impressive set of EPDs. If you dig into the numbers backing this female, you will quickly notice that she is in the top 2% of the breed for WWT and top 4% for YWT which itself is exceptional. The side profile of this heifer is very captivating and hard to poke holes in. She is as straight along the bottom, as she is her top and with the one and only Darlin' in her pedigree, you know the udder she will drop is destined to be picture perfect. Mader Walk The Line 92J sold for \$280,000 in 2021 to KT Ranches/Canadian Sires and has since taken the breed by storm. He was extremely successful on the show road as a calf, and now as a mature bull, has progeny consistently topping sales across the country whether it be bulls or females. WTL sired cattle have proven themselves to be extremely consistent and hard to fault, with this heifer being no exception. If you're looking to add growth without sacrificing style, invest with confidence in this young foundation female.

MADER NIGHT SHIFT 63K
Sire of Lot 44

SILVERTOP MAJESTY 107M
Half Sibling of Lot 44

HOMO POLLED. HOMO BLACK.

Here is a chance to get ahead of the industry and purchase a daughter off of the \$100,000 Mader Night Shift 63K as 7M is among the first of his progeny to sell on the public market. A half sibling to this heifer was the lead off black animal to sell at the World Simmental Sale this past August for \$20,000. We were lucky enough to have a good amount of Night Shift sired calves in our 2024 calf crop, and we can't say enough good things about them. They are consistent in their type, with a ton of performance and docile personalities. You can really appreciate 7M for her length of spine, rib shape and overall femininity. She looks as though she will drop a beautiful udder and if she follows in the footsteps of her dam, she won't slack in the milk department. The genetics are strong on both sides of the pedigree on this female, but when you see Flirtin for Certin 37U on the papers, you know she is destined for maternal greatness. With her attractive look, clean lines and exclusive genetics, you can be positive that 7M will bring

Back In Black Simmentals

Sarah Leng & Lane Steffler
 RR1 Site 10 Box 10 Gunn, AB T0E 1A0
 Sarah's Cell: 780.868.6414
 Email: backinblackssimmentals@gmail.com

Once again we would like to welcome everyone to Transcon's Ultimate Red and Black XXVII. We want to extend a thank you to the Transcon Livestock Team for continuing to include us in this exciting sale! As well as a huge thank you to our 2023 buyers and bidders! Thank you to McEwen Fuels & Fertilizers and Masterfeeds in Stony Plain for working with us to ensure our heifers always have a high quality ration! We can't wait to visit with all the other consignors prior to the sale and catch up!

We decided to consign 2 open heifers this year off of our new Connected son TSF Kruz 102J. Both of these heifers show the power and consistency that Kruz puts behind his offspring. The heifers have been vaccinated with First Defense Dual Shield and Inforce 3 at birth as well as Ultratracho 8, Bovishield Gold 1 shot and Ivomectin. They have been palpated and confirmed in good health by our vets at Barnmorth Vet clinic on October 11.

If you have any questions about our offering feel free to reach out! Keep an eye on our Facebook page for updates prior to the sale.

OPEN HEIFER. HOMO POLLED. NON DILUTOR. LEAD BROKE.

I know I know, she's RED! Believe it or not we've got a few of those kicking around this year. We decided to reserve the best one for this sale. In all reality I had her as my top pick for this sale since her birth and eagerly awaited Glenn's stamp of approval. Melody's cow family is no stranger to Red and Black with her Dam and maternal sister both walking through this ring. Melody has been everyone's pick of the pen, right from the start. She stands out with her sheer volume and head catching appearance. She is hard not to appreciate with her dark cherry red thick hair coat, perfect chrome, big black feet and impressive muscle composition. Not to mention the fact that she is as quiet as they come. Like all of AEDJ Ms Riddler 86H's offspring she walks with a purpose and draws your attention to her from across the pasture. Come by our pen sale day and she will be quick to come over and say Hi, she definitely will be hard for you to miss!

OPEN HEIFER. HOMO POLLED. HOMO BLACK. LEAD BROKE.

