Welcome from Transcon Livestock...

Welcome to Transcon's 8th Annual Next Step Bull Sale, held at the locally owned Thorsby Stockyards. It is always a pleasure to work with the great folks here.

When I think back to the 2025 sale, the word wow immediately comes to mind. The high seller reached \$58,000, with an impressive \$10,200 average—truly outstanding. However, what stands out most was the packed house and the anticipation in the crowd as buyers competed for this excellent set of bulls. Next Step has become a premier opportunity to purchase outstanding genetics from smaller breeders who genuinely value and appreciate their customers.

My January tour revealed another strong and exciting offering for the 2026 sale. A powerful group of polled Fleckvieh bulls, complemented by stout red and black bulls, along with some outstanding heifer-bull prospects, will all be awaiting your appraisal.

New to the sale in 2026 are Richlan Farms and Newton Creek Simmentals. This will be their inaugural year selling bulls through Next Step, following great success marketing females from their herds.

Plan to come early to view the bulls, enjoy the presale lunch, and be sure to secure your seat for Next Step.

If you are unable to attend in person, please reach out to any member of the Transcon team for assistance. The sale will also be broadcast live on Transcon by TEAM.

Hope to see you on sale day.

KZ SIMMENTALS

Welcome to the 8th annual Next Step bull sale.

First off, I would like to thank my past buyers for all their support. I'm excited about the ten head I am bringing to town this year. My belief in the cattle industry is to raise cattle that come out with ease and have lots of growth, because we get paid by the pound. I run 50 registered purebred Simmentals, as well as a few commercial cows. When choosing my bulls I cull extremely hard for disposition, feet, structure and muscle. I am excited to see what these bulls can do for their new owners. I'm looking forward to seeing you at the Thorsby stock yards on March 12, 2026.

If you have any questions don't hesitate to call anytime or feel free to stop in.

HOMO POLLED

KZ Tesla 282M is stout, soggy, thick made with extra style and herd bull character. Having a thick coat of hair, great disposition and some extra age, he has become a personal favourite and a bull that I feel will advance any program. He is a very easy keeping bull, and could gain weight on a straw bale. His dam is a moderate made, heavy milking cow that cranked it out of the park on this bull. I think he will have a lot of visitors on sale day.

2

HOMO POLLED

This bull has always had the herd bull presence and checks all the boxes. He is deep and long bodied, with a good set of feet under him. Having a great disposition and being my heaviest at both weaning and yearling weight time. I would look to him to raise awesome steer calves and great replacement heifers. I have a first calver full sister that is beautifully uddered and the type I strive to produce. His dam came from the Spring Creek dispersal as one of my top picks, being moderate framed and raising top end calves. I think he will get a lot of attention come sale day.

HOMO POLLED, HOMO BLACK
 A super stylish very impressive calf being great muscled, square hiped, thick haired and long bodied having extra frame and a quiet disposition. He is smooth made, but having an extra rib added to his birth weight. His dam is a bigger frame, heavy milking cow that I also purchased out of the Spring Creek dispersal sale. She has sons working for Sheldon Blume and Jesse Smith.

HOMO POLLED

A moderate framed, long and deep bodied Rancher son that checks a lot of boxes having a great EPD profile. He has that herd bull character and is backed by a really nice McDavid cow. I consider his dam to be the best cow I have in my herd, having a perfect udder and always raising a top end calf. She is a donor cow that I hope to build a herd around. She also has a son working for Cletus Sehn at the Lacombe Research station.

HOMO POLLED, HOMO BLACK

Another really nice Trailblazer son, being more moderate made but still being thick made and square hipped. This is an embryo calf off my donor cow 27E, also being the same dam as the previous lot. I have 3 full sisters in the replacement pen that are equally as impressive and can't wait to get into production.

HOMO POLLED, DILUTER FREE

A stretchy long bodied bull that is smooth made, thick quartered with lots of capacity, style and eye appeal. He was at the top of the pen for both weaning and yearling weights time. I have successfully used his sire Epic in the heifer pen and on some cows the last few years being really happy with the calving ease and performance he provides. His young dam has raised a really nice high selling full brother last year that sold to Blueridge Farms. The dam has a nice tight level udder and raising 2 bulls of this quality ranks her high on my list.