I've heard people say "You can't go wrong with Connected" and when you mix that with one of the top producing cows you own, you are sure to be happy with the results. If you're looking for maternal power. This is the cow family you want to look into. Material Girl's mom SLS Georgia 30G garnered a lot of attention at this sale back in 2020, her Grand dam BEE Dolphina 611D also sold in Red and Black in 2017. Georgia's second calf was our first consignment in this sale in 2022. You could say that its a family affair to walk through this ring. Most recently Georgia's 2023 bull calf was our high selling yearling bull at Transcon's Northern Connection, selling to Eyben Farms. Material girl is the perfect mix of both sides of her pedigree, with her soft easy fleshing feminine build, striking chrome, plenty of capacity, depth and length, she really has it all. You can trust she will impress you year after year!

LENG LEGEND 1L
High selling brother of Lot 46

HOMO POLLED

Our first female offered by our walking herd sire BLI Contender 228H and we are proud to have her consigned to Red and Black. This beautiful red blaze faced female is extended from front to back with some scale and a big sweeping rib. 244M is sound on the move with enough bone and mass. She is mothered by a gorgeous uddered, big footed, dark red female that does a great job year after year. 244M offers a twist in pedigree that you won't find every day and carries a ton of tremendous, highly maternal females. The first sons offered last year from 228H were well accepted selling into some of the top commercial herds in our area and the females are shaping up to be great momma cows. 2 paternal sisters were selected private treaty as 4-H projects this year as well.

HOMO POLLED. HETERO BLACK.

Out of our joint donor program with KD Simmentals comes KAL/BLI Sabrina 191H 1M. If you like moderate framed, stout, attractive females with tons of flex with a tremendous foot and leg structure here she is. 1M is sired by Walk The Line who has done a great job for those that have used him including here, with full brothers to 1M being favorites last spring and paternal brothers being our high averaging group of bulls. 1M's full sister was extremely popular this past show season throughout the summer and Sabrina 1M is very similar in her make up. The dam Sabrina 191H is a picture of maternal quality and has done a great job for us since being selected from the Meadow Acres dispersal. Blending great cow families with muscle and mass has paid dividends with Sabina 1M and here is your chance to take a hold of a high quality individual.

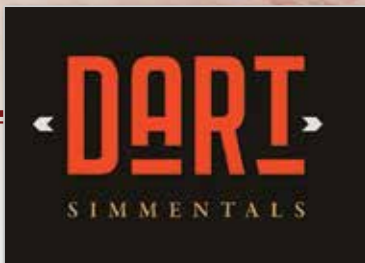

MAF SABRINA 191F - Dam of Lot 48

We used Mind Game heavily in our 2023 AI program, which left us with an outstanding set of replacement heifers. 53M is definitely at the top end of this pen. This is a heifer I find really impressive. Dark cherry red, structurally correct, free moving with a feminine build and a moderate frame. Mabel's dam is great footed and has a perfect udder, with the track record of raising top end offspring. Here is a female with a bright future!

HFL MIND GAME 1005J - Sire of Lot 49

Here is a fancy made female that is backed by one of our strongest cow families. 108 M's great grandmother (265 B) has been flushed multiple times and her grandmother (69 H) is on our future donor list. Her dam did a tremendous job raising Majesty, especially for this being her first calf. With sires like Night Hawk, State Of War, and Red Whiskey in her pedigree, we feel there is huge potential in Majesty.

Welcome to the 2024 edition of Fleckvieh Equation! We are elated to be back in Red Deer once again! We are very excited to bring these two herd sire prospects to town. They are a true representation of our program. Both from our own ET program, their dams are currently our go-to donors, and both sires graced our pastures. The type of bulls we look for in our never ending pursuit of herd sires. We have no doubt they will go out and work.

We look forward to visiting in Red Deer!

100% FLECKVIEH FULLBLOOD. DILUTION FREE.

Pine Creek Arcon 30L is a robust herdsire prospect with performance, huge scrotal, optics, and distinctive design from our embryo program. Sired by Virginia Paydirt 44E, Pine Creek herdsire, struts his genotypic relevance of Double Bar D Banker with Virginia Santiago 960S with Great Guns Binz and family anchor JB CDN Flores 1110 [Bar None Fredrika] top side as foundation female. Arcon's dam, Pine Creek Astro, is the flushmate sister to the Anchor D Motown and Pine Creek Bylaw, out of the legendary FGAF Precious Thing 402T. Precious Thing has dispensed elite genetics to Prospect Hills Simmentals, Labatte Simmentals, Anchor D Ranch and many more herds of distinction. Astro has been predictable, productive, and problem free. Pine Creek Arcon 30L has the credentials to be a major influence in the Fleckvieh pursuit of excellence. Champion Yearling Fullblood Bull at Farmfair. We reserve the right to draw in-herd use semen on both bulls.

We reserve the right to draw in-herd semen.

POLLED. FULL FLECKVIEH FULLBLOOD.

Pine Creek Rally 951L is a result of our ET program from foundation powerhouse matron Double Bar D Lolita 334Y, purchased at the National Trust in Brandon, MB in 2012 as an open female for \$13,000. Her production and pedigree has been flawless. Lolita was the standout of the fall 2011 born Fleckvieh females at Double Bar D Farms and was the first daughter of MFI Jeremiah 9022 "Juggernaut" to be offered publicly, making her instrumental in the Pine Creek program. Sunny Valley Freedom strutted our pastures and took the industry by storm. Rally is a polled, heavily muscled, fleshy and burly bugger. He is big nuted and moderate frame with early maturity and has great locomotion. Join the Rally, Pine Creek Rally 951L. Reserve Champion Yearling Fullblood Bull at Farmfair. We reserve the right to draw in-herd use semen on both bulls.

We reserve the right to draw in-herd semen.

HOMO POLLED. FULL FLECKVIEH.

This homo polled full fleck Bravo son is sure to get your attention sale day. 2422 walks out very freely on an outstanding set of feet and legs. This bull is a very rich red color which will also get your attention. This could be the next one as his pedigree includes many of the breeds top families. 24K was only shown once and was named reserve champion bull at last years N.A.I.L.E. in Louisville, Kentucky. Bulls like this are seldom for sale but due to my small herd size I am offering for sale full interest and possession in 24K.

Keato Meadow Simmentals

Welcome to the Fleckvieh Equation sale 2024!! We would like to thank Transcon for years of sales Management Service & Fleckvieh Equation. Also, a thank you to Glen Norton for advice & encouragement with honest appraisals of our seed stock over the years. This year we have decided to showcase & offer for sale 6 HANSOLO daughters. They all represent long standing cow families in our herd. HANSOLO 56H has been a very easy calver, with good growth as they develop. We also have 3 QUANTUM 22J daughters representing productive cow families in our herd and will make real good herd matrons. We believe these heifers will make real good additions to any breeder herd, new or established. All heifers have been preg tested and are safe to dates indicated in the catalog. Also fully vaccinated, ivomec and cleanup, no scour guard.

Call us anytime to view the heifers prior to the sale. We look forward to seeing you at the sale.

Thank you,
Jonathan & Ebony

POLLED 100% FLECKVIEH

SAVANNAH JADE has been a real eye catcher right from a young calf, and is a personal favorite of mine. She is the result of the planned mating of Epiphany 30E and HANSOLO which turned out to be a good one. 30E has been a good cow raising heavy sons with 39L being the first daughter. She has a son breeding for Tilson Creek Simmentals in Manitoba. Dam 30E has full sisters in the breeder herd of JB Livestock and Lonestone Farms. 39L has loads of volume with a long hip and extra width to her stifle joint, she shows very feminine with a polled head lots of hair and appears to be setting down a nice udder. She will no doubt fit in any herd and raise good heavy sons and daughters. She is bred to our new herd bull a CAVIL son, Zesty Hart, who we raised out of a high selling heifer, Dottie 53H whom we purchased from Applecross.