DILUTER FREE

A real eye catching long bodied, good haired blaze faced bull here. I believe he would work well on a young set of cows to be a little easier calving without sacrificing any growth. He comes from a productive red label cow that has raised herd bulls for Dar-Rox farms and Fredrick Strate also being the maternal grandam to the previous lot KZ Epic 103N.

HOMO POLLED, DILUTER FREE

Blood red, smooth made and long spined. He is very athletic with good feet and will cover ground to get the cows bred. We have extensively used his sire Crosby the last several years in our commercial herd with nothing but good to say about him. When you look back into a lot of proven pedigrees you will see Crosby I think that adds a lot of value to this bull.

HOMO POLLED, DILUTER FREE

A Stout performance orientated beef bull that is big framed with good hair, length of body and thick top. He was a part of a flush I split with John Beechinor leaving me 4 full sisters, 3 calving this year that are heavy milking and doing a great job on their first calf this far. A nice full flush brother sold to Baseline Feeders in last years sale and heard good reviews on. There dam ETZ 200A is a big bodied productive cow that knows how to crank them out being the dam to Skors Blaze 48D and Skors Brave heart.

We would like to welcome everyone to the 8th Annual Next Step Bull Sale. It is an honor to once again be part of the Next Step Bull Sale and to market bulls alongside such an outstanding group of cattle producers. We would also like to extend a warm welcome to the good people from Richlan Farms and Newton Creek, joining us in this year's sale.

At Masterloc Simmentals, we currently run approximately 65 polled and horned Full Fleckvieh cows, along with 70 commercial Simmental-cross cows. There is no favoritism here—all cows are managed under practical commercial conditions. Our breeding program utilizes natural service sires, artificial insemination, and embryo transplant to continually move the program forward.

Our calving season typically runs from early April through May. All bulls in this sale are coming two-year-olds and have been grown out on a corn silage and hay ration, top-dressed with oats, Bullseye bull supplement, and a complete mineral program, while being maintained on a full herd health program.

We focus on quality over quantity. Bulls are selected with an emphasis on temperament, sound feet and legs, structural integrity, breeding soundness, and performance. Our goal is to offer bulls that are functional, easy to manage, and capable of adding value in both seedstock and commercial operations.

The Mast McKay family!

Polled Full Fleckvieh bull with an 87 lb birth weight. Masterloc PFB Memphis 17M is without question one of our favorite bulls in the pen. His natural muscle thickness, length of spine, and overall balance drive his performance and functionality. He is a blaze-faced, dark red bull, carrying his color right to the ground with excellent feet and legs.

Memphis is out of Masterloc Hot Flash 5H, the maternal sister to Masterloc Kinsman 2K, who sold in the Friday Night Lights Sale for \$30,000. 5H features a beautiful udder, backed by her impressive dam FSMB Flash 13F—a cow that consistently stamps quality and maternal strength.

His sire, Masterloc HPPF Kingdom 21K, is a homozygous polled Bordeaux son out of Donovan Dale Gabrielle. Kingdom 21K was retained for our commercial herd and select fullblood females, a decision we feel has paid off. Both 5H and her dam 13F earned their way into the Masterloc donor pen last fall, further solidifying the maternal power behind this bull.

MASTERLOC SIMMENTALS

\$20,000.00

12

Polled 100% Full Fleckvieh, non-diluter bull with an 87 lb birth weight. Masterloc PFF Melbourne 30M is another standout son of Rugged R Bordeaux, out of the impressive BLCC Miss Future 17F. He is the third full brother to sell through the Next Step Bull Sale, backed by a proven and consistent mating.

30M offers loads of eye appeal with a moderate frame, dark red color, and strong facial pigmentation. His dam, 17F, features a beautiful udder, adding maternal confidence to this pedigree. He moves out freely on excellent feet and legs, carries a great disposition, and continues to be a pen favorite.