Exposed to PLD Zesty Hart 31L (P1424324) from March 23rd to May 22nd
Observed Bred March 27th 2024

HOMOZYGOUS POLLED 100% FLECKVIEH

- LYNX is a Quantum 22J daughter that has the stylish showy look to her
- She is big framed with loads of length and correct in her physical makeup
- Sire; Quantum 22J has proven to calf easy as well. He is homozygous polled and has a smaller head shape. The red cap on the Poll of his head is proving to be his trade mark stamp
- Dam; TABATH 178H was purchased from Diamond T Simmentals as their high seller a few years ago, she is one of their favorites, and her Dam, Rosebud is a big cow and has been a good producing cow for them.
- TABATH is a very athletic female with depth of body, a tidy udder, I expect LYNX to be very similar in type.
- Bred to Keet's Han Solo 56H, the resulting calf should be exciting.

100% FLECKVIEH

- LAYA ROSA is the most moderate of the nine heifers, but still mighty in her own right. Her genetic makeup is a little different, but still made up of some very notable Dam and Sire lines.
- Granddam is a bigger cow that has Willies stamp with a great udder, a sound set of feet and legs. She has a High Definition son in the bull pen this year.
- DAM is a first calving SOZO 4750F daughter, who in my opinion is uniquely bred which puts an interesting twist into the pedigree. We very much like the SOZO females and looking forward to the 3rd generation calving out this year.
- WILLIE, bred at our place for 13 years, his stamp along with longevity and ability to produce very maternal females, definitely continues in our herd.

POLLED 100% FLECKVIEH

- SIRIUS, another QUANTUM daughter, she is larger in stature and very feminine in type with a wide top and great feet.
- She is the 3rd daughter of Gracelyn 850F, a Gamut 39E female, who is from our old Baron 18C cow. Both foundation cows are very athletic on sound feet and legs with udders that are a cattle men's preference.
- SIRE; QUANTUM is made up of some pretty neat bloodlines. Note JB CDN FIESTA 1491 who is the Dam to APACHE JUNCTION, Sire to our last years high sellers. There is also Giovanna 5025, Dam to JB Washington 1476 and Beech Bro She Devil. Herd bull power of Steinadler, Viper, Vindicator, Washington.
- A double shot of WHISTLER 47L & STEINADLER as an added bonus to lock in some good quality traits that may benefit growth and predictability.
- SIRIUS should make an excellent herd matron, able to raise bulls. She is bred to HANSOLO and should calve easy.

- OAKLYNN is going to make one real good cow, with tremendous cow families on both sides of her pedigree.
- She is developing nicely, with a body full of volume, a nice feminine structure, with loads of long dark cherry red hair.
- Cow family originates from a bred heifer we purchased at this sales foundation, Fleck Select 2005. Twin Anchor 7 Platinum 27P, she has left her stamp here for us as well in a few other herds.
- DAM; The GAMUT 39E x WILLIE 426Y matings have turned out very well, they make real productive females (Octavia 9J) and herd bulls, such as our Red Deer bull sale high sellers; Keato Ben Hur & Hurbacus. 5 generations of Keato herd prefix make up her maternal line.
- Notable other cow family names in Oaklynn's lineage are Pina Collada 76P, MS Steinadler 637Y, both big volume cows with longevity and production.
- Bred to Zesty Hart, should make for an exciting calf, this will add some genetic uniqueness, easy calving and production.

- ARABELLA FAYE has a genetic makeup that is exciting to me, she is made up of one of the oldest living and foundation cows on our farm, MS STEINADLER 637Y
- 7L has HANSOLO stamp on her as far as frame score, but the ARABELLA 17A cow family is one I favor very much, she has been very productive never missing a calf. She is one of the heaviest cows on the farm and structurally correct, with that tank of a cow eye appeal. Probably should be flushing her. ARABELLA 8G appears to be following in her foot steps, our hopes are the same for 20J as well 7L herself.
- The udders in this cow family is something to brag about, 637Y's udder is still the same today, as it was as a 3 year old.
- The mating of HANSOLO x ARABELLA 20J has added the ease of calving factor multiple times, still keeping performance and development in to a beautiful bred heifer. She is bred to Zesty Hart, which will be exciting for her new owner, I think.
- Notable lineage here!

 This heifer goes back to a cow we bought from Anchor D as a bred and is still going strong at 13 years. Dam is dark red and has good feet, attitude and udder. This heifer is very dark red and built right. She has 4 black feet.

47M in our eyes resembles her sire in so many ways, double goggled, hairy, with a ton of performance and a good foot. We don't have that many FB cows but 47M would have to be one of the top heifer calves we have raised to date. Her full sister is in the herd so only reason we are selling her. We are very happy with the Sterling offspring and he was used heavily last year. If you're looking for a show heifer 47M is probably not going to fit what you're looking for, but if you are looking for a bull producing mamma cow 47M may be the one.

Good size heifer from Langers herd, sired by tuxedo. Her dam puts everything she's got into her calves and can't ask for much more than that. Good udder good vigour and love all the colour she's got.

Bred to JNR Quantum exposed March 25

Richlan Farms Fleckvieh Simmentals

We are honored to welcome past and new consignors to the Fleckvieh Equation Female Sale. We have four females in the sale this year and we believe these females are sound and ready to work! We would like to invite you to call or come have a look at the heifers prior to sale day if you have any inquiries about the offering. Please feel free to reach out to the Transcon Team if you have any additional questions or an unbiased opinion about our offering.

We would like to thank the Transcon Team for their professionalism in dealing with the fine details of the sale and catalog production. We would also like to thank everyone that purchased our females in 2023!

All heifers have been vaccinated in the spring and fall with Covexin Plus and Bovishield Gold as well as Bovilis Guardian prior to calving.

All heifers have been AI'd to Crossroad Pilot 21H (1314132), proven heifer bull. They were also exposed to our home raised Elevation son, Richlan Elevation 18K (1384968).

71

HOMOZYGOUS POLLED, NON-DILUTOR, SIRE VERIFIED

A smooth polled, fancy full fleck daughter from our main herd sire, BLL Master Plan 835F. She poses an abundance of pigment, and dark dark red. Lara's dam was purchased from Beechinor Land & Livestock in 2020 and WOW can she put the dark cherry red into her offspring! Lara's dam is a large framed cow that is fully pigmented dark cherry red with an abundance of milk. An added value to the pedigree is the Starwest POL Blueprint and Double Bar D Confidence genetics in this female. She is one that we are having a hard time letting go, but we are excited to see her go work for new owners.

AI'd to Crossroad Pilot 21H (1314132) – March 31, 2024. Exposed to KAR Elevation 18K (1384968) April 3 to May 9, 2024.

Preg checked safe for early to mid January.

BLL KARLA 854F - Dam of Lot 71

POLLED, NON-DILUTOR, SIRE VERIFIED

This late February female held her own and kept up with the other females in the sale. She is a smooth polled, moderate framed, dark red, hairy Anchor D Disco granddaughter. She won't be the first to catch your eye, but after you analyze the strength of her pedigree it is hard not to dream about her potential. Princess's dam, BLL 1809F was one of the first purchases from Beechinor Land & Livestock and I immediately fell in love! I remember John Beechinor nudging my shoulder and saying "you picked a good one!" Off this dam, we have a Viper daughter working in our herd and as well we retained her full New Wave sister in the replacement pen for this upcoming breeding season.

Al'd to Crossroad Pilot 21H (1314132) – March 31, 2024.
Exposed to KAR Elevation 18K (1384968) April 4 to May 9, 2024. Preg checked safe for early to mid January.

100% FLECKVIEH FULLBLOOD

Maranda is one of two Deebran Genesis, at son of Shawacres Jahari, the first daughters being offered for sale. She is very dark red, doubled goggled, deep bodied with a good sgring of rib. Going back to the Dora Lee's Carin cow who was as wide as a house. I really like the Genesis off spring. She has a super personality, and is great to work with.