13

Homozygous polled Full Fleckvieh, non-diluter bull with an 89 lb birth weight. Masterloc PFB Maverick 201M is another high-quality son of Rugged R Bordeaux, out of an excellent Raptor daughter. He is almost solid red, accented by just a sliver of white on his face, offering strong color consistency.

Mavrick is deep-bodied with natural muscle, stands on good feet and legs, and moves out freely. He represents a valuable outcross option for red purebred herds, combining performance, structure, and phenotype. An added bonus—he is a natural dehornor, bringing extra convenience and value to any breeding program.

MASTERLOC LUNA 200J
DAM OF LOT 13

DIAMOND T 362F
GRANDDAM OF LOT 13

Homozygous polled Full Fleckvieh, non-diluter bull with a 92 lb birth weight. Masterloc PFF Michaelangelo 18M is an embryo-transfer calf purchased from Double Bar D, bringing proven genetics and performance to the program.

18M is well muscled with lots of natural performance and offers a bit more frame than many homozygous polled bulls. He features a nice, small head, smooth, clean shoulders, and moves freely on good feet and legs. His dam is one of our favorite cows in the breed, adding strong maternal confidence behind this powerful, athletic bull.

Polled Full Fleckvieh, non-diluter bull with a 108 lb birth weight. Masterloc PFB Malaquias 8M is the result of an embryo flush out of the homozygous polled Donovandale Gabrielle, sired by the late, great French Attack.

8M is a dark red, blaze-faced bull that offers loads of performance. He is long as a freight train, packed full of muscle, and moves out freely on excellent feet and legs. Added bonus—8M has a great disposition and is the kind that enjoys a good scratch, making him easy to work with and a pleasure to have around.

CENTURY SIMMENTALS

Welcome to the Next Step bull sale. 2025 has brought record high cattle prices once again, with 2026 looking to build on that. It's a good time to assess and use capital to build for the future. Now might be the time advantage of these record prices to cull and clean up the herd. Load up those problem cows that cause extra work, issues or bulls that are getting up there in age and invest in some new bulls.

Every year we do that herd assessment on feet, udder, temperament, calf performance and maternal, thus creating a functional herd which lessens the work and makes it more enjoyable to raise cattle. Over the past few years we've purchased top end heifers that check these boxes while culling the issue ones. Century Simmentals is committed to raising quality functional cattle with consistency and longevity. As you read through the comments on the bulls, consistency and track records are highlighted, cows are given a few tries then either culled or turned into recipis if they aren't productive. Our feeding program has longevity in mind, these might not be the heaviest bulls sale day but we want them to last with the goal of building long term repeat customers.

We rely on Heartland Feeds for their expertise and quality products supplying mineral, rations and supplements for the Century herd. Bulls are developed on TMR corn silage ration with grain and supplement pellet.

Leduc Farm Animal Hospital covers all our veterinary needs and herd health program. We appreciate their expertise, knowledge and quick response times.

Bulls have been given clean up for lice control as well as up to date shots.

Thank you to past bidders and buyers for making past sales a success. We look forward to continuing to work with you and appreciate your support. One of the things that make the cattle industry so great is the people and businesses in it that makes this whole thing work. Come see the bulls at the farm before sale day or call with any questions. If unable to make it to the sale contact the Transcon team for appraisal of bulls or be on the phone to bid on your behalf.

LANGER FLECKVIEH SIMMENTALS

Welcome to Transcon's 8th Annual Next Step Bull Sale.

This year's offering consists of 2 outstanding extra age bulls, and 7 yearlings that we think very high of. All bulls are polled, dark, red, and come from well structured females with good feet and udders. Videos will be made available on Transcon's website a few weeks prior to the sale. We would like to extend a warm welcome to Richlan Farms and Newton Creek Simmentals to the group and also wishing Nolara Farms and RDG Simmentals all the best in the future.

Hope to see you all sale all day.