Mountain Ash Simmentals

We are very honored to welcome you to the Fleckvieh Equation Sale. This is our 2nd year being part of this great sale. We are proud to be showcasing 5 open heifers for your appraisal. A big thank you to the Transcon team for all the support provided to us. Also, we wish all our fellow consigners a successful sale.

Phone inquiries or farm visits are always welcome. Looking forward to seeing you at the sale.

FULL FLECKVIEH

Wow, our Heisty 197H cow did it again! This heifer is a full sister to our high selling bull at the 2024 Northern Connection Sale sold to Koobo Cattle Co. in Manitoba. She has loads of feminine style, thickness and is low to the ground. Lady In Red has ample length with that extra rib all wrapped up in her liver red haircoat. She is halter broke for easy handling with a stellar disposition. She is easy on the eyes and visitor friendly. Hard to part with this special lady.

SWANTEWITT HEISTY 197H - Dam of Lot 78

MOUNTAIN ASH STAND OUT 43L - Full Brother of Lot 78

FULL FLECKVIEH

Crimson is very special to us. She is a bigger framed heifer, but as you can see, has filled in that frame very well. "A tank in the making". She is long, deep sided with a table top back. Crimson is double goggled, has a nice small head, quiet temperament and is halter broke. Her sire is Crossroad Landmark, a son of SBV Reputation. All Landmark's offspring were born unassisted. Her momma goes back to Virginia Barcelona 46X, who is known as a cow maker. Buy with confidence, she checks off a lot of boxes.

SWANTEWITT EVERLY 69E - Dam of Lot 79

FULL FLECKVIEH

Here is a loose hided, thick, broody type heifer. She's been showing off her natural muscling, length and thickness all summer. Angel Eyes displays loads of volume and capacity while continuing to showcase femininity. Her haircoat is second to none being double goggled and halter broke are all extra bonuses. There is a strong presence of Anchor T Metro 4E in her bloodlines, which means she possesses many maternal traits. Look for her on sale day.

CROSSROAD LANDMARK 91J
Sire of Lots 78-82

FULL FLECKVIEH

This young lady is from a 1st calver, who did a fantastic job raising her. Dixy Darlin exudes style, performance, depth of body, with strong feet under her. She has a nice blend of good muscling ability and a smooth build resulting in a very attractive female. She is double goggled with little extra pigment on her nose. We absolutely love her haircoat. Being halter broke and so docile we know you will love her. All these Landmark females are exceptional in our opinion. Tremendous potential here.

FULL FLECKVIEH

Here is another female born out of a 1st calf heifer. Her mamma is very maternal with a nice tight udder with good milk production. With Anchor T Metro 4E and Virginia Barcelona 46X combined in her bloodlines, she will produce amazing offspring. Wildrose is a moderate framed heifer with overall smoothness and eye appeal. She is liver red, double goggled, long bodied with perfect feet. Being halter broke and having a nice gentle disposition she would be a great addition to your herd. All these Landmark females are so special to us, it is hard to part with them. We would love any one of these girls in our herd.

82

HOMO POLLED

Jessica is a homo polled Guerrero daughter. This heifer goes back to my cow family that produced one of the breeds most phenotypically beautiful females Dakota's Dream. Her dam Jessica has proven herself again this year as Stuart (SAJ Simmentals) will be marketing an outstanding Motown son in his spring bull sale. Genetically this heifer is strong but her service may be the ticket. Selling one of the first services to North Star.
Sells bred Apr.21/24 Kuntz North Star 15L #1457977.

Take a look at this fancy smooth polled heifer! She's got a long spine with a strong top that's sure to catch your eye! This is the type of female that will go out and fit in with any herd. We purchased her dam from the Berwest dispersal. She's an extremely solid cow with a fantastic udder and even better feet at 9 years old. We've got two sisters to Daphne in the herd so we are confident in this one too!

Bred by BILJ POL JAMIE 31J for a December 31 calf.