Concrete is an embryo calf that we are extremely happy with. His dam is a stand out and stems from our favourite cow family tracing back to MRLN Dulcie. Pol Concrete is a smooth polled, moderate framed, wide topped, huge round hip, really thick, well pigmented bull with a great disposition and an ideal birth weight considering the power being offered in his genetic makeup. He is a really well rounded bull from top to bottom that being said, these are traits that we find hard to let go so hopefully you will all understand why we chose to put him to use for a few select cows in our fall program. If time allows we are going to try to draw some semen on him prior to the sale with some going with the bull. Pol Concrete would be a solid choice for your next herdsire

 I don't know how many bulls you will find that are filled with more proven genetics than this guy has. Spartacus and Viper are some of the most sought after bloodlines around and this bull is a great example as to why. Pol Crixus is moderate framed, lots of hair, good top line and thickness, nicely pigmented, and most definitely the pet of the bullpen. Pretty sure you will have no trouble finding him sale all day, but if not, he will find you. Bringing him home would be a wise decision. Lots to look forward to with Pol Crixus in your bull battery.

For a first calver, I think Pol Baby knocked it out of the park. The job she did raising this guy is noteworthy. I remember the birthweight surprising us a bit being how little effort she put into delivering him. I think there is a really good mix of calving ease and performance in this genetic package. Pol Architect is a long smooth made bull with dark red pigmentation, big goggles, good temperament with a little extra frame, I think Architect has a lot to offer.

We purchased Lazer from Keet's Simmentals in Saskatchewan a few years ago. A homo polled bull that offered genetics we could use on the majority of our herd without line breeding. Lots of good traits throughout the bull, but above all probably the best footed bull we have ever had here. Being that is number one on our list when purchasing bulls I think it says a lot. Pol Beamer is dark, cherry red, has an attractive head, smooth fronted, deep sided bull with a great disposition. He has really good feet and walks out nicely. Beamer spends lots of time snooping over the fence at the ladies so I think he is quite anxious to get to work. Take a good look at Beamer. You will like him too.

 Pol Yahtzee is a dark cherry Red Bull that really excels in foot structure just like his sire, but still stands above average and all the other traits you will be looking for in selecting your next herdsire. Sadie has been a very consistent producer putting keepers in our herd and boys in the bullpen. Last year's bullcalf sold to Red Willow Ranch. Pol Yahtzee is Pam's pic of the Lazer bull calves this year and I'm not going to argue, I suggest you shouldn't either lol. Feel confident rolling the dice on Yahtzee.

 A Lazer sired calf out of a really nice broody female that has done a good job around here. Two daughters sold through the Western Harvest sale, and this will be her second bull calf to be sold here at Thorsby. Pol Collide has a little more caving ease in his genetic make up, is long and smooth fronted with a great dark red hair coat. Take a good look here.

**\$7,500.00**

44

DIAMOND B SIMMENTALS

We would like to welcome you to the 8th Next Step Bull Sale.

We have been in the Simmental business for 34 years and run a herd of Full Fleck Red and Blacks. We are trying to attain bull calves that are easy calving and still have good growth. Which has been with the two sires that we have. All bulls have been given Inforce3 and Bova Shield Gold and 8 way.

All bulls can be viewed at any time. Stop for a visit.

POLLED/SCURRED, 100% FULL FLECK

A solid built bull that weaned over 1400 lbs at a year old. He is out of a deep bodied cow who has a good udder and feet.

SKYLINE SIMMENTALS

Welcome from Skyline Simmentals

We are so excited to be back bringing our best to town! These bulls come from some of our stronger females in the herd, and I believe it shows. We tried hard to showcase the matrons here at Skyline, they work harder and harder every year. They deserve some recognition! We are hard on our females when it comes to structural correctness and temperament. Udder and foot structure, body confirmation, personality and ability to raise a growthy, eye appealing calf are some of the things we take into consideration when keeping a female in the herd.

We have used our new herd sire, BEE Red Prince 421K, heavy on the papered cows and boy was that a good choice to make. He throws a ton of meat and muscle onto his calves, without sacrificing femininity in the females and bulls are built smooth and long. Red Prince is the sire to our highest selling female to date, she brought an impressive \$24,000 as a heifer calf! This herd sire means business.