BROOK'S GONG 32C - Sire of Lot 87

Melody has been a favourite of ours since day one and will likely be one I'll regret selling...Pedigree wise, she's packed with power being backed by Sibelle Dirty Harry, Virginia Precision and Rogant. Structurally, she's all there with loads of length, hip, top line, and depth. Melody's dam, Floris is a cow we purchased out of Anchor D Ranch's Pasture Treasure sale in 2022. She isn't the prettiest girl in the pen but is certainly a favourite with her calm demeanour, great feet and picture perfect udder. Floris is one of those cows you can bred many different ways and get a home run every time and Melody is shaping up to have that same versatility. Dirty Harry's reputation speaks for itself so if it was me I would seize the opportunity to add a direct daughter to your herd. If we didn't have several more Dirty Harry calves dropping in 2025, Melody would be in the keeper pen.

SIBELLE DIRTY HARRY 25Z - Sire of Lot 88

We were fortunate to have several outstanding heifer calves out of our herd sire, BLL Confidant 31H and since 31H has moved onto a new herd we have had a hard time letting any of his daughters go. After lots of discussion, we selected Magnolia for this years offering. She is cherry red, deep, wide, flat backed, with lots of middle and strong feet. Magnolia's dam, JSJ 277J was purchased in 2022 out of Lone Stone Farms Invitational female sale from Swantewitt Simmental's and we have no complaints. Like Magnolia, 277J is cherry red, flat backed, with lots of middle, a beautiful udder and strong feet. Magnolia was also lucky enough to inherit 277J's polled head; if you ask me Magnolia is the whole package. I see this heifer having a very bright and versatile future, don't miss out!

BLL CONFIDANT 31H - Sire of Lot 89

Bendall Cattle

Welcome to 2024 Fleckvieh Equation sale, we are very excited to be part of this sale. If you have any questions before sale day give us a call or stop by the farm. Glen Norton has hand-picked both of these heifers out for this sale; we feel these 2 come from the very top of our heifer pen. Both 100% Fleckvieh.

HOMOZYGOUS POLLED. NON DILUTOR. 100% FLECKVIEH. SIRE VERIFIED.

I had no intentions for any of KSL Goldie's heifer calves to ever leave our farm, but we gave Glen the complete heifer pen to choose from for our first female sale. KSL Goldie has been one of the most consistent profitable cows we have purchased to date.

Marigold is a cookie cutter to her Dam, deep body and long spined with a small feminine head. She is calm and kind in her temperament as you will find.

Marigold is a female with a very exciting future, something special here.

HETEROZYGOUS POLLED. NON DILUTOR. 100% FLECKVIEH. SIRE VERIFIED.

Are you looking for style and chrome? Magnolia is one to have your eye on. This heifer has been a standout from day 1 and always got lots of attention on social media and in pasture tours. Mag is a deep body female with strong set of feet and legs.

Her dam is a medium frame cow that always brings back a marketable calf from pasture and most of the time as big as she is. Her dam has an exceptional udder and great feet backed by some of the best fleckvieh genetics.

Diamond H Simmentals

We would like to start off by saying that it is truly an honor to be included in such a great sale for our first offering. We have been looking forward to this moment for so long and we are so very grateful for the support and encouragement from the Simmental community.

This year we were set to keep all of our heifers but after many long talks with fellow breeders and the Transcon team we decided the time was right to give you the opportunity to welcome one of our heifers into your herd. We chose two heifers that we think showcase just what we are all about at Diamond H and we have 100% confidence that they will excel in any program. Thank you again for this opportunity.

HORNED. FULLBLOOD. DILUTER FREE.

Pepper is a horned Kayde daughter carrying down his thick, deep red coat. Kayde consistently produces traditionally marked, well performing offspring with a solid set of feet under them, and Pepper is no exception to this. With her feminine head, striking appearance and solid body she will surely add stellar calves to your herd. With easy calving ability on her Sire's side and a maternal, quiet personality coming from her Dam's side Pepper is the ultimate package and surely an asset to any program.

EAGLE RIDGE KAYDE 15K - Sire of Lot 93

Terms and Conditions

TERMS - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2.5% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. Transcon Livestock Corp and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES - Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE - Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS - There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED -

The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS - All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

EMBRYO & SEMEN - Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