We run a full herd health program and bulls are semen tested and have had their feet checked out prior to the sale. Let me elaborate on the whole checking of feet, I'm a big fan of being confident in what I am selling and I get the bulls tipped to make sure the structural correctness is as good underneath as it is on top. The weaning weights on these bulls are off their mother and grass. No creep feed needed!

We can't wait to see everyone in Thorsby! If you are in the Onoway area and have time for a tour, don't hesitate to reach out!

Navigator has been a standout since he was a week old. He came out smooth and grew into himself very quickly. He's got a nickname around the farm, we refer to him as "Studly" because I mean, he is a stud! Since a young age he has carried himself like a herd sire, he's got a ton of presence. Studly was our heavyweight at weaning, coming off at a whopping 1070lbs! His dam has a fantastic foundation. She's built long and deep with a solid set of feet and a great udder with a ton of milk. His sire Red Prince needs no introduction. His calves are impressive all around and one of the most consistent sets of calves we have had to date. Prince has a huge dark foot, structural correctness and a ton of meat and muscle, which he passes onto his calves. Studly is a great combination of growth and style. If you want to wean big calves in the fall take a look here.

 My highest selling female to date.

If you're looking to add some power to your herd, without compromising on structural smoothness take a look at this guy. Negotiator is a cool package. Super long made, tucked in shoulder with a ton of capacity through the middle and great muscle all throughout. His dam and granddam are both productive females in the herd and show their worth every year. Foot and udder quality is top notch on both SLS Jade and Cityview Nordica. Negotiator is a true gentleman to handle, and loves his scratches. What more could you ask for!

Nuclear is a bull with an explosive amount of growth. Being our only 3/4 blood in the offering he is not lacking in any department. He's built solid on a big foot, with a great set of testicles underneath him as well. Nuclear was the second heaviest at weaning coming off his 10 year old dam at 1050lbs! Longevity is built into this bull. He's a 3/4 blood because I poach dad's best commercial Simmental cows to test out new bulls, then register the progeny. I can remember Nuclear's granddam, and great granddam. It's a line of beautifully made cows that milk heavy without compromising udder structure, and last forever!

OUT

55

SKYLINE SIMMENTALS

This is a bull that needs to be on your list. Noble is one of our younger bulls on offer and yet you can't tell. He has a great layout, long made, big butt, wide back, big testicles, dark foot, the list goes on. His temperament is top notch as well! He displays a ton of maturity for being an end of February calf. His dam, Jane, is a beautiful cow. Tanky, soggy, smooth. A fantastic udder and feet. She checks all the boxes before you even see her calf. She's the type of cow I like to refer to as a "display cow" she is always in fantastic condition and belongs on display! Noble will be a big time producer regardless of where he ends up. Being an end of February calf, he weaned off in September at 890lbs! This is a bull with a lot of good going on.

If you like dark dark red cattle, take a look here. Narrator is as dark as they come. He's built for success with a smooth shoulder, tons of extension through his front end, long spine, square hind third, with great balance overall. His dam is dandy female. She's moderate in her makeup and stands on a fantastic set of feet and milks like nobody's business. Narrator weaned off as an end of February calf at 880lbs in September! Gracie is no stranger to raising big bulls. She's done it year after year, after year. I'm a big fan of consistency, but a heifer would be nice.. Narrator has a unique pedigree, and is a shot of calving ease with the growth you'd expect from the fleckvieh in the background on the dams side. He's a bull that will catch your eye again and again.

BEE BEAST 241H
 MATERNAL GRANDSIRE OF LOT 58

Here is a sample of what a Beast daughter can do! This is the youngest bull in the offering being an end of February calf. He has outgrown our expectations! Nitrous is a cool combination of smooth and square. He's a well rounded, balanced bull with a crazy amount of spine. His dam is a beautifully uddered female that is fancy in her makeup and easy on the eyes. She milks like a typical Beast daughter, heavy. Beast daughters are highly maternal females that seem to impress year after year. The combination of Beasts length of spine and the jam you get from the Tycoon on the sires side, you get a beautifully made bull.

LFE RED WOOD 840H
 SIRE OF LOT 59

This bull has it all going on. Length of spine, huge barrel, muscle expression, fantastic extension through his front end. What more could you ask for? He checks all the boxes. His outcross pedigree is one of those boxes. He's a cool combination of calving ease and big time growth. He carries himself extremely well, owns every pen he's in. He knows he has got some good stuff going on. He's got a big solid foot under him with great testicular development from a young age. Northern's dam, Ms Deputy is not stranger to raising a top end calf. She's done it year after year. I can't find a bad cross for this cow. She's well known for packing the pounds on her calves while keeping them fancy with a ton of eye appeal. His sire Redwood needs no introduction. He has outdone himself time and time again for Lewis farms. I had to see what Ms deputy could do with a bull like that. Well worth it! What an impressive outcome. If you need a bull that will get the job done and leave you with big growthy calves, take a look here.

Sale Videos Online @ www.transconlivestock.com

NEWTON CREEK SIMMENTALS

Welcome to the 2026 Next Step bull sale. We are extremely excited and grateful for the opportunity to be able to consign our bulls in this sale with these elite producers. This is our first time selling bulls at a live sale as we have just sold them off the farm in previous years but we feel that when an opportunity knocks you must take it.

Our bulls are on a free choice hay and pellet ration from bullseye feeds. They are built to last. Our selection of bulls comes from pedigrees that are tried and true with sires like Razzmatazz, Electric Avenue and Jahari. They were weaned on September 10 with no creep feed until after weaning. Please reach out to us or the Transcon team for any questions you may have.

Hope to see you on March 12, 2026

Regards,
Andrew, Kaylee, Mila & Mallory Kushminder

Norman is a bull that just catches your eye every time you walk in the pen. I feel he has unlimited potential for his new owner. His dam was our pick of the pen at Anchor D's Pasture Treasure sale that year, a larger framed female with a perfect udder. With Razzmatazz on the top side Norman is sure to sire elite females that you will want to put everyone in your replacement pen. We seriously thought about keeping this bull here for ourselves but with this opportunity we are making him available. Don't think we can endorse a bull more than that.

Nolan is a larger framed bull with loads of hair and style. He was noticed all summer long from visitors and will develop into a true powerhouse. His pedigree is as star studded as they come and needs no introduction. Ms Dakota Dream just sold herself this fall for \$35000. There is a higher birthweight with this bull but being an et calf he was almost 2 weeks overdue. Guess work is done with NCS Nolan. Parentage test pending

RICHLAN FARMS

We are extremely excited to be a part of Transcon's Next Step Bull Sale this year!

Our bull offering combines calving ease with strong, consistent performance. These bulls are developed without creep feed, allowing their growth to accurately reflect natural performance and the maternal strength of their dams. This year's bulls have been raised on a rolled barley silage and second-cut alfalfa, supplemented with Bullseye pellets. They are developed with longevity in mind, ensuring they are sound, athletic, and ready to go to work without being overconditioned. The bulls were weaned on September 7.

We invite you to come take a tour of the bulls and we can assist you in finding the bull that best suits your herd. Feel free to reach out to the Transcon team for an unbiased opinion on the boys or to bid on your behalf if you are unable to make the sale.

HORNED, DILUTOR FREE, PARENT VERIFIED

Impact is a RWR Sully grandson that is dark red, heavy haired, double wrap around goggles and has lots of muscle. Sulley x Sugar Ray produces a power bull that you can stick on your cows with no problems. BLL Carly 27H is a bull maker!! I have yet to get a female out of this tank of a cow. Near perfect feet and an excellent udder are qualities that this bull will put into his offspring.

TERMS AND CONDITIONS

TERMS - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Transcon Livestock Corp and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES - Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE - Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS - There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED - The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS - All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price. **EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

EMBRYO & SEMEN - Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
